DEPARTMENTS AND COLLEGE WIDE PROGRAMS

Community and Family Health  
http://publichealth.usf.edu/cfh/  
Adolescent health; Sexual health; Reproductive and women’s health; Family violence; Injury control and prevention; Aging and public health; Social marketing; Maternal and child health; Behavioral health; Health needs of special populations; Social determinants of health; Health disparities; Community-based interventions; Development; implementation and evaluation of programs to support healthy lifestyles; Application of technology in public health.

Environmental and Occupational Health  
http://publichealth.usf.edu/eh/  
Environmental and occupational toxicology and health risk assessment, Ergonomics and occupational heat stress, Occupational and environmental lung disease, inflammation and asthma, Environmental pollution assessment and modeling, bio-monitoring and management.

Epidemiology and Biostatistics  
http://publichealth.usf.edu/epb/  
Epidemiology: Epidemiology of dementia and Alzheimer’s disease, Aging and occupational epidemiology, Cardiovascular disease epidemiology, Social epidemiology and public health geography, Cross-cultural studies, Cancer epidemiology, Perinatal epidemiology, Sleep disorders, Injury epidemiology, Osteoporosis and falls in aging population, Infectious disease epidemiology.  
Biostatistics: Methodologies for analysis of spatial and temporal data including multilevel, mixed-effects, and growth curve modeling, Bayesian methods, Survey and sampling, Missing data, Causal inference, Survival data analysis, and Data mining; Applications ranging from design and analysis of field trials for prevention of mental and behavioral disorders, design and analysis of clinical trials, analysis of social behavioral data, analysis of environmental data such as air pollution, health outcome evaluation, medical surveillance, modeling of biological system including dynamic models of HIV/AIDS trials, and health risk assessment.

Global Health  
http://publichealth.usf.edu/gh/  
"Drug development and diagnosis of emerging and infectious diseases of developing countries, including malaria and tissue and soil transmitted dwelling helminths. Ecology and remote sensing prediction of diseases in developing countries. Ecology and control of vector borne diseases in Florida, especially endemic and emerging arboviruses. Chronic diseases and accident prevention in developing countries. Disaster cycle with emphasis on the recovery phase within the context of a Humanitarian Complex Emergency. Infection control practices and procedures in healthcare settings."

Health Policy and Management  
http://publichealth.usf.edu/hpm/  
Health care financial management, Health economics, Quantitative methods in health services, Health insurance, Health law, Quality management, Performance improvement, Community health assessment, Organizational theory and behavior applied to health settings, Health information management, Health policy, and Strategic planning.

College Wide Programs  
http://publichealth.usf.edu/php/  
Public Health Practice, Executive Public Health Weekend Program, Public Health Generalist, Healthy Communities, Health Equity.
Accreditation:

Mission Statement:
The College of Public Health’s mission is to improve the public’s health through advancing discovery, learning, and service. Goals are related to building strong focused research programs that reward and encourage scholarship and creative activities, continual improvement of academic programs and student centered learning, a college culture that supports our mission, vision, and values, a strong sustainable infrastructure, and active service and meaningful community engagement.

The base of knowledge for public health comes from a variety of disciplines, ranging from social sciences to biological sciences and business, brought together by a commitment to improve the public’s health. Thus, the field is open to students from diverse academic disciplines including Health Sciences, Education, Business, Communication, Mathematics, Social and Natural Sciences. Graduates are prepared for interdisciplinary focused public health careers as administrators, managers, educators, researchers, and direct service providers.

The College’s five departments are Community and Family Health, Environmental and Occupational Health, Epidemiology and Biostatistics, Global Health, and Health Policy and Management. The program in Public Health Practice is College-wide.

Core content is directly related to addressing and meeting public health issues. Off campus or alternate calendar programs may reflect additional offerings to meet specific needs. The College accommodates the working professional as well as the full-time student by offering late afternoon and evening classes, online delivery of courses and graduate certificates, and a executive M.P.H. for experienced health professionals.

The College hosts several College and Departmental based centers that augment the learning opportunities for students. A few examples include the Center for Biological Defense, Center for Leadership in Public Health Practice, Center for Positive Health, the Florida Health Information Center, The James and Jennifer Harrell Center for the Study of Family Violence, the Lawton and Rhea Chiles Center for Healthy Mothers and Babies, and the Florida Prevention Research Center.

Degrees, Programs, Concentrations

Master of Health Administration (M.H.A.)
Health Administration (MHA)

Master of Public Health (M.P.H.)
Public Health (MPH)
Behavioral Health (BHH)
Biostatistics (BST)
Environmental Health (EVH)
Epidemiology (EPY)
Epidemiology and Biostatistics (PEB)-dual concentration
Epidemiology and Global Communicable Disease (EGC) – dual concentration
Epidemiology and Global Health - (EGH)-dual concentration
Epidemiology and Maternal & Child Health (EMC) – dual concentration
Executive Program for Health Professionals (EPH)4,5
Food Safety (FOS)
Global Communicable Disease (TCD)
Global Disaster Management, Humanitarian Relief, and Homeland Security (GHH)
Global Health Practice (GLO) 3
Health Care Organizations and Management (HCO)
Health Policies and Programs (HPP)
Health Safety and Environment (HLE)

4Master’s International Peace Corps Program available
Infection Control (IFC)
Maternal and Child Health (PMC)
Occupational Health (OCC)  
Occupational Health for Nurses
Occupational Safety (SFM)
Public Health Administration (PHA)
Public Health Education (PHN)
Public Health Practice Program (PHP)  
Social Marketing (SOM)
Socio-Health Sciences (SHS)
Toxicology and Risk Assessment (TXY)

**Master of Science in Public Health (M.S.P.H.) Degree**

Public Health (MSP)
- Behavioral Health (PBH)
- Bioinformatics (PBF)
- Biostatistics (PBC)
- Environmental Health (PEH)
- Epidemiology (PEY)
- Global Communicable Diseases (PGD)
- Industrial Hygiene (PIH)
- International Public Health Research, Policy and Planning (PIP)
- Maternal and Child Health (PMH)
- Occupational Health (POH)  
- Occupational Medicine Residency (POM)
- Occupational Safety (POS)
- Public Health Education (PPD)
- Socio-Health Sciences (PSH)
- Toxicology and Risk Assessment (PTX)

**Doctor of Philosophy (Ph.D.) Degree**

Public Health
- Biostatistics (BST)
- Community and Family Health (CFH)
- Environmental Health (EVH)
- Environmental and Occupational Health (EOH)
- Epidemiology (EPY)
- Global Communicable Diseases (TCD)
- Health Services Research (HPM)
- Industrial Hygiene (IHY)
- Occupational Health for Health Professionals (OHP)
- Toxicology and Risk Assessment (TXY)

**Doctor of Public Health (Dr.P.H.) Degree**

Public Health

---

2 Only available to dual M.S. Adult Nursing students
3 Only for health professionals
Accelerated Programs:
B.S. in Public Health and MPH in Public Health: Public Health Education Concentration (3+2 program)
M.S. in Environmental Science & Policy And M.P.H./M.S.P.H. in Public Health
Fast Track MPH/MSPH for USF Honors Students

Dual Degree Programs:
Health Administration and Public Health: Health Policies/Programs  M.H.A/M.P.H.
Public Health and Anthropology  M.P.H./M.A. or Ph.D.
Public Health and Law  M.P.H./J.D.
Public Health and Medicine  M.P.H./M.D.
for already enrolled USF College of Medicine students.
Public Health and Social Work  M.P.H./M.S.W.
Public Health (Occupational Health) and Nursing/Adult Nurse Practitioner  M.P.H./M.S.
Public Health and Biochemistry/Molecular Biology  M.P.H./Ph.D.
Public Health and Physical Therapy  M.P.H./D.P.T.

Peace Corps Master’s International (PCMI) Program
Offered in All Departments
The Peace Corps Master’s International (PCMI) program is a college-wide program open to all students (excluding international students). Master’s International students begin studies on campus, and then serve abroad with the Peace Corps for 27 months before returning to campus to complete graduation requirements for a (M.P.H.) degree or a Master of Science in Public Health (M.S.P.H.) degree. As an incentive, the College provides tuition and fee waivers for up to nine (9) credit hours for the required Field Experience and the Special Project, or the successful defense of a Thesis. PCMI students gain two years of significant international work experience and knowledge while working in resource-poor settings, thereby enhancing their marketability for employment upon graduation.

Graduate Certificates Offered:
For the most current list go to:  http://www.outreach.usf.edu/gradcerts/
Applied Biostatistics*
Biostatistics
Concepts and Tools of Epidemiology*
Diasporas and Health Disparities (shared with Africana Studies)
Disaster Management*
Environmental Health
Epidemiology
Epidemiology of Infectious Diseases*
Global Health in Latin America and Caribbean Studies
Global Health Practice
Health Equity
Health Management and Leadership
Health, Safety & Environment
Homeland Security
Humanitarian Assistance*
Infection Control*
Interdisciplinary Women’s Health
Maternal and Child Health
Maternal Child Health Epidemiology
Planning for Healthy Communities
Public Health Generalist*
Public Health Policy and Programs*
Safety Management
Social Marketing & Social Change*
Toxicology and Risk Assessment
Translational Research in Adolescent Behavioral Health
Violence and Injury: Prevention and Intervention
Water, Health, and Sustainability
*fully on-line

COLLEGE REQUIREMENTS

Attendance Policy
All instructors teaching undergraduate and graduate courses are required to take attendance on the first day of class and to drop students who do not attend the first day of class. Students who experience extenuating circumstances that are beyond their control and who are unable to attend a first class meeting must notify the instructor or the department prior to the first class meeting to request waiver of the first class attendance requirement. Although instructors are authorized to affect the drop, students are fundamentally responsible for knowing their registration status, and the student must insure that his/her registration status reflects the drop by the end of the drop/add period.

