MORSANI COLLEGE OF MEDICINE
**Changes to Note**

The following curricular changes for the Morsani College of Medicine were approved by the USF Graduate Council on the date noted.

### Programs
- **Athletic Training MS** Change Admission Requirements 1/12/15
- **Medical Sciences MSMS** Change Program – IMS Concentration 5/18/15
- **Medical Sciences Ph.D.** Change Admission Deadlines, requirements 2/2/15
- **Rehabilitation Sciences Ph.D.** Change admission language for clarification n/a

### New Graduate Certificate
- **Scholarly Excellence, Leadership Experiences and Collaborative Training** 1/12/15

### Graduate Certificate Changes
- **Medicine and Gender** Change Courses 1/12/15
University of South Florida
Morsani College of Medicine
12901 Bruce B. Downs Blvd. MDC40
Tampa, FL 33612-4799

Web address: www.health.usf.edu/medicine/graduatestudies
Email: biomed@health.usf.edu
Phone: 813-974-4181
Fax: 813-974-4317

College Dean: Charles J. Lockwood, MD, MHCM
Associate Dean: Michael Barber, D. Phil
Associate Dean: W. Sandy Quillen, Ph.D.

Accreditation:
The Commission on Colleges of the Southern Association of College and Schools

Mission Statement:
The Morsani College of Medicine Graduate Faculty consist of scientists who conduct research in many fields of science basic to understanding disease processes and to the development of improved methods of diagnosis, treatment and prevention of disease. Students receive their research training in up-to-date methods of scientific investigation and gain experience in modern well-equipped laboratories. The faculty is dedicated to providing high quality education in an environment conducive to scholarly activity and scientific achievement.

Candidates for the Ph.D. in Medical Science enter into an interdisciplinary program enabling them to major in any one of the six concentrations that are offered. Collaboration among laboratory scientists of all disciplines is encouraged. The programs of study allow students to tailor their programs to individual needs and interests. Thanks to faculty research awards, students have a multitude of opportunities to participate in cutting-edge research projects. Medical Science Ph.D. graduates go on to become deeply involved in research sponsored by academic, industrial and government institutions.

The master's degree in Medical Sciences (M.S.M.S.) can be completed in as little as one year and has been designed to assist students who are seeking admissions into doctoral programs (Ph.D. or M.D.). Successful graduates of the Medical Science master's program can improve their chances for admissions into professional programs by further developing their foundational knowledge of biomedical science. Currently, the Medical Sciences master's degree program boasts a ninety percent success rate for adequately preparing students for entry into doctoral or professional programs. Financial Aid - A limited number of assistantships, fellowships, and tuition waivers are available for doctoral students.

Major Research Areas:
Allergy, Immunology and Infectious Diseases Cancer Biology, Cardiovascular Research, Neuroscience Research

Degrees, Programs, Concentrations:

Master of Science (M.S.)
Athletic Training (ATR)

Master of Science in Bioinformatics and Computational Biology (M.S.B.C.B.)
Bioinformatics and Computational Biology (BCB)

Master of Science in Biotechnology (M.S.B.)
Biotechnology (MSB)
Master of Science in Health Informatics (M.S.H.I.)
Health Informatics (HIF)

Master of Science in Medical Sciences (M.S.M.S.)
Medical Sciences (MSG)
  Aging and Neuroscience (ANS)
  Athletic Training (ATL)
  Anatomy (ANA)
  Biochemistry and Molecular Biology (BMB)
  Clinical and Translational Research (CTR)
  Health Informatics (HIN)
  Health Science (HSC)
  Interdisciplinary Medical Sciences (IMS)
  Medical Microbiology and Immunology (MDI)
  Metabolic and Nutritional Medicine (MNM)
  Molecular Medicine (MLM)
  Women’s Health (WSH)

Doctor of Philosophy (Ph.D.)
Medical Sciences (MSG)
  Allergy, Immunology and Infectious Disease (AII)
  Anatomy (ANA)
  Biochemistry and Molecular Biology (BMB)
  Clinical and Translational Research (CTR)
  Microbiology and Immunology (MMI)
  Molecular Medicine (MLM)
  Molecular Pharmacology and Physiology (MPY)
  Neuroscience (NEU)
  Pathology and Cell Biology (PCB)
  Pathology and Laboratory Medicine (PLM)
  Pharmacology and Therapeutics (PAT)
  Physiology and Biophysics (PAB)

Rehabilitation Sciences (RHS) NEW
  Chronic Disease (CHD)
  Neuromusculoskeletal Disability (NMD)
  Veteran’s Health/Reintegration (VHR)

Doctor of Medicine (M.D.)*
  Medicine

Doctor of Physical Therapy (D.P.T.)*
  Physical Therapy

*professional programs, offered through the Morsani College of Medicine – USF Medical School

Dual Programs:
  Biomedical Engineering (Ph.D.) and Medicine (M.D.) Dual Degree*
  Biotechnology (MS) and Entrepreneurship in Applied Technologies (M.A.)
  Medical Sciences (Ph.D.)/Medicine (M.D.) Combined Program
  Physical Therapy (D.P.T.) and Public Health (M.P.H.)
*refer to the USF Medical School or the College of Engineering for information.
Graduate Certificates Offered:
Aging and Neuroscience
Biochemistry & Molecular Biology
Bioinformatics
Biotechnology
Brain Fitness and Memory Management
Cardiovascular Engineering
Clinical Investigation
Health Informatics
Health Sciences
Integrative Health Coaching
Integrative Oncology
Integrative Weight Management
Medical Biochemistry, Microbiology and Immunology
Medicine and Gender
Metabolic Cardiology
Metabolic Endocrinology
Metabolic and Nutritional Medicine
Molecular Medicine
Pharmacy Sciences
Scholarly Excellence, Leadership Experiences and Collaborative Training

For the most up to date listing, see:
http://www.usf.edu/innovative-education/programs/graduate-certificates/

COLLEGE REQUIREMENTS
Refer to College for information.
About the Catalog

The University of South Florida Graduate Catalog is organized with the degree programs offered listed in the section of the College that offers them. For example, the Master of Science degree with a “program” (also known as major) in Biology is listed in the College of Arts and Sciences section. Some colleges offer areas of specialization, or “concentrations” within a degree program.

PROGRAMS

MEDICAL SCIENCES PROGRAM

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

CONCENTRATIONS

Concentration Requirements are listed separately under each Program.

The Program and Concentration are listed on the official transcript. Other areas, such as application tracks, are not listed on the transcript.

Example:
Doctor of Philosophy in Medical Sciences
with a Concentration in Anatomy
ATHLETIC TRAINING PROGRAM

Master of Science (M.S.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Domestic Students:
- Fall: No Admission
- Spring: No Admission
- Summer: February 15

International Students living outside the U.S.:
- Fall: No Admission
- Spring: No Admission
- Summer: October 1

Minimum Total Hours: 60
Program Level: Master's
CIP Code: 51.0913
Dept Code: OSM
Program (Major/College): ATR/MD
Concentrations: None

CONTACT INFORMATION

College: Medicine
Department: Orthopedics and Sports Medicine

Contact Information: www.grad.usf.edu

USF Athletic Training Admissions Office – Professional Program
Attn: Angela Moore
13220 USF Laurel Drive, MDF 5th Floor, MDC106,
Tampa, FL 33612

PROGRAM INFORMATION

The Master of Science in Athletic Training (M.S. in A.T.) program is built around 60 credit hours of required coursework to satisfy the eligibility requirements for the students to sit for the National Athletic Trainers’ Association Board of Certification examination.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools

Major Research Areas:
Athletic Training, Rehabilitation, Biomechanics, Prevention of Sudden Death in Athletics

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below

Program Admission Requirements
- A bachelor’s degree from a regionally accredited university
- Minimum of 3.00 GPA or equivalent in undergraduate coursework
- Completion of GRE on record
- Meet the technical standards for admission or show potential for accomplished tasks
- Three (3) letters of Recommendation
- Personal statement in 1000 words or less describe primary career goals, what has most directly influenced your choice to become an Athletic Trainer, your attributes related to the field of Athletic Training and why you should be selected in the Athletic Training program.
- Interview (on campus preferred) with the Athletic Training faculty and staff

http://health.usf.edu/medicine/
Prerequisite Courses
- Anatomy and Physiology (2 semesters)
- Medical Terminology
- Biomechanics/Kinesiology (Recommended)
- Nutrition
- Psychology
- Exercise Physiology
- Chemistry
- Physics
- Biology
- Statistics
- Biomechanics/Kinesiology (Recommended)
- Technical Writing (recommended)

*Students are required to complete between 200-300 clinical hours per semester at various assigned clinical sites around the Tampa area. In accordance to accreditation standards, these clinical experiences must be tied directly to academic credit.

**Many students will take advantage of the summer between the 1st and 2nd years to obtain clinical internships in both local and out of town entities.

Non-Thesis

No thesis is required.

Comprehensive Exam: Capstone requirement

The degree will be a non-thesis option, but will require a capstone project for each student, that will be completed in his or her last semester during the Research in Athletic Training course. The capstone project will be in lieu of a comprehensive examination. The project could consist of items such as a comprehensive literature review, development of an injury
prevention program, systematic review, development of a policies and procedures manual, etc. The Athletic Training faculty will approve the contents of individual projects during the Research in Athletic Training course (ATR 6610).

**Other Information:**
Graduation Requirements - Students will complete all 60 hours of didactic coursework with a minimum GPA of 3.00. Students will complete at least 1000 hours of clinical education under an approved Preceptor.

PROGRAM INFORMATION

The Master’s Program in Bioinformatics and Computational Biology at the University of South Florida represents a multi-college partnership and a truly interdisciplinary collaboration. Participating departments include the Departments of Biochemistry & Molecular Biology in the Morsani College of Medicine, Mathematics in the College of Arts and Sciences, Computer Sciences and Engineering and the Division of Biomedical Engineering in the College of Engineering, Epidemiology and Biostatistics in the College of Public Health and Information Systems and Decision Sciences in the College of Business Administration. The program is designed to meet the increasing demand for trained people in this emerging area, which crosses the traditional fields of biological, mathematical and computer sciences. The program, therefore, builds on and complements the current strengths of the university.

The goal of the Master’s Program in Bioinformatics and Computational Biology is to provide students enrolled in the program with high quality training and education that will prepare them for careers in science, industry, health care and education. The curriculum has been designed accordingly and provides the theoretical background, the practical training and, with the internships, the “real life” experience, which will equip students with the essential tools for a successful career in the field of Bioinformatics and Computational Biology.

The Master’s Program in Bioinformatics & Computational Biology is designed for 36 credit hours to be obtained during one to two years of study. Core courses will provide the foundation and basics before advanced work, including electives, and a Master’s thesis or internship will be pursued. The curriculum is flexible and will be tailored to the individual student's background, interests and career goals. However, electives must be selected from at least two of the participating departments to assure breadth of training.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.
ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
- A bachelor’s degree or equivalent from a regionally accredited university
- Minimum overall grade-point average of 3.00 out of a possible 4.00 with a minimum grade-point average of 3.00 in the sciences
- Graduate Record Examination*
- Completed pre-requisites in:
  - Calculus I-III
  - Linear algebra
  - Biostatistics
  - At least "C" and "Maple" or "Mathematica" or "MATH-CAD"
  - General biology (1 year)
  - Organic chemistry (1 year)

*The GRE may be waived in special circumstances where the applicant can demonstrate substantial bioinformatics experience. This experience includes (but is not limited to) 2-3 years of research experience in academic or industrial settings working on bioinformatics analysis of biological data, or software development (preferentially in biological or bioinformatics fields), or participation in research projects leading to published papers. The decision on the waiving of GRE will be at the Program Director’s discretion.

DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours: 36

Core Requirements – 28
Electives – 8

Prerequisites:
Calculus I-III, linear algebra, biostatistics, at least "C" and "Maple" or "Mathematica" or "MATH-CAD", one year of general biology and one year of organic chemistry.

CORE REQUIREMENTS

Required courses: 28

Students who can demonstrate significant prior training in any required course can, at any time during their studies, with written approval of the Graduate Program Director, replace the course with a program elective course.

ELECTIVES 8

Students select from the lists below, or other course as approved by Graduate Program Director.
SEQUENCE
Required Courses:

**FALL**
- GMS 7930 Basic Principles of Molecular Medicine Sec I & II 4cr
- MAT 4930/5932 Combinatorics/Graph Theory 3 cr
- GMS 6091 Research Ethics 1cr

**SPRING**
- BCH 6886 Fundamentals of Structural Bioinformatics 4 cr
- PHC 6050 Biostatistics I 3cr
- BSC 6932 Computational Biology 3 cr

**SUMMER**
- GMS 7930 Applied BioInformatics 3 cr
- GMS 7930 Python Programming 3 cr
- BCH 6952 Bioinformatics Internship (all semesters) 4 cr – 6 cr

**Electives**

**Science/COM:**
- BCH 6135 Methods In Molecular Biology 4
- GMS 6114 Vaccines and Applied Immunology 2
- GMS 6194 Biotechnology Forum–R&D in Florida’s Biotech Companies 1
- GMS 6933 Case Studies: Intellectual Property in Biotechnology 2
- GMS 6141 Basic Medical Microbiology/Immunology 3
- CIS 6930 Advanced Data Structures 3
- MAT 6932 Sel. Topics in Bioinformatics & Comp. Biology 3
- GMS 7930 Selected Topics 3
- GMS 7939 Graduate Seminar 1
- GMS 6847 Translational Biotechnology 3
- GMS 7910 Directed Research 1-4
- GMS 6101 Molecular and Cellular Immunology 3
- BHC 6746 Structural Biology 3
- BCH 6227 Molecular Basis of Disease 4
- GMS 6103 Found-Med Microbiology and Immunology 4
- GMS 6107 Advances in Virology 2

**Management Information Systems/COBA:**
- ISM 6124 Advanced Systems Analysis and Design 3
- ISM 6218 Advanced Database Management 3
- ISM 6225 Distributed Information Systems 3
- ISM 6930 Data Warehousing and Data Mining 3
- ISM 6930 Information Technology in Medical Care 3

**Computer Science and Engineering/Biomedical Engineering/CE:**
- COT 6405 Introduction to the Theory of Algorithms 3
- CEN 6016 Software Engineering 3
- CAP 5625 Introduction to Artificial Intelligence 3
- CAP 6638 Pattern Recognition 3
- CAP 5400 Digital Image Processing 3
- ESB/CIS 6930 Bioinformatics in Biomedical Engineering 3

**Comprehensive Exam**

As an alternative to a Master’s Comprehensive Exam, Bioinformatics Master’s students will have to complete a practical internship and theoretical assignment, which will both require the successful application of the knowledge they have acquired during their formal training. Required are:

- An internship with a written and an oral internship report and
- A review paper providing an overview of recent advancements in an area of bioinformatics of the student’s choice.

**Thesis**

Complete M.S. Thesis Project or Internship 4-6

Students must maintain an overall average of 3.00 (“B”).