Degree Requirements
A detailed description of each degree and its requirements can be found on the website listed.

Master of Health Administration (M.H.A.): http://health.usf.edu/publichealth/hpmmha.html
All M.H.A. students are required to successfully complete a total of 57 credits plus field experience:
- Public Health Core—15 credits
- Management and Policy courses - 20 credits
- Finance, Economic and Decision Making Skills - 17 credits
- Culminating Experiences – 6-7 credits

Master of Public Health (M.P.H.): http://health.usf.edu/publichealth/degree_descriptions.html
All M.P.H. students are required to successfully complete a minimum of 42 credits:
- PHC 6600 History & Systems of Public Health – 1 credit
- Foundations courses – 15 credits
- Concentration courses in specialty areas - 12 credit minimum, depending on department requirements
- Comprehensive Exam
- Field Experience – 1-6 credits
- Special Project - 3 credits
- Electives (variable)

*Students in the Biostatistics concentration who have previously taken introductory statistics courses and have a strong mathematical background must take the more advanced level biostatistics course "PHC 6057: Biostatistical Inference I" instead of "PHC 6050: Biostatistics I". However, if a student does not have this prior training in introductory statistics coursework then she/he can take both PHC 6050 Biostatistics I and PHC 6057 Biostatistical Inference I.
Master of Science in Public Health (M.S.P.H.): [http://publichealth.usf.edu/msph.html](http://publichealth.usf.edu/msph.html)

- All M.S.P.H. students are required to successfully complete 42+ credits depending on concentration requirements
- 9 credits of college core courses including Biostatistics I and Epidemiology, plus one other core courses approved by the academic advisor
- Biostatistics II
- Courses in specialty areas as designated by advisory committee - 12 credits minimum
- Research Methods as determined by advisory committee
- Comprehensive Exam
- Thesis for a minimum of 6 credits
- Electives (variable)

Doctor of Philosophy (Ph.D.): [http://health.usf.edu/publichealth/degree_descriptions.html](http://health.usf.edu/publichealth/degree_descriptions.html)

The Doctor of Philosophy (Ph.D.) is granted in recognition of high attainment in a specified field of knowledge. It is a research degree and is not conferred solely upon the earning of credit or the completion of courses. It is granted after the student has shown proficiency and distinctive achievement in the specific field, has demonstrated the ability to do original, independent investigation, and has presented these findings with a high degree of literacy skills in a dissertation. This degree requires a minimum of 90 credits beyond the baccalaureate degree. Doctoral programs leading to Ph.D. are offered in all five departments and the five core areas of public health. Students have an opportunity to specialize within their department.

Each department has written specific guidelines and there are college-wide PhD student competencies. Students and their major advisor jointly create a written plan to meet all competencies via plan of study, research experience, departmental and professional activities, and other appropriate methods.

The courses and number of credit hours required are defined by the Department and the doctoral committee. Coursework includes the Ph.D. core courses, three semesters of a one-credited hour college-wide Advanced Interdisciplinary Seminar in Public Health, coursework from another department or college, and a minimum of 13 credits at the 7000 level. Generally, the doctoral degree requires a minimum of 90 credits beyond the bachelor’s degree. There is a mandatory doctoral student orientation that all new doctoral students must attend in the fall semester of their first academic year. Students will demonstrate or document proficiency in teaching academic courses at the University level. When all required coursework is satisfactorily completed (including tools of research and prerequisites), the student must pass a comprehensive qualifying examination. All students must complete a dissertation.

Doctor of Public Health (Dr.P.H.)

The Doctor of Public Health (Dr.P.H.) is a professional, practice-oriented degree which is granted in recognition of the attainment of a broad set of practice, analytic and evaluative skills, including demonstrated public health leadership skills. Emphasis will be placed on proficiency in policy development and health policy strategies, public health leadership and management of health programs. Demonstration of applied research skills and strength in evaluation methods via practice-based specialized study will be expected. The Dr.P.H. will require 90 semester hours beyond the baccalaureate degree. Candidates will have an M.P.H. or equivalent degree prior to admission, therefore the actual additional hours required for the Dr.P.H. beyond the Master’s level will average 45 to 50 semester hours, depending upon the program designed by the student and his or her committee. Per University guidelines, all requirements for the doctoral degree must be completed within seven calendar years from the student’s date of admission for doctoral study. Students have four years to complete all required coursework, pass the qualifying examination, and be admitted to doctoral candidacy. Students then have four years from the date of doctoral candidacy to complete degree requirements.
Mission
The mission of the Doctor of Public Health is to prepare practitioners for leadership and advocacy in public health practice through a scientific, interdisciplinary approach to understanding and solving public health problems in the public and private sectors, the United States, and worldwide. This mission relates directly to the University of South Florida mission which includes creating a community of learners together with significant and sustainable university-community partnerships and collaborations; and designing, strengthening and building sustainable healthy communities and improving quality of life.

OTHER INFORMATION

Comprehensive Examination (M.H.A., M.P.H., M.S.P.H.)
The Core Comprehensive Examination covering core courses is a requirement for all students seeking an M.P.H. or M.S.P.H. degree in the College of Public Health.

The Department of Environmental and Occupational Health also requires a concentration comprehensive examination covering the concentration courses. Each department has detailed written guidelines which are listed on department websites. Additional information may be found at http://health.usf.edu/publichealth/academicaffairs/compexam.html. Please consult individual departments for information.

Field Experience
The type and length of the field experience varies. All students in the M.H.A., M.P.H., and M.S.P.H. in Industrial Hygiene are required to complete a field experience. Each department has written guidelines and a field experience website is available to assist students in this portion of their program at http://publichealth.usf.edu/academicaffairs/fe/

Special Project
The special project is an in-depth study of a selected issue in public health. A topic will be selected according to student’s needs and interests.

Thesis (M.S.P.H.)
M.S.P.H. students MUST complete a Thesis.

Graduate Assistantships
Graduate assistants may perform research, teaching functions, assist in the production of seminars and workshops, or other work related to their specific disciplines. Graduate assistants are paid a biweekly stipend and may qualify to receive in-state tuition waivers. Assistantships are awarded on a competitive basis. Students must have a GPA of 3.0 or better in their upper division coursework, must be degree-seeking and enrolled full time.

Additional information may be found at http://publichealth.usf.edu/financial.html
All positions are posted at http://publichealth.usf.edu/jobpostings.html

Scholarships and Aid
Sources of aid are limited to degree-seeking students only and include the following which are detailed at http://www.publichealth.usf.edu/FinAid.html: several named fellowships and scholarships, Florida Environmental Health Association Scholarships, Florida Public Health Association Scholarships, MCH Epidemiology Traineeships, among many others.
About the Catalog

The University of South Florida Graduate Catalog is organized with the degree programs offered listed in the section of the College that offers them. For example, the Master of Science degree with a "program" (also known as major) in Biology is listed in the College of Arts and Sciences section. Some colleges offer areas of specialization, or "concentrations" within a degree program.

PROGRAMS

PUBLIC HEALTH PROGRAM

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

CONCENTRATIONS

Concentration Requirements are listed separately under each Program.

The Program and Concentration are listed on the official transcript. Other areas, such as application tracks, are not listed on the transcript.

Example:
Doctor of Philosophy in Public Health
with a Concentration in Behavioral Health

PROGRAM INFORMATION

The M.H.A. program prepares students for private and public sector leadership positions. In addition to the five core areas of public health, the curriculum helps students develop skills and knowledge in basic business disciplines with application to health services; a clinical and community perspective and professional skills. Students develop an understanding of organizational models and management principles applied to health settings; health care financial management and economics; quality and performance improvement; health policy and policy analysis; strategic planning and marketing; and health law and ethics.

The Master of Health Administration has the following competencies in which the graduate will be able to:

Management Science and Technology
- Explain and demonstrate an understanding of scientific operational definitions and their measurement, e.g., efficiency, effectiveness and quality.
- Integrate operational planning and management tools for performance and quality improvement.
- Demonstrate the use of information systems and application software in health services, e.g., electronic medical records, GIS, and use of software tools for management decision-making.
- Explain and demonstrate the application of quantitative analysis, e.g., descriptive and inferential statistics, regression, forecasting.
- Build analytical thinking acumen, e.g., the ability to understand any issue by delving into its relevant components and formulating solutions.
- Manage and assess operational performance.

Leadership, Planning, and Communication
- Shape operational and strategic plans and integrate with marketing initiatives.
- Lead improvement upon organizational design and culture, e.g., formal and informal decision-making structures, and champion workforce diversity.
- Clarify human resources management and staff development.
- Demonstrate public health values and reinforce ethical decision-making.
- Integrate and demonstrate effective written oral communication.

http://health.usf.edu/publichealth/
Public Policies and Community Engagement
- Assess community needs and values and the role of external relations, e.g., demographic/population contexts for development and management of health services.
- Comprehend and explain the legal and regulatory environment for health services.
- Explain and identify the optimal quantity of health care services to provide, e.g., satisfying supply and demand constraints and resource limitations.
- Analyze public policy context and choices.
- Analyze the linkages between cultural competencies and diversity regarding health disparities.

Concepts of Economic and Financial Management
- Comprehend and create budgets (e.g., variance analysis and standards development) and apply contribution margin analysis as used by clinical revenue-generating personnel and for product line management.
- Explain the principles and applications of cost accounting, e.g., breakeven analysis, the costing process, measurement, and control.
- Understand and construct financial statements, applying ratio analysis and pro forma statement generation.
- Execute financial mathematics, e.g., time value of money calculations, capital budgeting, return on investment, and project risk analyses.
- Perform differential reimbursement calculations by payers (e.g., Medicare/Medicaid, self-pay, managed care) and describe the major principles of health insurance.
- Understand and explain economic evaluation, e.g. cost benefit/cost effectiveness analysis.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The College is fully accredited by the Council on Education in Public Health. Accredited by the Commission on Accreditation of Healthcare Management Education (CAHME).