PROGRAM INFORMATION

The USF Master's Program in Biotechnology represents a multi-college partnership and a truly interdisciplinary collaboration. Participating colleges include the Morsani College of Medicine, the College Of Engineering, the College Of Public Health, the College Of Arts And Sciences and the College of Business Administration. The program is designed to meet the increasing demand for trained people in this exploding area, which crosses the traditional fields of biological, chemical, engineering, health and computer sciences. The curriculum has been designed accordingly and provides the theoretical background, the practical training and, with the internships, the “real life” experience, which will equip students with the essential tools for a successful career in the field of biotechnology. In 2008, the USF Biotechnology Master’s Program was recognized by the Council of Graduate Schools as Professional Science Master's Program. Program graduates take jobs in the Biotechnology Industry or move on to a PhD Program, Medical School, Dental School, Veterinary School or Pharmacy School.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
The USF Biotechnology Master's Program will be available for full-time and part-time enrollment. In order to be considered for admission to the Master’s Program in Biotechnology, applicants must fulfill the following requirements:
Administrative Pre-Requirements:
- A bachelor’s degree
- A minimum undergraduate GPA of 3.00 on a 4.00 scale
- A GRE test score
- Two letters of recommendation
- Statement of purpose, indicating how the program would suit the student’s interests and serve his/her professional goals
- Complete transcripts of undergraduate work and any previous graduate work
- International students need an official transcript evaluation, see Office of Admissions
- A completed USF Application to Graduate Studies

Program Pre Requirements:
A good foundation in biochemistry, molecular biology and genetics, i.e. a bachelor's degree in either the biological or chemical sciences or at least one year of studies in those disciplines would be the optimal preparation for admission to the USF Master’s Program in Biotechnology. However, the faculty of the USF Biotechnology Program is aware that not all applicants who are interested in pursuing this degree will have this formal background. Instead, some might have accumulated substantial knowledge in one of these disciplines during their work as laboratory technicians, engineering assistants or environmental or public health service providers. Those students would be ideally suited to start their graduate education with a Graduate Certificate in Biotechnology that is also offered by the Department of Molecular Medicine in the Morsani College of Medicine. http://www.usf.edu/innovative-education/programs/graduate-certificates/biotechnology.aspx

The Biotechnology Graduate Certificate Degree has less stringent entrance requirements a GRE is not required) but its successful completion will serve several purposes:
- it will provide the students with a certificate of advanced studies independent of prospective additional studies in the Biotechnology Master’s Program,
- it will serve as a complete package of fulfilled pre requirements for admission into the Biotechnology Master’s Program,
- 12 credit hours of the Biotechnology Certificate Program can be transferred into the Master’s Program.

DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours

The Master’s Program in Biotechnology is designed for 36 credit hours, which can be obtained in 3 semesters of study. The program will be available for full-time and part-time enrollment. Seven core courses will provide the foundation and basics before advanced work, including four electives and an internship, will be pursued. The curriculum is flexible and can be tailored to the individual student’s background, interests and career goals.

The core courses include introductory courses in biochemistry, molecular and cellular biology, introduction to biotechnology, bioinformatics, biotechnology and bioethics, Translational Biotechnology and a seminar on current topics in biotechnology. Most of these courses are part of the current graduate curricula in the involved colleges. Student will have the option to choose four electives out of a total of 22 electives that are contributed by five participating colleges. The electives are organized in four different categories i.e. science, engineering, public health and business/law and the students will be free to select according to their interests and career plans.

Students must maintain an overall average of 3.00 (“B”)

**Project or Thesis/Dissertation:**

As an alternative to a Master's Comprehensive Exam, biotechnology Master's students will have to complete a practical internship and theoretical assignment which will both require the successful application of the knowledge they have acquired during their formal training. Required are:

- an internship with a written and an oral internship report and
- a review paper providing an overview of recent advancements in an area of biotechnology of the student's choice.

**COURSES**

For more information on individual courses, please see [http://ugs.usf.edu/course-inventory](http://ugs.usf.edu/course-inventory) or contact the program directly: biotech@health.usf.edu
BIOTechnology AND ENTREPRENeurship in APPLIED TECHNOLOGIES
DUAL DEGREE PROGRAM

Master of Science in Biotechnology (M.S.B.) Degree and Master of Science in Entrepreneurship in Applied Technologies (M.S.)

Degree Information

Program Admission Deadlines:
Fall:
Domestic: June 1
International in country: January 2
Spring:
Domestic: October 1
International in-country: February 1
International out of country: June 1

Minimum Total Hours: 57
Program Level: Masters
CIP Code: 26.1201
Dept Code: MED
Program (Major/College): MSB MD

Contact Information

Colleges: Business and Medicine
Department: Center for Entrepreneurship and Molecular Medicine
Contact Information: www.grad.usf.edu

Program Information

The Dual Degree Program in Biotechnology and Entrepreneurship is the combination of two existing programs that allows students to obtain two Master’s degrees in a concurrent rather than sequential effort. The time commitment will be about three years with a total of 57 credit hours. The combination of a Master’s in Biotechnology with a Master’s in Entrepreneurship educates students to understand the scientific process and its challenges and at the same time provides the training that will enable them to facilitate the translation of scientific data from mind to market. This combination makes graduate students outstandingly versatile and thereby lays an essential step-stone for their future success.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The Biotechnology Program has also been recognized as a “Professional Science Master’s Program” by the U.S. Council of Graduate Schools.

Admission Information

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
Students will have to apply individually to each program. Admission to one program does not automatically grant admission to the other program. Once the student has been admitted to both programs, he/she seeks permission from the program directors of both programs for dual crediting of 9 credit hours; the USF Office of Graduate Studies provides a form sheet for this process. For admission students must have:

- A bachelor’s degree with a minimum undergraduate GPA of 3.0 on a 4.0 scale
- A minimum GRE test score of at least 500 verbal and at least 600 quantitative, can be waived in some cases
DEGREE PROGRAM REQUIREMENTS

A total of 57 credits is required for graduation with a Dual Master’s in Biotechnology and Entrepreneurship. Beyond the dual crediting of 9 credit hours, all graduation requirements of the individual programs apply.

Course Requirements:

GMS 6200  Biochemistry and Molecular and Cellular Biology  5
BSC 6436  Intro to Biotechnology  3
BCH 6888  Bioinformatics  3
GMS 6095  Principles of Intellectual Property  3
GMS 6847  Translational Biotechnology  3
BCH 6070  Biotechnology and Bioethics  3
Elective from Biotechnology Program  3

GMS 7939  Graduate Seminar  1
EIN 6106  Technology and Law  3
GEB 6115  New Venture Formation  3
GEB 6930  Fund of Venture Cap Priv Equity  3
EIN 6930  New Product Development  3
GMS 6943  Biotechnology Internship (140 contact hrs minimum)  3
GEB 6930  Strategies in Entrepreneurship  3
EIN 6430  Overview of Regulated Industries  3
GEB 6930  Strategies in Market Assessment  3
GEB 645  Social, Ethical, Legal Systems  3
GEB 6116  Business Plan Development  3
GEB 6930  Adv Topics in Entrepreneurship/Internship  3
GEM 7930  Biomedical Ethics  3
GMS 6141  Basic Medical Microbiology/Immunology  3
GMS 6115  Medical Parasitology and Mycology  3
GMS 6110  Microbial Pathogenesis and Host Parasite Interaction  3

HEALTH INFORMATICS

Master of Science in Health Informatics (M.S.H.I.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
- Fall: February 15
- Spring: October 15
- Summer: February 15

Minimum Total Hours: 32
Program Level: Masters
CIP Code: 51.2706
Dept Code: MED
Program (Major/College): HIF/MD
Approved: 2013

CONTACT INFORMATION

College: Medicine
Contact Information: www.grad.usf.edu

PROGRAM INFORMATION

The Master of Science in Health Informatics degree offers a curriculum which integrates the domains of information science, information resources management and health care organization and management.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
- $65 non-refundable application fee
  The breakdown of this fee is as follows:
  o $30.00 USF’s Application Fee
  o $35.00 Transcript Procurement Fee
- A bachelor’s degree from a regionally accredited university in the biological, chemical, computer or management information sciences or other appropriate field, or the equivalent bachelors and/or graduate degrees from a foreign institution.
- Minimum overall grade-point average of 3.00 out of a possible 4.00 with a minimum grade point average of 3.00 in the sciences
- Transcripts from all colleges and universities attended
- Resume
- Two Letters of Recommendation
- While these are not required, GRE, MCAT or VAT standardized test scores or evidence of substantial health informatics experience can be submitted to enhance an application.
- An example is if a student has a GPA below 3.0 and wishes to prove he will be a positive addition to the school.

Note: F-1 student visa regulations allow students to enroll in only one 3-credit hour online/distance learning course per the official full-time equivalent for the degree level of study. Therefore, the F-1 visa is not appropriate for any degree program that is offered completing via distance learning or online courses. International students may pursue an online program from outside the US, n which case an I-20 is not required.
Applicants who do not require a visa who are from countries where English is not the official language must demonstrate proficiency in English* in one of the following ways:

- By providing scores of 79 or higher on the Test of English as a Foreign Language (TOEFL iBT)
- By providing a score of 6.5 or higher on the International English Language Testing System (IELTS)
- By earning a score of 500 (or equivalent) on the GRE Verbal Exam
- By earning a baccalaureate or higher degree at a regionally accredited institution in the U.S.
- By earning a degree at a foreign institution where English is the language of instruction (must be documented on the transcript)

Proof of Residency

a. Applicants who are not U.S. citizens, but are residing in the U.S., must provide a copy of a U.S. Visa or permanent resident card.
   i. The following VISA types are not eligible to take classes in these programs:
      - F-1
      - F-2
      - B-1/B-2
      - C (transit visa only)
      - D
      - J-1 student
      - M-1
      - M-2
      - The other categories could be admitted - subject to review of ability to engage in study while in the US.

b. Applicants who were born outside of the U.S. but are now U.S. citizens are required to submit proof of citizenship (naturalization paperwork or a copy of a passport).

All foreign transcripts that are not in English must be accompanied by a certified English translation and a course-by-course credential evaluation from any National Association of Credential Evaluators, Inc (NACES) or the Association of International credential Evaluators, Inc. (AICE) approved agency certifying equivalency to the U.S. degree. Documents signed by a notary or other public official with no educational affiliation will not be accepted.

CONTACT INFORMATION

College: Medicine
Department: Medical Sciences
Contact Information: www.grad.usf.edu
Website: http://health.usf.edu/medicine/graduatestudies/index.htm

PROGRAM INFORMATION

The program is designed to provide students with advanced training in either Anatomy, Biochemistry, Medical Microbiology, or Pharmacology. Students successfully completing the program will have a foundation that will prepare them for a professional degree in biomedical science such as a M.D. or Ph.D. or qualify them to work as teachers or research assistants in academia or in the private sector. The program will provide a solid core of training in the latest findings, concepts, and experimental techniques. Students will be allowed to individualize their training through elective courses and will have the opportunity to conduct laboratory research. The program is intended for students who wish training beyond a baccalaureate degree but do not wish to commit to a Ph.D. program or do not meet the qualifications required for admissions into a M.D. or Ph.D. program.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
- A bachelor’s degree or equivalent from a regionally accredited university
- Minimum overall grade-point average of 3.0 out of a possible 4.0 with a minimum grade-point average of 3.0 in the sciences*
- GRE or MCAT
• Completed pre-requisites in:
  ○ General biology (1 year)
  ○ General chemistry (1 year)
  ○ General physics (1 year)
  ○ Organic chemistry (1 year)
  ○ Quantitative analysis (1 course)
  ○ Mathematics including integral and differential calculus

APPLICATION PROCEDURES
Please refer to http://health.usf.edu/medicine/graduatestudies/mscus/apply_domestic.htm?wbc_purpose=Basic

DEGREE PROGRAM REQUIREMENTS

Degree requirements are individualized according to the educational and research interests and goals.

Total Minimum hours 30

Core Requirements
Core Course: (2 hours minimum)
GMS 6871 Health Sciences Ethics 2

Pre-Professional Track: (30 hours minimum in addition to core requirement)
Students are required to complete the following, chosen in consultation with Program Advisor.
GMS 6605 Basic Medical Anatomy 3
GMS 6630 Basic Medical Histology 3
GMS 6201 Basic Medical Biochemistry 3
GMS 6706 Basic Medical Neuroscience 3
GMS 6012 Basic Medical Genetics 3
GMS 6141 Basic Medical Immunology & Microbiology 3
GMS 6433 Clinical Correlations in Molecular Medicine 3
GMS 6440 Basic Medical Physiology 3
GMS 6111 Basic Medical Pathology 3
GMS 6505 Basic Medical Pharmacology 3

Electives Course
GMS 6000 Medical Sciences Success Skills 1-3

Concentration Options:
Students who prefer to take a Concentration instead of the Pre-Professional Track may choose from the following concentrations. Requirements for each are listed on the following pages:

Aging and Neuroscience (ANS)
Anatomy (ANA)
Athletic Training (ATL)
Clinical and Translational Research (CTR)
Health Informatics (HIN)
Health Science (HSC)
Interdisciplinary Medical Sciences (IMS)
Metabolic and Nutritional Medicine
Molecular Medicine (MLM)
Women’s Health (WSH)
CONCENTRATIONS

AGING AND NEUROSCIENCE (ANS)

Neuroscience is one of the fastest growing fields of biomedical sciences. There is an increasing demand for health care professionals and research scientists to meet the needs of the increasing number of the aging population affected with neurodegenerative diseases such as Alzheimer’s disease. The Aging and Neuroscience concentration within the master’s program in Medical Sciences has been developed in collaboration with the School of Aging Studies to integrate neuroscience as well as biomedical aging in one-year curriculum. The program is targeted for students interested in pursuing a medical, professional degree or further graduate education in biomedical sciences and in aging studies. The core curriculum focuses on basic and applied neuroscience, with emphasis on neurodegenerative diseases. Classes on research methods, stem cell biology, neuropharmacology and other basic biomedical sciences, as well as several classes offered by the school of Aging Studies are offered as electives. The students can elect to engage in a research component where they will be supervised by mentors from the USF research faculty or affiliated institutes. Program graduates can pursue further professional training in medicine and allied health sciences, continue their graduate education in neuroscience or aging studies, or work in the diverse health care fields, especially those catered to the aging population.

Concentration Core Requirement:
GMS6020 Neuroscience (Interdisciplinary) 4-6

Required Courses:
GMS7930 Aging and Neuroscience (Neurosurgery) 3
GMS7930 Neuroscience Seminar Series (Neurosurgery) 1
GEY 6613 Physical Change and Aging (Aging Studies) 3
GMS7910 Aging and Neuroscience Directed Research (neurosurgery) 3-12

All students are required to have a minimum of 20 hours of didactic lectures, and a minimum of 6 hours of directed research. Only students who opt for a research paper must and can accumulate a minimum of 15 hours of directed research and laboratory rotations in their mentor/mentors’ laboratories.

Electives
A minimum of 10 credit hours must be fulfilled by COM elective courses.