Major Research Areas:
Health care financial management, Health economics, Quantitative methods in health services, Health insurance, Health law, Quality management, Performance improvement, Community health assessment, Organizational theory and behavior applied to health settings, Health information management, Health policy, and Strategic planning.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
Meeting these criteria per se shall not be the only basis for admission.

- Public health course prerequisites:
  - Suggested/preferred undergraduate majors: Life sciences, social sciences, business, or health professions.
  - Prerequisite undergraduate courses: Microeconomics or equivalent (prerequisite must be completed prior to enrolling in PHC 6430 Health Economics I) and Accounting (prerequisite must be completed prior to enrolling in PHC 6160 Health Care Financial Management)
  - Work experience: Preferred, but not required.
  - Minimum undergrad GPA: 3.00 upper division (may be waived if GRE exceeds minimum subscores).
  - Verbal GRE 50th percentile
  - Quantitative GRE 50 Percentile
In lieu of the GRE, applicants may submit a minimum GMAT score of 500 for the MHA.

Applicants admitted to the M.H.A. or an M.P.H. with a concentration in the Department of Health Policy and Management who have a score on the GRE Verbal of Analytical Writing test which is below the 40th percentile may be required to take REA 2105—Critical Reading and Writing—or an equivalent English composition course, during the first semester of enrollment, and pass with a grade of “B” or better in the class.

  - Suggested/preferred undergraduate majors: Life sciences, social sciences, business, or health professions.
- Prerequisite undergraduate courses: Microeconomics or equivalent (prerequisite must be completed prior to enrolling in PHC 6430 Health Economics I) and Accounting (prerequisite must be completed prior to enrolling in PHC 6160 Health Care Financial Management)
- Work experience: Preferred, but not required.
- Minimum undergrad GPA: 3.0 upper division (some exceptions made if GRE exceeds minimum subscores).
- Verbal GRE 50th % Preferred
- Quantitative GRE 50th % Preferred
- In lieu of the GRE, applicants may submit a minimum GMAT score of 500 for the MHA.
- Applicants admitted to the M.H.A. or an M.P.H. with a concentration in the Department of Health Policy and Management who have a score on the GRE Verbal of Analytical Writing test which is below the 40th percentile may be required to take REA 2105—Critical Reading and Writing—or an equivalent English composition course, during the first semester of enrollment, and pass with a grade of “B” or better in the class.

## COURSES

See [http://www.ugs.usf.edu/course-inventory/](http://www.ugs.usf.edu/course-inventory/)
PUBLIC HEALTH PROGRAM

Master of Public Health (M.P.H.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Domestic Applicants:
Fall: May 1
Spring: August 1
Summer: November 15

International Applications
Fall: May 1
Spring: August 1
Summer: November 15

* Global Health Practice admits in Fall term only.

Minimum Total Hours: 42
Program Level: Masters
CIP Code: 51.2201
Dept Code: DEA
Program (Major/College): MPH/PH
Approved: 1981

Concentrations in:
See list below. Detailed descriptions are available at:
http://publichealth.usf.edu/programs_offered.html

Dual Degrees: See list below.

CONTACT INFORMATION

College: Public Health
Contact Information: www.grad.usf.edu
Program Website:
http://publichealth.usf.edu/mph.html

PROGRAM INFORMATION

Concentrations:
- Behavioral Health (BHH)
- Biostatistics (BST)
- Environmental Health (EVH)
- Epidemiology (EPY)
- Epidemiology and Biostatistics (PEB)
- Epidemiology and Global Communicable Diseases (EGD)
- Epidemiology and Global Health (EGH)
- Epidemiology and Maternal and Child Health (EMC)
- Executive Program for Health Professionals (EPH)
- Food Safety (FOS)
- Global Communicable Diseases (TCD)
- Global Disaster Management, Humanitarian Relief and Homeland Security (GHH)
- Global Health Practice (GLO)
- Health Care Organizations and Management (HCO)
- Health Safety and Environment (HLE)
- Health Policies and Programs (HPP)
- Infection Control (IFC)
- Maternal and Child Health (PMC)
- Occupational Health (OCC) 4
- Occupational Health for Nurses (OCP)

4 Only available to dual M.S. Adult Nursing Students

http://health.usf.edu/publichealth/
Occupational Safety (SFM)
Public Health Administration (PHA)
Public Health Education (PHN)
Public Health Practice, PHP\textsuperscript{5,6}
Social Marketing (SOM)
Socio-Health Sciences (SHS)
Toxicology and Risk Assessment (TXY)

**Accelerated Program Options:**
B.S. in Public Health and MPH in Public Health: Concentration in Public Health Education (3+2)

**Dual Degrees Offered:**
Public Health and Anthropology (M.P.H. with M.A. or Ph.D.)

Public Health and Law (M.P.H./J.D.)—offered collegewide with Stetson Law School

Public Health and Medicine (M.P.H. / M.D.) for already enrolled USF College of Medicine Students

Public Health and Physical Therapy (D.P.T./M.P.H.)
- Designated for students in the DPT program in the School of Physical Therapy-M.P.H. availability collegewide

Public Health and Social Work (M.P.H. / M.S.W.)
- Behavioral Health
- Maternal and Child Health

Public Health (Occupational Health) and Nursing / Adult Nurse Practitioner (M.P.H. / M.S.)

Public Health and Biochemistry / Molecular Biology (M.P.H. / Ph.D.) offered in the following concentrations:
- Epidemiology
- Environmental Health
- Toxicology and Risk Assessment
- Global Communicable Diseases

**Peace Corps Master’s International (PCMI) Program**

*Offered in All Departments*

The Peace Corps Master’s International (PCMI) program is a college-wide program open to all students (excluding international students). Master’s International students begin studies on campus, and then serve abroad with the Peace Corps for 27 months before returning to campus to complete graduation requirements for a (M.P.H.) degree or a Master of Science in Public Health (M.S.P.H.) degree. As an incentive, the College provides tuition and fee waivers for up to nine (9) credit hours for the required Field Experience and the Special Project, or the successful defense of a Thesis. PCMI students gain two years of significant international work experience and knowledge while working in resource-poor settings, thereby enhancing their marketability for employment upon graduation.

The base of knowledge for public health comes from a variety of disciplines, ranging from social sciences to biological sciences and business, brought together by a commitment to improve the public’s health. Thus, the field of public health is broad and is open to students from diverse academic disciplines including Health Sciences, Education, Engineering, Business, Communications, Mathematics, Social Sciences and Natural Sciences. Graduates are prepared for interdisciplinary focused public health professional careers as administrators, managers, educators, researchers, and direct service providers.

The College’s five departments are: Community and Family Health, Environmental and Occupational Health, Epidemiology and Biostatistics, Global Health, and Health Policy and Management. In addition, Public Health Practice is a college-wide program. Core content is directly related to addressing and meeting public health issues.

\textsuperscript{5} Requires 3 years of health-related experience
\textsuperscript{6} Offered (1) executive program and (2) online
The College accommodates the working professional as well as the full-time student by offering late afternoon and evening classes, online course delivery, partnerships with international schools to expand options, a variety of graduate certificates, and a professional M.P.H. for experienced health care professionals.

**Accreditation:**
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The College is fully accredited by the Council on Education in Public Health.

**ADMISSION INFORMATION**

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

**Program Admission Requirements**
All Applicants must take the Graduate Record Exam (except as noted below) or an equivalent taken within five years preceding application unless noted as exceptions and must meet the following criteria:

- Earned an undergraduate degree from an accredited institution;
- Earned a "B" average (3.0 on a 4 point scale) or better in all work attempted while registered as an upper division student working toward a baccalaureate degree
- Graduate Record Examination (GRE) preferred minimum: 44th verbal percentile, 25th qualitative percentile.
- In lieu of the GRE, only applicants to the Department of Health Policy and Management may submit a preferred GMAT score of 500 for the M.P.H.
- An MCAT score may be submitted in lieu of the GRE. A mean of 8 is preferred. The Department of Epidemiology and Biostatistics does not permit the substitution of the MCAT for the GRE.
- Applicants admitted to the M.H.A. or M.P.H. concentration in the Department of Health Policy and Management (HPM) who have a score on the GRE Verbal or Analytical Writing test which is below the 40th percentile may be required to take REA 2105–Critical Reading and Writing—or an equivalent English composition course, during the first semester of enrollment, with a grade of "B" or better in the course.

Meeting of these criteria per se shall not be the only basis for admission.

**Some Department concentration areas prefer a higher GRE subscores. Health Care Organization and Management; Public Health Policies and Programs; Public Health Administration: Minimum GPA of 3.0 upper division undergraduate **

AND **Preferred GRE of 50th percentile on Verbal and 50th percentile on Quantitative.**

**DEGREE PROGRAM REQUIREMENTS**

**Total Minimum Program Hours:** 42 credit hours minimum

- Program Core – 1 credit hour
- Foundation – 15 credit hours
- Concentration/Electives - 22 credit hours minimum (varies with each concentration)
- Field Experience – 1 credit hour minimum (varies with each concentration)
- Special Project -3 credit hours
- Comprehensive Exam

*Students must complete the Program core requirements and then the requirements as specified for the Concentration.*
Program Core Course – 1 hour
PHC 6600  1 History & Systems of Public Health

Foundation Courses - 15 hours
Choose appropriate track:

Track 1 (current foundation courses available to all students)
PHC 6000  3 Epidemiology
PHC 6050  3 Biostatistics I
PHC 6102  3 Principles of Health Policy and Management
PHC 6357  3 Environmental and Occupational Health
PHC 6410  3 Social and Behavioral Sciences Applied to Health

Track 2 (alternate foundation courses available to full-time, on-campus students)
PHC 6080  5 Population Assessment: Part 1
PHC 6081  3 Population Assessment: Part 2
PHC 6140  3 Translation to Practice
6000-level  4 Electives on a public health topic

Concentration
Students select from one of the concentrations listed on the following pages. The Concentration section includes required electives and Field Experience information.

Electives
Students select from suggested electives listed with each Concentration on the following pages.

Field Experience
PHC 6945  1 hr min Supervised Field Experience (up to 12 credits) –
During 2nd semester meet with advisor and begin planning field experience. See
http://health.usf.edu/publichealth/academicaffairs/fe/

Special Project
PHC 6977  3 Special Project

Comprehensive Exam
All M.P.H. students must take a college-wide Comprehensive Exam. Refer to concentration for any additional concentration-specific requirements.

CONCENTRATION OPTIONS
Students select from the following Concentrations:
BEHAVIORAL HEALTH (BHH)

Offered from the Department of Community & Family Health

The M.P.H. in Public Health with a Concentration in Behavioral Health is offered jointly with the USF Louis de la Parte Florida Mental Health Institute with a focus upon behavioral health (mental health and substance abuse) services. This concentration examines community and family issues in evaluation of systems performance and outcomes of public mental health and substance abuse services as well as children’s mental health, aging and mental, HIV and mental health services, and the planning, evaluation and accountability of mental health and substance abuse services. Graduates are prepared to work in mental health, alcohol and drug abuse organizations.

Concentration Admission Information

In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: Undergraduate majors may be admitted from a wide range of backgrounds, although majors from the health sciences such as nursing, pre-med and allied health sciences, and from the social and behavioral sciences (psychology, social work, anthropology, educational psychology, and sociology) are especially appropriate.
- Work experience: Work experience in the field of public health, health, psychology, nursing, counseling, education, social works, etc., is considered extremely desirable.
- Minimum undergraduate GPA 3.0 in upper division course work
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile
- Three letters of recommendation from academic and/or related professional sources.

Total Program Requirements with this concentration - 44 hours minimum

In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 16 credit hours
Electives – 6 credit hours
Field Experience – 3 credit hours minimum

Concentration Course Requirements - 16 hours minimum

Field Experience – 3 hours minimum
PHC 6945 3-6 min Supervised Field Experience (up to 12 credits) –
Students with little or professional experience - 6 hours minimum
Students with relevant professional experience -3 hours minimum

Professional experience would include at least 2 years of supervised work at a mental
health, alcohol, or drug abuse agency in a variety of specialty areas within behavioral health
services. These experiences might include work in program planning, program evaluation,
community prevention and education, etc.

BIOSTATISTICS (BST)
Offered from the Department of Epidemiology & Biostatistics
The MPH program in Public Health with a Concentration in Biostatistics provides educational opportunities for students to
acquire a broad knowledge in biostatistics and apply biostatistical methods to public health problems. The intended
audience of the program includes individuals with strong quantitative background and interests in a professional career in a
public health setting. The program trains students to be able to design studies, to implement data collection and
management plans, to formulate analysis plans and conduct analysis, and to report and communicate analytical results. The
program will also provide students with knowledge in statistical and computational methods and public health.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:
• Suggested/preferred undergraduate majors: mathematics, statistics, computer sciences, natural sciences, biological
  sciences, engineering, medical sciences, environmental sciences, management information systems.
• Prerequisite undergraduate courses: linear algebra, calculus, basic computer skills (e.g. operating system, internet,
  word processing, spread sheet).
• Work experience: Prior work experience is preferred, but not required.
• Other criteria: Academic background, goal statement, student’s academic interest, references and availability of
  faculty and facility resources are also considered as part of the entrance evaluation.

Total Program requirements with this concentration – 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations*, Special Project), this Concentration requires:

Concentration Course Requirements – 15 credit hours
Electives – 9 credit hours
Field Experience – 1 credit hour minimum

*Students who have previously taken introductory statistics courses and have a strong mathematical background must take
the more advanced level biostatistics course "PHC 6057: Biostatistical Inference I" instead of "PHC 6050: Biostatistics I". However, if a student does not have this prior training in introductory statistics coursework then she/he can take both PHC
6050 Biostatistics I and PHC 6057 Biostatistical Inference I.

Prerequisites (Not included in total program hours) - 6 hours
Public health course prerequisites (for students who lack training in public health or biological sciences):
• HSC 4554 3 Survey of Human Diseases
• PHC 4101 3 Introduction to Public Health
• Or an equivalent course is required

Concentration Course Requirements - 15 hours
PHC 6053 3 Categorical Data Analysis
PHC 6051 3 Biostatistics II
PHC 6060 3 Biostatistics Case Studies and Consulting I
HSC 6055 3 Survival Analysis
PHC 6020 3 Design and Conduct of Clinical Trials
Electives - 9 hours
Examples of common elective options
HSC 6054  Design and Analysis of Experiments for Health Researchers
HSC 6056  Survey Sampling Methods in Health Sciences
PHC 6701  3  Computer Applications for Public Health Researchers
PHC 6190  Public Health Data Base Management

Field Experience – 1 hours minimum
PHC 6945  1-3 min  Supervised Field Experience (up to 12 credits) –
No experience, or less than two years using biostatistical principles in a work setting: 3 credits minimum. Two or more years’ experience using biostatistical principles in a work setting: 1 credit minimum.

ENVIRONMENTAL HEALTH (EVH)
Offered from the Department of Environmental and Occupational Health
Students in the MPH program in Public Health with a Concentration in Environmental Health gain a broad perspective in the public health sciences and social sciences, and a fundamental education in the technical sciences with an emphasis on the protection and improvement of our environmental and public health. Students enrolled in the MPH program are likely to be recent graduates of a biological science, environmental science or medicine undergraduate program; employees of county or state agencies; in a military education program; or involved in environmental health & safety management with a company. The motivation for an MPH student to complete an advanced degree is to become an environmental scientist or manager; and increased competence as an environmental scientist or manager; or as pre-medical training or an opportunity to take and pass the US medical boards. Many MPH students are now or will become community leaders, for example, as U.S. Armed Services or Public Health Service Officers; as State Health Officers; or as Agency or Laboratory Directors.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: biological, physical or chemical science; military science; engineering; nursing or medicine; environmental health and technology; environmental science and policy.
- Prerequisite undergraduate courses: introductory college-level algebra, chemistry, and biology (or related course); calculus and organic chemistry preferred.
- Work experience: None required: two years experience in environmental health preferred.
- Minimum undergraduate GPA: 3.0
- GRE Score may be substituted with an MCAT Score averaging eight or higher.
- International applicants from non-English-speaking countries must provide a minimum TOEFL score of 213 (computer-based test) or 550 (written test), taken within 2 years of the desired term of entry.

Total Program requirements with this concentration - 42 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 16 credit hours
Electives – 6 credit hours
Field Experience – 1 credit hour minimum

Prerequisites (not included in total hours) - 6 hours
PHC 4101  3  Introduction to Public Health
HSC 4551  3  Survey of Human Diseases
Concentration Requirement - 16 hours minimum
PHC 6301 3 Water Pollution and Treatment
PHC 6310 3 Environmental and Occupational Toxicology
PHC 6303 3 Community Air Pollution
PHC 6512 3 Vectors of Human Disease
PHC 6305 3 Environmental Analytical Lab
PHC 6930 1 Public Health Seminar

Electives - 6 hours minimum
Suggested Electives Related to Environmental Health:
PHC 6523 3 Food Safety
PHC 6510 3 Exotic and Emerging Infectious Diseases
PHC 6934 3 Water Resources Management Principles
PHC 6354 2 Safety and Health Administration
PHC 6353 2 Environmental Toxicology and Risk Assessment
PHC 6313 2 Indoor Environmental Quality
PHC 6422 2 Environmental Health Law
PHC 6934 1 Water & Wastewater Analysis Laboratory

Field Experience – 1 hour minimum
PHC 6945 1-3 Supervised Field Experience (up to 12 credits)
Students with little or no professional experience: 3 hours minimum. Students with two or more years of professional experience in an environmental health field or as an environmental health educator: 1 hour minimum

EPIDEMIOLOGY (EPY)
Offered from the Department of Epidemiology & Biostatistics
The MPH program in Public Health with a Concentration in Epidemiology is a professional degree, intended for individuals who wish to obtain a broad understanding of public health, with an emphasis on epidemiologic principles and methods. The knowledge and skills obtained through the program will enable graduates to characterize the health status of communities, critically evaluate research on determinants of health-related events, formulate strategies to evaluate the impact of health related interventions and foster the application of epidemiologic methods for health promotion/disease prevention activities at the community level.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: Mathematics, statistics, computer sciences, natural sciences, biology, social sciences, nursing, medicine, dentistry, veterinary medicine, pharmacology, gerontology, allied health professions, environmental health, management information systems.
- Prerequisite undergraduate courses: College algebra, basic computer skills (e.g. operating system, internet, word processing, spread sheet), human structure and function, human health biology. Calculus is recommended.
- Work experience: Prior work experience is preferred, but not required.
- Other criteria: Academic background, goal statement, student’s academic interests, references and availability of faculty and facility resources are also considered as part of the entrance evaluation.