Morsani College of Medicine Courses
GMS6091 Ethics and Skills in Research (Interdisciplinary) 2
GMS6404 Systems Neurophysiology (Physiology) 4
GMS6602 Neural Correlates of Behavior (Pathology and Cell Biology) 3
GMS6610 Advanced Neuroanatomy (Pathology and Cell Biology) 4
GMS6200 Biochemistry, Molecular & Cellular Biology (Molecular Medicine) 5
GMS7930 Aging/Neuroscience Lab Rotations (Neurosurgery) 3
GMS6735 Neuropharmacology (Pharmacology) 3
GMS7930 Stem Cells in Brain Repair (Neurosurgery) 3
GMS7930 Spec Topics in Alzheimer’s Disease (Neurosurgery) 3
NUR6931 Psychoneuroimmunology (Nursing) 3
PCH6050 Biostatistics (Public Health) 3

School of Aging Elective Courses
GEY6600 Human Development 3
GEY5620 Sociological Aspects of Aging 3
GEY6450 Gerontological Research and Planning 3
GEY6614 Psychopathology and Aging I 3
GEY6934 Alzheimer’s Diseases Management 3
GEY6616 Mental Health assessment in Older Adults 3

Graduate students must maintain an overall average of 3.0 (B) in all courses.
### ANATOMY

**Total Minimum Hours**: 31

**Concentration Core Requirements:**
- GMS6610 Advanced Neuroanatomy 4
- GMS6604 Human Embryology 3
- GMS6608 Advanced Microscopic Anatomy 4
- GMS6609 Advanced Gross Anatomy 6

**Required Courses:**
- GMS6001 Foundations in Biomedical Science 6

**Electives (8 credit hours):**
- GMS6091 Responsible Conduct in Research 1
- GMS6210 Basic Medical Biochemistry (on-line course) 3
- GMS6334 Pathobiology of Human Cancer 3
- GMS6601 Methods in Microscopy 3
- GMS6870 Medical Ethics and Humanities 3
- GMS6671 A Brief History of Anatomy and Pathology 1-2
- GMS7910 Directed Research 1-5
- GMS7910 Directed Research 2
- GMS7930 History of Pathology and Cell Biology 2
- GMS7930 Theory of Cell Culture 3
- PHC6050 Biostatistics (on-line course) 3

### ATHLETIC TRAINING (ATL) –

**28 hours minimum**

**Concentration Core Requirements:**
- ATR 6236 Pediatric Sports Medicine 3

**Concentration Requirements**
- ATR 5605 Youth Injury Epidemiology 3
- ATR 5515 Administration of Injury Prevention Programs 3
- ATR 5508 Contemporary Issues in Athletic Training 3
- ATR 5319 Rehabilitation Considerations for Children 3
- ATR 6615 Evidence Based Research & Writing 3
- ATR 6920 Athletic Training Professional Colloquium 3
  * (Includes 5 days on campus in Tampa)
- ATR 6446 Medical Conditions of Adolescents 3
- ATR 6516 Ethical and Legal Issues in Healthcare 1
- ATR 6617 Capstone Project I 3
- ATR 6618 Capstone Project II 3

### BIOCHEMISTRY AND MOLECULAR BIOLOGY

Contact program for information - **Closed for admissions; not accepting applications**

---

http://health.usf.edu/medicine/
CLINICAL AND TRANSLATIONAL RESEARCH (CTR)

Admission Criteria
This is a one-and-a-half to two-year program of both didactic coursework and mentored research. Admission criteria will be to the Scholars in Patient-Oriented Research (SPOR) Program and include the following:

- Must have a doctoral or first professional degree (M.D., D.O., Ph.D., D.D.S., Pharm.D., Dr.P.T., Doctorate of Nursing Practice, Ph.D. in Nursing, or equivalent degrees)
- GRE score will be waived and replaced by a requirement for documentation of a professional doctorate degree.
- NIH eligibility for the SPOR Program requires U.S. citizenship or status as a non-citizen national or lawfully admitted permanent resident of the U.S.
- Applicants will be required to complete a 2-step application process.
  - For Step 1 to enter the SPOR Program there is an online application.
  - Upon acceptance into the SPOR Program, Step 2 of the application process will consist of completing the standard application procedures to become a graduate degree-seeking student in the Master of Science in Medical Sciences degree program.

Concentration Degree Requirements
Minimum of 32 hours of credit, (23 hours core coursework, 6 hours directed research, and remaining 3 required hours in any combination of directed research and/or elective courses, as needed for each SPOR scholar’s particular research focus. In addition, each SPOR scholar will be required to submit a first author manuscript based on his/her research project (not a review article) to a peer-reviewed journal, and that manuscript must be judged by an appointed sub-panel of the SPOR Program Executive Committee and Key Faculty to be potentially acceptable for publication. This latter requirement is in lieu of a thesis requirement.

HEALTH SCIENCE (HSC)

100% ONLINE. Health sciences, the study and research of the human body and health-related issues, are critical to our understanding of how humans function. The knowledge gained from these studies is vital to today's mission of improving health and preventing and curing diseases. In the new millennium, in which science truly complements the art of medicine, advances in the health sciences contribute to our understanding of the structure and function of molecules key to normal body function and the pathogenesis of disease and to design new approaches for diagnosis, treatment and prevention. Recent changes in research and scholarship in the biomedical sciences has directed attention to the development and training of students who are able cross the barriers of traditional disciplines and embrace the concepts of interdisciplinary approaches to biomedical problems. The Health Sciences concentration, within the Master’s Program in Medical Sciences, has been developed to provide a new interdisciplinary and concentrated program of study that is designed for students interested in either future doctoral professional programs in the biomedical sciences. The program integrates an array of disciplines, including anatomy, biochemistry, histology, physiology, genetics, microbiology, immunology, pathology, pharmacology and ethics to provide a solid medically-relevant foundation. The rigorous program allows students to demonstrate their full academic ability for future graduate programs or medical school. The interdisciplinary program promotes the broad intellectual focus required of future graduate or professional students in the biomedical sciences or health-care related fields. The courses integrate modern distance teaching methods and are designed to improve their academic skills that are critical to their future professional development.

INTERDISCIPLINARY MEDICAL SCIENCES (IMS)

This concentration within the Master’s degree in Medical Sciences program is designed to provide qualified students with advanced training in the sciences basic to the practice of medicine. Students successfully completing the program will have a foundation that fosters opportunities in the private sector, teaching, or the pursuit of further advanced degrees. A goal of this concentration is to provide promising medical school applicants an opportunity to develop the knowledge, skills, and attitudes that would enable them to have a career in the medical sciences. Students who perform well during this program could be considered for admission to medical, graduate, or other health professions programs. This concentration provides an opportunity for students interested in graduate work that has a broad medical base. Students will take courses that will provide the same level of depth, breadth and intensity as those taken by a first year medical student. This will allow successful participants to demonstrate their readiness for the rigors of a medical school curriculum. Alternatively, appropriate selection of elective courses will allow any student who completes the program to tailor their educational experience to best suit their future plans and aspirations.

Admission Information:
Applicants must hold a Bachelor’s degree from an accredited institution at the time of entrance into the program. They must have completed at least 1 year each of General Chemistry, Organic Chemistry, General Biology and General Physics and have achieved a total score of at least 22 on the MCAT. Applicants who are deficient in one or more of these requirements, but otherwise meet the College-wide requirements for admission to the Master’s Program may be considered on a case by case basis.

Total Minimum Hours for the MSMS with a concentration in IMS: 32 hours

MOLECULAR MEDICINE (MLM)

Considered the vanguard of the new millennium in which science truly complements the art of medicine, molecular medicine strives to understand the molecules key to normal body function and the pathogenesis of disease and to design molecular tools for diagnosis, treatment and prevention. Recent changes in research and scholarship in the biomedical sciences has directed attention to the development and training of students who are able to cross the barriers of traditional disciplines and embrace the concepts of interdisciplinary approaches to biomedical problems. The Molecular Medicine concentration, within the Master’s Program in Medical Sciences, has been developed to provide a novel interdisciplinary and concentrated program of study that is designed for students interested in either future doctoral or professional programs in the biomedical sciences. The program integrates several disciplines, including biochemistry, molecular biology, genetics, genomics, microbiology, immunology, virology and biomedical ethics to provide a solid medically-relevant foundation. The rigorous program allows students to demonstrate their full academic ability for future graduate programs or medical school. The interdisciplinary program promotes the broad intellectual focus required of future graduate students in the biomedical sciences or health-care profession. The courses integrate modern teaching methods with extensive student participation designed to improve their oral and presentation skills that are critical to their future professional development.