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 15 credit hours
Electives – 9 credit hours
Field Experience – 1 credit hour minimum

Prerequisites (Not included in total program hours) - 6 hours
PHC 4101 3 Introduction to Public Health
HSC 4551 3 Survey of Human Diseases
Concentration Requirements - 15 hours

PHC 6051  3  Biostatistics II
PHC 6010  3  Epidemiology Methods I
PHC 6011  3  Epidemiology Methods II
PHC 6701  3  Computer Applications for Public Health Researchers
PHC 6053  3  Categorical Data Analysis

Electives - 9 hours
For Emphasis Area Support Courses, students will select additional coursework from the following categories:
1 Course in Infectious Disease Epidemiology
1 Course in Chronic Disease Epidemiology
1 Epidemiology or Biostatistics methods course (3 credits)

Field Experience – 1 hour minimum
PHC 6945  1-6  Supervised Field Experience (up to 12 credits)
No experience, or less than two years using epidemiologic principles in a work setting: 3 credits minimum, 6 preferred. Two or more years’ experience using epidemiologic principles in a work setting: 1 credit minimum

EPIDEMIOLOGY AND BIOSTATISTICS (PEB)
Offered from the Departments of Epidemiology and Biostatistics
This dual concentration program is a professional degree, intended for individuals who wish to obtain a broad understanding of public health, with a strong background in analytical skills and methods. The knowledge and skills obtained through this program will enable graduates to seek positions that characterize the health status of communities, critically evaluate research on determinants of health-related events, formulate strategies to evaluate the impact of health related interventions and foster the application of epidemiologic and biostatistical methods for health promotion/disease prevention activities.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

• Suggested/preferred undergraduate majors: mathematics, statistics, computer sciences, natural sciences, biological sciences, engineering, medical sciences, environmental sciences, management information systems.
• Prerequisite undergraduate courses: linear algebra, calculus, basic computer skills (e.g. operating system, internet, word processing, spreadsheet).
• Work experience: Prior work experience is preferred, but not required.
• Other criteria: Academic background, goal statement, student’s academic interest, references and availability of faculty and facility resources are also considered as part of the entrance evaluation.

Total Program requirements with this concentration - 50 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations*, Special Project), this Concentration requires:

Concentration Course Requirements – 24 credit hours
Electives – 6 credit hours
Field Experience – 1 credit hour minimum

* Students who have previously taken introductory statistics courses and have a strong mathematical background must take the more advanced level biostatistics course "PHC 6057: Biostatistical Inference I" instead of "PHC 6050: Biostatistics I". However, if a student does not have this prior training in introductory statistics coursework then she/he must take both PHC 6050 Biostatistics I and PHC 6057 Biostatistical Inference

Prerequisites (not included in total GPA hours) - 6 hours
PHC 4101  3  Introduction to Public Health
HSC 4551  3  Survey of Human Diseases
Concentration Course Requirements - 24 hours

PHC 6051 3  Biostatistics II
PHC 6701 3  Computer Applications for Public Health Researchers
PHC 6053 3  Categorical Data Analysis
HSC 6055 3  Survival Analysis
PHC 6020 3  Design and conduct of Clinical Trials
PHC 6010 3  Epidemiology Methods I
PHC 6011 3  Epidemiology Methods II
PHC 6060 3  Case Studies and Collaboration I

Electives - 6 hours
For Emphasis Area Support Courses, students will select additional coursework from the following categories:
1 Course in Infectious Disease Epidemiology
1 Course in Chronic Disease Epidemiology

Field Experience – 1 hour minimum
PHC 6945 1-6  Supervised Field Experience (up to 12 credits)
Must conduct data analysis project with both Epidemiology and Biostatistics features

Epidemiology and Global Communicable Diseases Concentration (EGD)
Offered from the Departments of Epidemiology and Biostatistics, and Global Health
This dual concentration program is a professional degree, intended for individuals who wish to obtain a solid understanding of public health epidemiological practices, principles and applications, with an emphasis in global communicable disease issues, policies and programs. MPH dual concentration graduates will be prepared for positions in private agencies, non-governmental organizations (NGOs), international, federal and state health agencies that participate in the study of the spread and control of communicable diseases as well as policy and practice involved with the global aspects of epidemiologic issues.

As we face complex issues caused by rapid climate change, population growth, and highly mobile societies, outbreaks of communicable diseases, resulting in morbidity and mortality are an expanding threat to populations worldwide. Graduates from this dual concentration will have the tools to address epidemiologic spread of disease as well as the variety, frequency and location of vector borne and other communicable diseases. This dual program will provide graduates with the skills needed to function effectively in international as well as national and local public health arenas with knowledge of the global impact of communicable disease through epidemiological surveillance, and prevention programs to serve at risk populations.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:
Students in this program require 2 advisors; One Epi., One Global Health.

Total Program requirements with this concentration - 70 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project), this Concentration requires:

Concentration Course Requirements – 30 credit hours (15 GCD, 15 EPI)
Electives – 18 credit hours
Field Experience – 3 credit hour minimum

Concentration Requirements - 30 hours

Global Comm. Diseases Required Courses – 15 hours
Students graduating from the Program will receive training within five core domains which are central to the study of Global Communicable diseases:

1) Tropical and Emerging Infections
2) Microbiology
3) Immunology and Genetics and
4) Public Health Interventions and Disease Control
5) Applied Global Communicable Diseases.

Students must take a minimum of 3 credits from within each domain. Course selection will be determined by the student and their advisor based on student interests and career goals.

Domains and examples of course selection

**Tropical and Emerging Infections - 3 credits minimum**
- PHC 6512 3 Vectors of Human Disease
- PHC 6510 3 Exotic and Emerging Infectious Disease
- PHC 6513 3 Public Health Parasitology
- PHC 6516 3 Tropical Diseases

**Microbiology - 3 credits minimum**
- PHC 6037 3 Public Health Virology
- PHC 6562 3 Microbiology for Healthcare Workers
- PHC 7935 3 Vaccinology*

*with instructor consent

**Public Health Interventions and Disease Control - 3 credits minimum**
- PHC 6314 3 Infection Control Program Design
- PHC 6514 3 Infectious Disease Control in Developing Countries
- PHC 6517 3 Infectious Disease Prev. Strategies
- PHC 6251 3 Disease Surveillance and Monitoring
- PHC 5933 3 Intro to GIS

**Immunology and Genetics -3 credits minimum**
- PHC 6511 3 Public Health Immunology
- PHC 6121 3 Vaccines
- PHC 6934 3 Human Genomics in Public Health and Personalized Medicine

**Applied Global Communicable Diseases - 3 credits minimum**
- PHC 6561 3 Lab Techniques in Public Health
- PHC 6560 3 The Public Health Lab System
- PHC 6934 3 Public Health GIS

**Epidemiology Required Courses - 15**
- PHC 6051 3 Biostatistics II
- PHC 6010 3 Epidemiology Methods I
- PHC 6011 3 Epidemiology Methods II
- PHC 6701 3 Computer Applications for Health Researchers

- PHC 6053 3 Categorical Data Analysis

**Electives - 18 hours**

Global Health Options - 9
- Students will fulfill their Global Health elective credits in consultation with their advisor. It is recommended that students focus on one of the five domains, taking all courses within that domain.

Epidemiology options - 9
- 1 course in Infectious Disease Epidemiology
- 1 course in Chronic Disease Epidemiology
- 1 additional Departmental course from the following areas:
  - Infectious Disease Epidemiology
  - Epidemiology Methods or Biostatistics

http://health.usf.edu/publichealth/
Field Experience – 3 hours minimum
PHC 6945 3 Supervised Field Experience (up to 12 credits)
Field Experience must be Epidemiologic in content Or Peace Corps Experience.

EPIDEMIOLOGY AND GLOBAL HEALTH (EGH)
Offered from the Departments of Epidemiology & Biostatistics, and Global Health
In addition to the overall Master of Public Health degree competencies, Epidemiology and Global Health Practice dual concentration graduates will be able to meet the competencies from both the Epidemiology MPH and the Global Health Practice MPH.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:
Students in this program require 2 advisors; One Epi., One Global Health.

Total Program requirements with this concentration - 61 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 27 credit hours
Electives – 9 credit hours
Field Experience – 6 credit hour minimum

Concentration Course Requirements - 270 hours
Global Health Required Courses - 12
PHC 6764 3 Global Health Principles and Contemporary Issues
PHC 6761 3 Global Health Assessment Strategies
PHC 6106 3 Global Health Program Development and Administration
PHC 6442 3 Global Health Applications in the Field

Epidemiology Required Courses - 15
PHC 6051 3 Biostatistics II
PHC 6010 3 Epidemiology Methods I
PHC 6011 3 Epidemiology Methods II
PHC 6701 3 Computer Applications for Health Researchers
PHC 6053 3 Categorical Data Analysis

Electives - 9 hours
Emphasis area options:
PHC 6074 3 Epi. of Diseases of Maj. PH Importance or Chronic Disease course
PHC 6002 3 Infectious Disease Epidemiology

one of the following
PHC 6511 3 Public Health Immunology OR
PHC 6513 3 Public Health Parasitology OR
PHC 6512 3 Vectors of Human Disease

Epidemiology or Biostatistics methods course

Field Experience – 6 hours minimum
PHC 6945 3 Supervised Field Experience (up to 12 credits)
Field Experience must be international and Epidemiologic in content Or Peace Corps Experience. 6 hours minimum
EPIDEMIOLOGY AND MATERNAL AND CHILD HEALTH (EMC) (Dual Concentration)
Offered from the Department of Epidemiology and Biostatistics and the Department of Community and Family Health
In addition to the overall Master of Public Health degree competencies, Epidemiology and Maternal and Child Health dual concentration graduates will be able to meet the competencies from both the Epidemiology MPH and the Maternal and Child Health MPH.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

Students in this program require 2 advisors; One Epi., One Community and Family Health

Total Program requirements with this concentration- 52 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 27 credit hours
Electives – 3 credit hours
Field Experience – 3 credit hour minimum

Concentration Course Requirements- 27 hours
Maternal and Child Health Required Courses – 12
PHC 6530  3  Maternal and Child Health Issues and Concepts
PHC 6537  3  Case Studies in MCH Programs, Policies, and Research
PHC 6505  3  Program Planning Methods in Community Health
PHC 6197  3  Secondary Data Analysis for Maternal and Child Health

Epidemiology Required Courses - 15
PHC 6010  3  Epidemiology Methods I
PHC 6011  3  Epidemiology Methods II
PHC 6701  3  Computer Applications for Public Health Researchers
PHC 6934  3  Applications in Advanced Biostatistical Methods
PHC 6591  3  Reproductive and Perinatal Epidemiology

Electives - 3 hours
Emphasis Area Support Courses
Choose one of the following:
PHC 6934  3  Special Topics in Child Health
PHC 6532  3  Women’s Health Issues in Public Health
PHC 6414  3  Adolescent Health

Field Experience – 3 hours minimum
PHC 6945  3  Supervised Field Experience
EXECUTIVE PROGRAM FOR HEALTH PROFESSIONALS (EPH)
The Executive Weekend MPH program is a unique and customized program to serve the needs of the busy health care practitioner. Past and current students have represented many health care fields and specialties including physicians, nurses, dentists, pharmacists, occupational therapists and many more. This diversity provides students with the opportunity to meet and collaborate with colleagues from other specialties and geographic areas while enhancing the student’s ability to work in multi-disciplinary teams. Students gain strategic vision while participating on diverse teams with other students averaging three to 33 years of work experience in public health. Courses in this format are intensive, in-depth and offered one weekend a month on the Tampa campus. Small class sizes guarantee students individual attention and rich face to face interactions with experienced peers and faculty. Due to the customized nature of this program, additional fees are assessed and enrollment is limited. For more information, visit: http://publichealth.usf.edu/php/home.html.

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –12 credit hours
Electives – 12 credit hours
Field Experience – 1 credit hour minimum

Concentration Course Requirements - 12 hours
PHC 6120 3 Community Partnerships and Advocacy
PHC 6421 3 Public Health Law and Ethics
PHC 6936 3 Public Health Capstone
Choose one of the following:
PHC 6104 3 Management of Public Health Programs
PHC 6146 3 Health Services Planning and Evaluation

Electives - 12 hours
Electives may be courses that apply towards a graduate certificate or from elective options.

Field Experience – 1 hour minimum
PHC 6945 1 Supervised Field Experience (up to 12 credits)

Comprehensive Exam
Part of Public Health Capstone

FOOD SAFETY (FS)
Offered from the Department of Environmental and Occupational Health
Public health professionals play a pivotal role in preventing foodborne disease. As such, they require unique skills in food safety risk management. Their role will become increasingly important as the world’s population steadily climbs to an estimated 9.6 billion by 2050, and as food supply chain becomes highly global. Students in the MPH program will gain a broad prospective in the public health sciences and technical experience in food safety emphasizing competencies in understanding foodborne hazards, controlling these through science-based food safety risk assessment and management, and developing effective food safety public health policies. Advance degree graduates with experience in both food safety and public health will be effective leaders for food companies, government agencies, and NGOs.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

• Suggested/preferred undergraduate majors: biological or chemical science.
• Prerequisite undergraduate courses: None required. Knowledge of Excel spreadsheets preferred.
• Work experience: None required.
• Minimum undergraduate GPA: 3.0
• GRE Score may be substituted with an MCAT Score averaging eight or higher.
• International applicants from non-English-speaking countries must provide a minimum TOEFL score of 213 (computer-based test) or 550 (written test), taken within 2 years of the desired term of entry.
Total Program requirements with this concentration - 42 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –12 credit hours
Electives – 9 credit hours
Field Experience – 2 credit hours minimum

Concentration Course Requirements - 12 hours minimum

PHC 6522 3 Nutrition in Health and Disease
PHC 6520 3 Foodborne Diseases
PHC 6523 3 Food Safety
PHC 6353 3 Environ. Toxicology and Risk Assessment

Electives - 9 hours minimum
Suggested Electives Related to Food Safety:
PHC 6307 3 Principles of Exposure Assessment
PHC 6521 3 Public Health Nutrition
BSC 6932 3 Food Microbiology
ANG 6145 3 Ancient Diets
ANG 6566 3 Nutritional Anthropology
PHC 6310 3 Environ. and Occupational Toxicology
PHC 6251 3 Disease Surveillance and Monitoring
PHC 6562 3 Microbiology for Healthcare Workers

Field Experience – 2 hours minimum
PHC 6945 2-3 Supervised Field Experience (up to 12 credits)

GLOBAL COMMUNICABLE DISEASES (TCD)
Offered from the Department of Global Health
This concentration provides an opportunity for science-oriented students with an interest in communicable diseases to receive specialized training in the recognition, identification, diagnosis, surveillance, control, and prevention of public health problems related to communicable diseases throughout the world, with particular emphasis on the problems of Florida and underdeveloped nations. Preference for admission is given to students with a background or demonstrated skills in the biological sciences. Prerequisites may be required.

Students graduating from the program will receive training within five core domains which are central to the study of global communicable disease: 1) Tropical and Emerging Infections 2) Microbiology 3) Immunology and Genetics and 4) Public Health Interventions and Disease Control and 5) Applied Global Communicable Diseases. In addition to the MPH Core Courses students will be required to take a minimum of one course from within each domain. Students will then work with their faculty advisor to select a more narrow focus for elective course offerings. It is anticipated that students will take all of the courses within their specific domain of Interest.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

• Suggested/preferred undergraduate majors: Biology, Zoology, Microbiology, Immunology
• Prerequisite undergraduate courses: None. Suggested undergraduate courses include general chemistry with laboratory, biology or zoology with laboratory, microbiology with laboratory, biochemistry with laboratory, immunology
• Work experience: None
• Other criteria: International applicants - TOEFL of 550 for paper-based instrument or 213 for computer-based instrument
• Substitutions: Applicants may substitute an MCAT mean score of 8 for the required GRE Scores
Total Program requirements with this concentration – 46 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements – 15 credit hours
Electives – 9 credit hours
Field Experience – 3 credit hours minimum

Pre-requisites (Not included in program total hours) - 3 hours
Public health course prerequisite:
HSC 4551 3 Survey of Human Diseases OR Equivalent education or work experience.

Concentration Course Requirements - 15 hours
Students must take a minimum of 3 credits from within each domain. Course selection will be determined by the student and their advisor based on student interests and career goals.

Domains and examples of course selection

*Tropical and Emerging Infections - 3 credits minimum*
PHC 6512 3 Vectors of Human Disease
PHC 6510 3 Exotic and Emerging Infectious Disease
PHC 6513 3 Public Health Parasitology
PHC 6516 3 Tropical Diseases

*Microbiology - 3 credits minimum*
PHC 6037 3 Public Health Virology
PHC 6562 3 Microbiology for Healthcare Workers
PHC 7935 3 Vaccinology*
*with instructor consent

*Public Health Interventions and Disease Control - 3 credits minimum*
PHC 6314 3 Infection Control Program Design
PHC 6514 3 Infectious Disease Control in Developing Countries
PHC 6517 3 Infectious Disease Prev. Strategies
PHC 6251 3 Disease Surveillance and Monitoring
PHC 5933 3 Intro to GIS

*Immunology and Genetics - 3 credits minimum*
PHC 6511 3 Public Health Immunology
PHC 6121 3 Vaccines
PHC 6570 3 Human Genomics in Medicine and Public Health

*Applied Global Communicable Diseases - 3 credits minimum*
PHC 6561 3 Lab Techniques in Public Health
PHC 6560 3 The Public Health Lab System
PHC 6934 3 Public Health GIS

*Electives - 9 hours*
Examples of common elective options.
Students will fulfill their Global Health elective credits in consultation with their advisor. It is recommended that students focus on one of the five domains, taking all courses within that domain.

*Field Experience – 3 hours minimum*
PHC 6945 3 Supervised Field Experience (up to 12 credits)
GLOBAL DISASTER MANAGEMENT, HUMANITARIAN RELIEF AND HOMELAND SECURITY (GHH)

Offered from the Department of Global Health

The field of disaster management, and humanitarian relief and homeland security plays an important role in global health, especially in areas of armed conflict and natural disasters. With the increase in weapons of mass destruction, including nuclear and biological threats from terrorist groups and radical states, the need for formal training and education has increased. Local and international organizations, governments and United Nation agencies are in need of highly trained professionals to manage and direct programs to reduce both the homeland and global public health threats that continue to plague us. Where and when the next tsunami or earthquake will strike, or how the next terrorist group will respond is unknown. But the logic behind professionally mitigating and preparing for one of these incidences places us in a stronger position to respond.

This concentration builds on the existing framework of the College of Public Health core courses, field experience and special project. Combining this framework with the disaster management, humanitarian and homeland security courses will provide graduates with the ability to recognize, assess, implement and evaluate a global or local disaster.

Concentration Admission Information

In addition to the Program Admission requirements, applicants must have the following:

- Science, engineering, management, administration, international, business, public health
- Work experience: None required; however disaster management, humanitarian assistance or homeland security, especially in a global setting, will be considered when determining the number of credits required for the Field Experience.
- Other criteria: Two letters of recommendation
- Applicants that completed courses in either the Graduate Certificate in Disaster Management, in Humanitarian Assistance or Homeland Security as a former non-degree seeking student may only transfer 12 credits into the M.P.H. program.

Total Program requirements with this concentration - 46 hours minimum

In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –24 credit hours
Field Experience – 3 credit hours minimum

Concentration Course Requirements - 24 hours

General Courses (9 hours)

PHC 6945  3-6 Supervised Field Experience (up to 12 credits)

GLOBAL HEALTH PRACTICE (GLO)
Offered from the Department of Global Health (Fall term admission only)
This concentration will prepare students for achieving a professional position in the field of international public health, such as with international, bilateral, governmental and non-governmental agencies. The curriculum focuses on assessment and intervention strategies useful in resolving health problems of primarily undeveloped countries. Global Health Practice students have an opportunity to select courses that focus on areas such as epidemiology, maternal and child health, management and socio-cultural health. Students who choose to combine this program with the Peace Corps Master’s International program will be able to obtain a long-term field placement experience that will enhance their marketability for employment.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

• Suggested/preferred undergraduate majors: none
• Work experience: not required
• An MCAT Mean of 8 may be substituted for the GRE
• Other criteria: Minimum technology requirements include intermediate computer skills, two letters of recommendation, resume, and goal statement.