WOMEN’S HEALTH (WSH)

This innovative, interdisciplinary program, the first in Florida to provide an integrated approach to the subject area of holistic women’s health, is designed to develop leaders in the field of women’s health. The program, which has been constructed to prepare students for future educational or research endeavors in graduate or medical schools or health practice institutions, is designed to fulfill the M.S. M.S. Women’s Health Concentration increasing demand for trained individuals in this emerging area, which focuses on gender-specific issues. The program is founded on the premise that future health-care providers, researchers and educators will require extensive interdisciplinary training in order to develop novel solutions to current biomedical problems in women's health. The interdisciplinary curriculum has been designed to provide the background training that will equip students with the essential tools for a successful career in the field of women’s health.

The program requires a minimum of 32 credit hours, which can be completed in one year of accelerated and intense study. Core courses provide both foundation and advanced training while electives in such topics as reproductive women’s cancers, endocrine mechanisms, clinical nutrition, the business side of medicine and biostatistics, provide students with additional educational opportunities.
Admission Requirements

- A bachelor’s degree or equivalent from a regionally accredited university in the biological or chemical sciences
- Minimum overall grade-point average of 3.0 out of a possible 4.0 with a minimum grade point average of 3.0 in the sciences
- Graduate Record Examination (MCAT scores can be submitted in lieu of the GRE)

MEDICAL SCIENCES PROGRAM

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Fall: February 1

Minimum Total Hours: 90
Program Level: Doctoral
CIP Code: 26.9999
Dept Code: MED
Program (Major/College): MSG MD
Approved: 1974

Concentrations:
- Allergy Immunology & Infectious Disease (All)
- Anatomy (ANA)
- Biochemistry and Molecular Biology (BMB) *
- Clinical and Translational Research (CTR)
- Microbiology and Immunology (MMI) *
- Molecular Medicine (MLM)
- Molecular Pharmacology and Physiology (MPY)
- Neuroscience (NEU)
- Pathology and Cell Biology ((PCB)
- Pathology and Laboratory Medicine (PLM)
- Pharmacology and Therapeutics (PAT)
- Physiology and Biophysics (PAB)
*Closed for admissions; not accepting applications

CONTACT INFORMATION

College: Medicine
Department: Medical Sciences
Contact Information: www.grad.usf.edu
Website: http://health.usf.edu/medicine/graduestudies/index.htm

PROGRAM INFORMATION

The program is designed to provide students with a broad knowledge in the basic medical sciences, while preparing them for careers as effective and knowledgeable teachers, as well as productive and versatile researchers. To meet these objectives, students take courses in the medical sciences and related areas, participate in seminars, and receive individual research training. Departmental advisory committees counsel the entering students in planning their first year curriculum. In addition to course work and participation in seminars, first year students are expected to become familiar with ongoing research in their chosen department; when possible, they are encouraged to work on a part-time basis as research assistants in their department. Once the student selects a major professor, a formal dissertation committee is appointed. The dissertation committee assists the student in planning the research and course of study, evaluates the student's progress, supervises the comprehensive examination, and conducts the final dissertation defense.

By the end of the second year, a student has usually completed sufficient course work and met the other research requirements to take the comprehensive qualifying examination. Successful completion of this examination leads to formal admission to candidacy for the Ph.D. degree. The final phase of the program emphasizes research and independent study and leads to a written dissertation. The Ph.D. degree is awarded upon successful completion and oral defense of the dissertation. Departments within the Morsani College of Medicine may have additional requirements that pertain to their respective training program. Contact the department for information.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.
Major Research Areas:
Allergy, Immunology and Infectious Diseases Cancer Biology, Cardiovascular Research, Neuroscience & Neurodegenerative Diseases, Diabetes/Metabolic Disorders

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

- A bachelor’s degree or equivalent from a regionally accredited university
- Minimum overall grade-point average of 3.00 out of a possible 4.00 with a minimum grade-point average of 3.00 in the sciences
- GRE- Graduate Record Examination (preferred at the 70th percentile or above)
- Completed pre-requisites in:
  - General biology (1 year)
  - General chemistry (1 year)
  - General physics (1 year)
  - Organic chemistry (1 year)
- Three (3) letters of recommendation
- Personal Interview
- One-two page personal statement
- Research experience preferred

Application Procedures
Please refer to http://health.usf.edu/medicine/graduatestudies/phd/apply_phd.htm

DEGREE PROGRAM REQUIREMENTS

Total Minimum Hours: 90 hours
(including 24 minimum directed research hours)

All students are required to successfully complete the following didactic courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GMS 6001</td>
<td>Foundation in Biomedical Sciences</td>
<td>6</td>
</tr>
<tr>
<td>GMS 6091</td>
<td>Responsible Conduct in Research</td>
<td>1</td>
</tr>
<tr>
<td>GMS 6094</td>
<td>Experimental Design &amp; Analysis</td>
<td>3</td>
</tr>
<tr>
<td>GMS 6002</td>
<td>Success Skills for the Biomedical Science Researcher</td>
<td>1</td>
</tr>
<tr>
<td>BCH 6935</td>
<td>Grant Writing &amp; Scientific Communication</td>
<td>2</td>
</tr>
</tbody>
</table>

Students are also required to complete at least one semester of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GMS 6942</td>
<td>Laboratory Rotations in Biomedical Sciences</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Each student shall complete a minimum of 24 credit hours of didactic course work (excluding journal clubs, seminars, laboratory rotations, directed research, etc.). In addition to the required courses listed above (13 credit hours), the student shall fulfill the 24 credit hour minimum by completing coursework in their chosen concentration. The student will work with his/her advisory and dissertation committees to choose appropriate courses from the course list for their chosen concentration.
CONCENTRATIONS:

ALLERGY, IMMUNOLOGY & INFECTIOUS DISEASE
Research and education in the Ph.D. in Medical Sciences Program, concentration in Allergy, Immunology & Infectious Disease is focused on interdisciplinary approaches to the study of how the immune system functions properly to rid the body of foreign pathogens and how the immune system can go awry in autoimmunity. The process by which microbes interact with the host to cause disease is also a focus of this program.

ANATOMY

BIOCHEMISTRY AND MOLECULAR BIOLOGY - Closed for admissions; not accepting applications

CLINICAL AND TRANSLATIONAL RESEARCH
Cardiovascular disease is the leading cause of death, in the United States Atherosclerotic coronary artery disease, valvular heart disease, diseases of the heart muscle, electrical disturbances of the heart rhythm, high blood pressure, stroke, and peripheral vascular disease all contribute to this morbidity. According to current estimates, coronary heart disease, high blood pressure, congestive heart failure and stroke affect nearly 58 million Americans. The USF Signature Interdisciplinary Program in Cardiovascular Research is a comprehensive program that brings together resources in heart care, research and education to fight against cardiovascular disease. Clinicians and researchers at USF are working to improve our knowledge of cardiovascular disease in order to develop new methods of prevention and treatment that will make a difference in the lives of patients with cardiovascular disorders.