Total Program requirements with this concentration - 49 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –12 credit hours
Electives – 12 credit hours
Field Experience – 6 credit hours minimum

Concentration Course Requirements - 12 hours
PHC 6764  3 Global Health Principles and Contemporary Issues
PHC 6761  3 Global Health Assessment Strategies
PHC 6106  3 Global Health Program Development and Administration
PHC 6442  3 Global Health Applications in the Field

Electives - 12 hours
Courses not included on the list below may be approved by the student’s advisor.

PHC 6111  3 Global Primary Health Care Strategies
PHC 6146  3 Health Services Planning and Evaluation
PHC 6147  3 Managing Quality in Health Care
PHC 6511  3 Public Health Immunology
PHC 6512  3 Vectors of Human Disease
PHC 6513  3 Public Health Parasitology
PHC 6074  3 Epidemiology of Diseases of Major Public Health Importance
PHC 6700  3 Research Methods in Epidemiology
PHC 6934  3 Intermediate Infectious Disease Epidemiology
PHC 6535  3 International Maternal and Child Health
PHC 6765  3 International Health Education
PHC 6536  3 Population and Community Health
PHC 6532  3 Women’s Health Issues in Public Health
PHC 6121  3 Vaccines
PHC 6726  6 Community-Based Participatory Research for Tropical Health
PHC 6518  3 EcoHealth & the Ecology of Tropical Infectious Diseases

Field Experience – 6 hours minimum
PHC 6945  6 Supervised Field Experience (up to 12 credits)
(eight weeks abroad)
HEALTH CARE ORGANIZATIONS AND MANAGEMENT (HCO)
Offered from the Department of Health Policy and Management

The Health Care Organizations and Management program is designed for individuals interested in the management of hospitals, group practices, health departments, and other provider organizations. The program focuses on the structure and management of health care organizations. Students develop knowledge and skills in management science, leadership, and decision-making. The curriculum does not require students to develop all health administration quantitative and analytic skill areas typically required of senior management positions.

Concentration Admission Requirements:
In addition to the Program Admission requirements, applicants must have the following:

- Prerequisite undergraduate courses: Microeconomics or equivalent (prerequisite must be completed prior to enrolling in PHC 6430 Health Economics I) and Accounting (prerequisite must be completed prior to enrolling in PHC 6160 Health Care Financial Management) Undergraduate majors are diverse and include: Life sciences, social sciences, business, or health professions.
- Work experience: Preferred, but not required.
- Minimum undergrad GPA: 3.0 upper division (some exceptions made if GRE exceeds minimum requirements)
- Verbal GRE Score: 50th percentile preferred
- Quantitative GRE Score: 50th percentile preferred
- In lieu of the GRE, only applicants to the Department of Health Policy and Management may submit a minimum GMAT score of 500 for the MHA, or MPH.

Total Program requirements with this concentration - 42 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –18 credit hours
Electives – 4 credit hours minimum
Field Experience – 1 credit hour minimum

Concentration Course Requirements- 18 hours minimum

Students with little or no professional experience: 3 hours minimum. Students with relevant professional experience: 1-3 hours minimum. Students with substantial work experience can negotiate a reduced number of hours with their advisor (e.g., 1 or 2 hours) if the student has meaningful experience (involving decision-making) in a health care or related organization.
HEALTH POLICIES AND PROGRAMS (HPP)
Offered from the Department of Health Policy and Management
The MPH in Public Health Program with a Concentration in Health Policy and Programs is designed for individuals interested in development, analysis and evaluation of public policy for health services and public health programs. Students develop knowledge of theory and methods in policy analysis and program evaluation. Students are prepared to pursue policy analyst and program evaluation positions with federal, state or local agencies or with professional associations.

Concentration Admission Requirements:
In addition to the Program Admission requirements, applicants must have the following:

- Prerequisite undergraduate courses: Microeconomics or equivalent (prerequisite must be completed prior to enrolling in PHC 6430 Health Economics I) Undergraduate majors are diverse and include: Life sciences, social sciences, business, or health professions.
- Work experience: Preferred, but not required.
- Minimum undergraduate GPA: 3.00 upper division
- Verbal GRE Score: 50th percentile preferred
- Quantitative GRE Score: 50th percentile preferred
- In lieu of the GRE, only applicants to the Department of Health Policy and Management may submit a minimum GMAT score of 500 for the MHA or MPH.

Total Program requirements with this concentration - 42 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –15 credit hours
Electives – 7 credit hours minimum
Field Experience – 1 credit hour minimum

Concentration Course Requirements - 15 hours minimum
PHC 6151 3 Health Policy and Politics
PHC 6430 3 Health Economics I
PHD 6760 3 Research Methods in Public Health Programs

Choose one of the following:
PHC 6420 3 Health Care Law, Regulation, and Ethics
PHC 6421 3 Public Health Law & Ethics

Offered from the Department of Global Health

**Total Program requirements with this concentration - 46 hours**  
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

- Concentration Course Requirements – 18 credit hours
- Electives – 6 credit hour minimum
- Field Experience – 3 credit hour minimum

**Concentration Course Requirements - 18 hours minimum**

An additional concentration course will be included from the College of Public Health; student must choose one from the two courses listed below:

PHC 6002 3 Infectious Disease Epidemiology
OR
PHC 6190 3 Public Health Database Management

Depending upon student assessment results

Electives - 6 hours
Electives from within the College of Public Health, based upon student assessment, and approved by assigned advisor:
Examples include but are not limited to the following:
CFH PHC 6530 Maternal and Child Health I: Issues and Concepts
EOH PHC 6934 Exposure Assessment and Control
EOH PHC 6934 Introduction to Occupational Safety
EOH PHC 6350 Occupational Toxicology and Risk Assessment
EOH PHC 6373 Protecting Public Health: Bioterrorism and Biodefense
EOH PHC 6556 Pathobiology of Human Disease I
EBP PHC 6074 Epidemiology of Diseases of Major Public Health Importance
EBP PHC 6591 Reproductive and Perinatal Epidemiology
HPM PHC 6104 Management of Public Health Programs
HPM PHC 6110 International Health and Health Care Systems
HPM PHC 6195 Public Health Data, Information and Decision Making

Field Experience – 3 hour minimum
PHC 6945 3 Supervised Field Experience (up to 12 credits)

MATERNAL AND CHILD HEALTH (PMC)
Offered from the Department of Community and Family Health
The MPH in Public Health with a Concentration in Maternal and Child Health prepares health professionals and individuals in related fields for leadership roles in community based organizations that focus on major public health problems of women, children and families, especially among culturally diverse and underserved populations. Using multidisciplinary approaches, students develop analytical, advocacy, programmatic and evaluative skills to address health disparities, and to emphasize health promotion and disease prevention among populations in need.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: Undergraduate majors may be admitted from a wide range of backgrounds, although majors from the health sciences such as nursing, social work, counseling, pre-med, the natural sciences are desirable.
- Work experience: Work experience in the field of public health, health or natural sciences, counseling, communications, social work, etc. is considered extremely desirable.
- Minimum undergrad GPA: 3.0 in upper division courses
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile
- Other criteria: Three letters of recommendation from academic and/or related professional sources, career goals statement

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –16 credit hours
Electives – 6 credit hour minimum
Field Experience – 3 credit hour minimum

http://health.usf.edu/publichealth/
Concentration Course Requirements - 16 hours
PHC 6530 3 Maternal and Child Health I: Issues and Concepts
PHC 6537 3 Maternal and Child Health II: Case Studies in MCH Program Policies & Research
PHC 6197 3 Secondary Data Analysis in Maternal and Child Health
PHC 6505 3 Program Planning in Community Health
PHC 6724 1 Synthesizing Public Health Research
PHC 6708 3 Evaluation and Research Methods in Community Health

Electives - 6 hours
Examples of common elective options
PHC 6523 3 Policies and Practices in Maternal and Child Nutrition
PHC 6532 3 Women’s health issues in Public Health
PHC 6590 3 Reproductive Health Trends and Issues
PHC 6535 3 International Maternal and Child Health
PHC 6414 3 Adolescent Health
PHC 6934 3 Selected Topics in Maternal Child Health

Field Experience – 3 hour minimum
PHC 6945 3-6 Supervised Field Experience (up to 12 credits)

Students with little or no professional experience: 6 hours minimum. Students with relevant professional experience: 3 hours minimum. An expectation of 2-3 years of experience in an MCH-related clinical background or agency constitutes the term “previous professional experience” worthy of lesser field experience. Documentation required if less than 6.

OCCUPATIONAL HEALTH (OCC)7
Offered from the Department of Environmental and Occupational Health
Note: The MPH in Public Health with a Concentration in Occupational Health is only available to dual MS Nursing Students or qualified health professionals.

The principal concerns of the occupational health professional are: the worker; the work environment and chemical, physical, and ergonomic and biological agents in the workplace. The curriculum is interdisciplinary in nature and scope, addressing topics in these broad areas. The MPH in Public Health with a Concentration in Occupational Health is a 45 credit program designed for either physicians in practice who are interested in the residency but can not spend 2 years away from their practice (They complete their MPH first while maintaining their practice and then spend only 1 year in the clinical residency program), or for other practicing health professionals.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: A clinical degree required e.g. medicine, nursing, physical therapy, occupational therapy
- Prerequisite undergraduate courses: Science related courses used in preparation for clinical professional degree
- Work experience: Two years of clinical experience preferred
- Minimum undergrad GPA: 3.0 in last 60 hours of undergraduate degree
- Other criteria: Two letters of recommendation, computer skills, resume, goal statement

Total Program requirements with this concentration - 43 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements ~13 credit hours
Electives – 10 credit hour minimum
Field Experience – 1 credit hour minimum

7 Only available to dual M.S. Adult Nursing Students
Note: NGR 6638 Health Promotion Theories and Strategies Across the Lifespan will substitute for the PHC 6410 core course for dual nursing MS/MPH students. During 2nd semester meet with advisor and begin planning field experience. See http://health.usf.edu/publichealth/academicaffairs/fe/

OCCUPATIONAL SAFETY (SFM)
Offered from the Department of Environmental and Occupational Health
The Occupational Safety Concentration is intended for students with backgrounds in science or engineering seeking a professional public health career in occupational safety. In addition to core public health courses, the program builds upon a variety of courses enabling the student to recognize, evaluate and control existing and potential safety hazards due to faulty equipment, process design, chemical storage and handling. Students are trained to apply these safety principles in assessing engineering controls, personal protective techniques, administrative practices, conducting facility audits and to know when to consult with other environmental and occupational health and safety professionals to prevent or control work related injuries, illnesses or discomfort in the workplace. The program is a collaborative effort between the College of Public Health and the College of Engineering.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: science, engineering, technology and management.
- Prerequisite undergraduate courses: No specific courses, however 60 credit hours of science, mathematics, engineering and technology with at least 15 credit hours in upper division classes.
- Work experience: None required; however occupational work experience is beneficial.
- Other criteria: Two Letters of recommendation

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –20 credit hours
Electives – 4 credit hour minimum
Field Experience – 1 credit hour minimum

Concentration Course Requirements - 20 hours

Field Experience – 1 hour minimum
PHC 6945 1-3 Supervised Field Experience (up to 12 credits)
Students with little or no professional experience: 3 hours minimum. Students with relevant professional experience: 1 hour minimum working in or associated with an occupational health and safety function with orientation in the recognition, evaluation and control of occupational hazards and disease for at least a year.
Comprehensive Exam
In addition to the Comprehensive Exam required by the College, there is a Concentration Exam (no credit, 2 credit hours enrollment requirement).
Concentration Exam (no credit, 2 credit hours enrollment requirement)

PUBLIC HEALTH ADMINISTRATION (PHA)
Offered from the Department of Health Policy and Management
The MPH in Public Health Administration program is designed for individuals interested in pursuing leadership and administrative positions in public health agencies or programs or in other initiatives focused on population health. The curriculum centers on management principles and methods to advance the health of communities. Students develop knowledge and skills in public health, management and planning, law and ethics, and financial management.

Concentration Admission Requirements:
In addition to the Program Admission requirements, applicants must have the following:

- Undergraduate majors are diverse and include: Life sciences, social sciences, business, or health professions.
- Prerequisite undergraduate course: Accounting (prerequisite must be completed prior to enrollment in PHC 6160 Health Care Financial Management)
- Work experience: Two years of full-time, meaningful work experience in a health care or related organization are required.
- Minimum undergrad GPA: 3.0 upper division (some exceptions made if GRE exceeds minimum requirements)
- Verbal GRE Score: 50th percentile preferred
- Quantitative GRE Score: 50th percentile preferred
  - In lieu of the GRE, only applicants to the Department of Health Policy and Management may submit a minimum GMAT core of 500 for the MHA or MPH.

Total Program requirements with this concentration - 42 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –14 credit hours
Electives – 8 credit hour minimum
Field Experience – 1 credit hour minimum

Concentration Course Requirements - 14 hours minimum
PHC 6146 3 Health Services Planning and Evaluation
PHC 6147 2 Managing Quality in Health Care
PHC 6160 3 Health care Financial Management
PHC 6421 3 Public Health Law and Ethics
PHC 6063 3 Public Health Data, Information and Decision Making

Approved Electives - 8 hours

Field Experience – 1 hour minimum
PHC 6945 1-3 Supervised Field Experience (up to 12 credits)
Students with little or no professional experience: 3 hours minimum. Students with substantial work experience can negotiate a reduced number of hours with their advisor (e.g., 1 or 2 hours) if the student has meaningful experience (involving decision making) in a health care or related organization

PUBLIC HEALTH EDUCATION (PHN)
Offered from the Department of Community and Family Health
Health educators, using health promotion principles, assist individuals and communities in the adoption and maintenance of healthy lifestyles. This MPH program prepares health educators to collect and analyze data to identify diverse community needs prior to planning, implementing, monitoring and evaluating health promotion programs; communicate health and health promotion needs; and plan, implement and evaluate health promotion programs using ethical standards and

http://health.usf.edu/publichealth/
theoretical frameworks and models. The curriculum helps students acquire relevant theoretical and practical knowledge in diverse fields of endeavor, such as the social and behavioral sciences, communication dynamics, educational theory and design, and community organization. Students who complete a degree in public health education are eligible to sit for the national Certified Health Education Specialist (CHES) examination.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: Undergraduate majors may be admitted from a wide range of backgrounds, although majors from nursing, the natural sciences, psychology, sociology, anthropology, and education are desirable.
- Work experience: Work experience in the field of public health and health education is appropriate, but not necessary.
- Minimum undergrad GPA - 3.0 GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile.
- Three letters of recommendation from academic and/or related professional sources.
- Career goal statement.

Total Program requirements with this concentration - 46 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –18 credit hours
Electives – 3 credit hours minimum
Field Experience – 6 credit hours minimum

Concentration Course Requirements - 18 hours
HSC 5036 1 Professional Foundations of Health Ed
PHC 6500 4 Theoretical and Behavioral Basis for Health Ed
PHC 6505 3 Program Planning in Community Health
PHC 6507 3* Health Education Intervention Methods
PHC 6724 1 Synthesizing Public Health Research
PHC 6412 3 Health Disparities and Social Determinants
PHC 6708 3 Evaluation and Research Methods in Community Health

Health Education Support/Elective – 3 hours minimum
Examples of common elective options
HSC 5036 1 Professional Foundations
PHC 6580 3 Prevention and Control of Unintentional Injuries
PHC 6193 3 Qualitative Methods in Community Health Research
PHC 6411 3 Introduction to Social Marketing for Public Health
PHC 6414 3 Adolescent Health
PHC 6500 4 Theoretical and Behavioral Basis for Health Ed
PHC 6506 3 Community Health Education
PHC 6507 3* Health Education Intervention Methods
PHC 6533 1 Health Program Development and Change Process
PHC 6705 3 Formative Research Methods in Social Marketing
PHC 6725 3 Focus Group Research Strategies
PHC 6708 3 Evaluation Methods in Community Health
PHC 6715 3 Research Foundations in Public Health
PHC 6934 1-6 Health Message Design in Public Health
*Students must take PHC 6500 and PHC 6505 prior to PHC 6507

Field Experience – 6 hour minimum
PHC 6945 6 Supervised Field Experience (up to 12 credits)
Students with little or no professional experience: 6 hours minimum. Students with relevant professional experience: minimum 6 hours; in this case we try to find field experience in which the student lacks experience.
PUBLIC HEALTH PRACTICE (PHP)\textsuperscript{8,9}

Offered as a College Wide Program

The Master of Public Health with a Concentration in Public Health Practice is a college-wide interdisciplinary program designed to prepare experienced health professionals to assume leadership roles as members of multidisciplinary teams so that they are able to develop, implement, and evaluate programs that have an impact on the health of the public. The Public Health Practice MPH provides a broad spectrum of skills and knowledge important for effective health professionals working in public health settings. Students in the program will gain skills related to: public health practice; epidemiology; program analysis and inference from data; development of programs that take into account cultural, social, economic, ethical and legal factors; community-based health policy and program planning; and budgeting and management.

The MPH in Public Health with a Concentration in Public Health Practice is offered in two formats: Online MPH Program via distance learning and Executive Weekend MPH program. The Online MPH via distance learning is primarily intended for off-campus students who are unable to come to campus for their education. The Executive MPH Program is a unique and customized weekend program to serve the needs of the busy health care practitioner. Classes in this format are offered one weekend a month. Each program has specialized staff to assist students. The program includes:

- Five core discipline areas (Biostatistics, Environmental Health Sciences, Epidemiology, Health Policy Management, and Social and Behavioral Sciences)
- An integrated interdisciplinary, cross-cutting set of overall competency domains (Communication and Informatics, Diversity and Culture, Leadership, Professionalism, Program Planning, Public Health Biology, and Systems Thinking)

Online MPH via Distance Learning

The Online MPH via Distance Learning offers a convenient and affordable avenue for off-campus health care professionals to earn a Master’s degree through distance learning. The courses in the Online MPH in Public Health Practice are delivered using web-based technologies. With the help of skilled instructional designers, faculty create course content that is delivered using multimedia technologies such as the Internet, DVDs, CDs, videotape, streaming media, web-based tutorials, and so on. Faculty within these courses utilize email, web conferencing, discussion forums and virtual chat features to enhance instruction. Students can complete almost all degree requirements for the online MPH with minimal on-campus requirements of no more than one calendar week. Courses are available in the online format in the Fall, Spring and Summer semesters. The time required to complete the online MPH program ranges from approximately 2.5 to 5 years, depending on time of entry into the program, course sequence and availability, as well as student circumstances and academic status. Students must meet certain technology requirements and are required to pay a technology fee to participate in all online courses.

Total Program requirements with this concentration – 44 hours minimum

In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

- Concentration Course Requirements – 12 credit hours
- Electives – 12 credit hours minimum
- Field Experience – 1 credit hour minimum

Concentration Course Requirements - 12 hours

\textsuperscript{8} Requires 3 years of health-related experience
\textsuperscript{9} Offered (1) executive program and (2) online
Field Experience – 1 hour minimum
PHC 6945 1 