MEDICAL MICROBIOLOGY AND IMMUNOLOGY - Closed for admissions; not accepting applications

MOLECULAR MEDICINE
Research and education in the Ph.D. in Medical Sciences Program, concentration in Molecular Medicine is focused on interdisciplinary approaches to the study of bacteriology, biochemistry, immunology, molecular biology and virology as it relates to human health and disease such as allergy and immune dysfunction, cancer, cardiovascular disorders, infectious diseases and inheritable defects. Training will include a unique interdisciplinary blend of didactic coursework, journal clubs, seminar series, as well as significant research experience.

MOLECULAR PHARMACOLOGY & PHYSIOLOGY
Research and education in the Ph.D. in Medical Sciences Program, concentration in Molecular Pharmacology and Physiology is focused on interdisciplinary approaches to the study of the nervous and cardiovascular systems and related disorders, including Alzheimer’s disease and other neurodegenerative disorders, cardiovascular disease and stroke, diabetes, and neuropsychiatric disorders such as depression and drug addiction. Training will include a unique interdisciplinary blend of didactic coursework, journal clubs, seminar series, as well as significant research experience.

NEUROSCIENCE
Research and education in the Ph.D. in Medical Sciences Program, concentration in Neuroscience is focused on interdisciplinary approaches to the study of the nervous systems and related disorders, including Alzheimer’s disease and other neurodegenerative disorders, stroke, and neuropsychiatric disorders such as depression and drug addiction. Areas of expertise include biochemistry and cellular and molecular neuroscience, neural systems and computational neuroscience, behavioral neuroscience, developmental neuroscience, neuroimmunology, and neuropsychopharmacology, among others. Students are encouraged to carry out research during their entire period of study. Training will include a unique interdisciplinary blend of didactic coursework, journal clubs, seminar series, as well as significant research experience. The interdisciplinary structure permits considerable flexibility in training; each student’s training is tailored to meet individual requirements.

PATHOLOGY & CELL BIOLOGY
Research and education in the Ph.D. in Medical Sciences Program, concentration in Pathology & Cell Biology is focused on interdisciplinary approaches to the study of cancer, reproductive pathobiology, neurological disease & injury and related diseases, including cancer biology, angiogenesis and morphogenesis, gene discovery, neurobiology, cell biology and new educational technologies.
PATHOLOGY AND LABORATORY MEDICINE

PHARMACOLOGY AND THERAPEUTICS

PHYSIOLOGY AND BIOPHYSICS

Electives
Some of the electives include:

- BCH 6746 Structural Biology 3
- GMS 6115 Medical Parasitology & Mycology 3
- GMS 6708 Neuroimmunology 3

PROGRAM INFORMATION

The combined MD/PhD program is designed to provide well-qualified students who are interested in careers in translational medicine with a broad knowledge in the basic biomedical and clinical sciences that is integrated with the advanced experimental training that is critical for their development as productive and versatile researchers. To meet these objectives, student’s complete courses in both the basic and clinical sciences, participate in patient-care activities and seminars, and receive individual research training in one of the many research concentrations available within the College. Program advisory committees counsel the entering students on planning their curriculum and selecting a research mentor. During the first two years, students complete the basic science course work and participation in research rotations that assist in the selection of a dissertation mentor. Following the successful completion of the second year of medical training and the selection of a major professor, a formal dissertation committee is appointed which assists the student in planning the research and course of study, evaluates the student's progress and supervises the comprehensive examination.

The successful completion of this examination leads to formal admission to candidacy for the PhD degree. The remainder of this phase of the program emphasizes research and independent study and leads to a written dissertation and its oral defense. Following the completion and defense of their PhD dissertation, students embark on the final two years of their medical training. The program culminates in the award of both MD and PhD degrees. Departments within the Morsani College of Medicine may have additional requirements that pertain to their respective portions of the training program. Contact the department for information.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.

Major Research Areas:
See Morsani College of Medicine website.
ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below. as well as requirements of the Morsani College of Medicine MD and PhD programs, listed below. Student applications must be submitted through AMCAS.

Program Admission Requirements

- A bachelor’s degree or equivalent from a regionally accredited university
- Minimum overall grade-point average of 3.70 out of a possible 4.00 with a minimum grade-point average of 3.7 in the sciences
- Medical College Admissions Test score of 30 (The MCAT substitutes for the GRE).
- Completed pre-requisites in:
  - General biology (1 year)
  - General chemistry (1 year)
  - General physics (1 year)
  - Organic chemistry (1 year)
  - Quantitative analysis (1 course)
  - Mathematics including integral and differential calculus
- Three (3) letters of recommendation
- Interview
- One-two page personal essay

DEGREE PROGRAM REQUIREMENTS

PROGRAM INFORMATION

Physical therapists are health professionals with special expertise in the science of movement. They use this knowledge to provide preventive and therapeutic services and psychological support to people of all ages with movement dysfunction. Professional education includes study of basic sciences and the professional skills needed for client examination, evaluation, diagnosis, prognosis, intervention and outcomes. Students will participate in comprehensive clinical internships throughout the program. The School of Physical Therapy and Rehabilitation Sciences is a component of the Morsani College of Medicine and is a limited access first professional degree program with an annual enrollment of up to 36 students per year. Students complete the majority of their first year studies on a parallel path with the first year curriculum in medicine.

The Doctor of Physical Therapy is offered through the USF Medical School in the Morsani College of Medicine. For information regarding the DPT contact the School of Physical Therapy and Rehabilitation Sciences.

The Master of Public Health is offered through the USF College of Public Health. For information regarding the MPH contact the College of Public Health Graduate Studies office.

Accreditation:
Accredited by the Commission on Accreditation in Physical Therapy Education.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.
Contact programs for complete information.

Program Admission Requirements
- Have a bachelor’s degree or equivalent from a regionally accredited university, and completion of prerequisite courses.
- Have earned a "B" (3.00 on a 4.00 scale) average or better in all work attempted while registered as an upper division student working for a baccalaureate degree; overall GPA of 3.00 and on all prerequisite coursework.
- Interview upon request of the School of Physical Therapy and Rehabilitation Sciences.
Have at least 20 total hours of documented, observational, volunteer or other work experience in both hospital outpatient and inpatient physical therapy settings.

English competency. Applicants who have completed a degree in which English is not the primary language of instruction must present evidence of competency to pursue studies in the English language prior to being extended an offer of admission. Acceptable English language proficiency tests for applicants to the Doctor of Physical Therapy program are: TOEFL (Test of English as a Foreign Language) a minimum score of 600 (paper version); 230 (computer version).

Have a written autobiographical statement of personal values and purpose for attending USF’s DPT Degree Program.

DEGREE PROGRAM REQUIREMENTS

Contact programs for complete information.

Students must complete 107 credit hours of professional coursework and meet the general graduate requirements of the School of Physical Therapy and Rehabilitation Sciences, the Morsani College of Medicine, and the College of Public Health for admission and graduation.

COURSES

See http://ugs.usf.edu/course-inventory
REHABILITATION SCIENCES PROGRAM

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Domestic Students:
Fall: June 1
Spring: November 15
Summer: No Admission

International Students living outside the U.S. Deadline for immigration documents, etc.:
Fall: January 1
Spring: September 15
Summer: No Admission

Minimum Total Hours: 66
Program Level: Doctoral
CIP Code: 51.2314
Dept Code: SPTRS
Program (Major/College): RHS/MD

Concentrations
Veteran’s Health/Reintegration (VHR)
Chronic Disease (CHD)
Neuromusculoskeletal Disability (NMD)

CONTACT INFORMATION

College: Medicine
Department: School of Physical Therapy and Rehabilitation Sciences

Contact Information:
www.grad.usf.edu
http://health.usf.edu/medicine/dpt/

PROGRAM INFORMATION

The Ph.D. in Rehabilitation Sciences degree program will prepare faculty researchers and leaders with content expertise in rehabilitation sciences who will contribute to the development of rehabilitation practice, research and education in an emerging 21st century health care environment. Graduates of the Ph.D. program in Rehabilitation Sciences are expected to demonstrate advanced knowledge and productivity relative to one area of concentration: Veteran’s Health/Reintegration, Chronic Disease, or Neuromusculoskeletal Disability. Students will complete a core set of rehabilitation sciences courses, statistics/research methodology courses and then select an area of content expertise where independent research will be conducted.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools

Major Research Areas:
Rehabilitation Science, Veteran’s Health/Reintegration, Chronic Disease, Prosthetics, Neuromusculoskeletal Disability, Physical Therapy

http://health.usf.edu/medicine/
ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below

Program Admission Requirements
- At least a Master’s degree or first-professional doctoral degree in a rehabilitation or rehabilitation sciences related discipline
- Minimum of 3.00 GPA or equivalent in prior graduate and/or professional degree studies
- GRE required, with preferred minimum scores of 70% V, Q, AW
- Interview to determine professional goals
- Three Letters of Recommendation
- Personal Statement – in 750 to 1000 words, state your professional plans and career objectives (Goal statement). Please include personal qualifications, qualities and professional development and how they have influenced your career path; reasons for this particular degree in relation to academic background, professional work experience, and career goals. Describe prior experiences and accomplishments in a rehabilitation or rehabilitation sciences related discipline.
- Curriculum Vitae
- The Test of English as a Foreign Language (TOEFL/IBT) with a score of 79 or higher or the International English Lang Testing System (IELTS) with a score of 6.5 will be required for international students from countries where English is not the official language, at the discretion of the Admissions Committee.

DEGREE PROGRAM REQUIREMENTS

Total Minimum Hours: 66 credit hours (post-masters)

Core Requirements
- RSD 6111 Introduction to Rehabilitation Science 3 hours
- RSD6112 Advanced Rehabilitation Science 3
- RSD7930 Research Pro-seminar in Rehabilitation Science 2
- RSD7300 Rehabilitation Ethics 3
- RSD7910 Mentored Research Apprenticeship 1 and 2 1-2
- RSD 6921 Colloquium in Rehabilitation Sciences 1 and 2 1-2

Statistics/Research Methods Core
- PHC 6051 Biostatistics II 3
- PHC 7936 Seminar in Health Care Outcomes Measurements 3

Students choose from the following for the remaining 9 hours:
- HSC 6054 Design & Analysis of Experiments for Health Researchers 3
- GMS 6102 Experimental Design & Analysis 3
- PHC 6020 Design and Conduct of Clinical Trials 3
- PHC 6060 Biostatistical Case Studies and Consulting 3
- PHC 7709 Case Studies in Quantitative Analysis of Public Health Data 3
- GMS 6840 Cultural and Diversity Issues in Clinical Research 2
- GMS 6843 Scientific Communication 2
- PHC 7054 Advanced Biostatistical Methods 3
- PHC 7053 Generalized Linear Models 3
- PSY 6217 Research Methods and Measurement 3
- SYA 6437 SPSS and Social Research 3
- PHT 6609 Critical Assessment of the Literature & Evidence-based Practice 3

Concentrations
- Students select from the following Concentrations:

http://health.usf.edu/medicine/
Veteran’s Health/Reintegration (VHR)
Students in consultation with their committee will select courses for the Concentration.
Potential courses:
- RSD 7933 Special Topics in Veteran’s Health/Reintegration 3
- SOW 6126 Theoretical Perspectives on Physical Dysfunction 2
- PET 6388 Physical Activity Health and Disease 3
- PHT 7540 Principles in Patient/Client Management Seminar 3
- GMS 6771 Aging and Neuroscience 3
- MHS 6210 Wraparound Interventions and the System of Care 3
- MHS 6311 Online Services in Counseling and Helping Professions 3
- PHC 6501 Homelessness: Implications for Behavioral Healthcare 3
- PHT 8702 Advanced Prosthetics and Orthotics 3

Chronic Disease (CHD)
Students in consultation with their committee will select courses for the Concentration.
Potential courses:
- RSD 7931 Special Topics in Chronic Disease 3
- GEY 7602 PhD Seminar in Health and Aging 3
- GEY 7604 Biomedical Aging 3
- GEY 7610 Psychological Issues in Aging: Interdisciplinary Perspective 3
- GEY 7622 PhD Seminar in Policy and the Elderly 3
- GEY 7623 Social and Health Issues in Aging 3
- GEY 7649 Population Aging 3
- GMS 6334 Pathobiology of Human Cancer 3
- SOW 6126 Theoretical Perspectives on Physical Dysfunction 3
- PHC 6410 Social and Behavioral Sciences Applied to Health 3
- PHC 6522 Nutrition in Health and Disease 3
- PHC 6931 Advanced Seminar in Social and Behavioral Sciences Applied to Health 3
- PET 6388 Physical Activity Health and Disease 3
- GMS 6500C Core Physiology 4-6
- PET 6369 Cardiorespiratory Aspects of Exercise Physiology 3
- PHT 7540 Principles in Patient/Client Management Seminar 3
- PHC 6418 Public Health and Aging 3
- RCS 5035 Rehabilitation Counseling: Concept and Applications 3
- RCS 5080 Medical Aspects of Disability 3

Neuromusculoskeletal Disability (NMD)
Students in consultation with their committee will select courses for the Concentration.
Potential Courses:
- RSD 7932 Special Topics in Neuromusculoskeletal Disability 3
- GMS 6440 Basic Medical Physiology 3
- GMS 6431 Cell Physiology 4
- GMS 6770 A Metabolic Approach to Pain Management 3
- HSC 6556 Pathobiology of Human Disease I 3
- HSC 6557 Pathobiology of Human Disease II 3
- PET 6388 Physical Activity Health and Disease 3
- PET 6084 Body Composition: Assessment and Management 3
- PET 6098 Topics in Strength and Conditioning 3
- PET 6339 Neuromuscular Aspects of Exercise Physiology 3
- PET 6351 Occupational Medicine for Health Professionals 3
- PHT 7450 Principles in Patient/Client Management Seminar 3
- PHT 7264 Neuromuscular Clinical Problem Solving 3
- PHT 7777 Musculoskeletal Clinical Problem Solving 3
- PHT 8724 Anatomical Basis of Physical Therapy and Rehabilitation 3
Electives  
3-12 hours

Electives may be selected in consultation with student’s committee.
Potential Courses:
- GMS 6020 Neuroscience 5-6
- GMS 6541 Pharmacology for Health Professionals 4
- GMS 6706 Basic Medical Neuroscience 3
- GMS 6843 Scientific Communication 2
- GMS 6875 Ethical and Regulatory Aspects of Clinical Research 3
- GMS 6890 Medicine and the Arts 3
- GMS 6891 Medicine and the Movies 3
- GMS 6840 Cultural and Diversity Issues in Clinical Research 2
- PHT 7151 Health Promotions and Wellness 3
- RSD 7xxx Directed Readings in Rehabilitation Sciences 3
- RSD 7xxx Teaching Practicum in Rehabilitation Sciences 3

Doctoral Qualifying Exam
As soon as the substantial majority of the course work is completed, the student must pass a written qualifying examination covering the subject matter in the major and related fields. This examination may be supplemented by an oral examination.

Dissertation  
12 hours

RSD 7980 Dissertation 12

* A wide range of electives within the Rehabilitation Sciences program and from other departments on the USF and USF Health campuses are available to students. Student may select electives that complement their course work and provide knowledge and skills that they will find useful upon graduation.
** Once accepted into candidacy, a student may begin work on their dissertation.
***While some students may complete the PhD requirements in three years, others may require more time to complete all requirements. Fourth year credit hours and courses would be directed toward fulfilling requirement.
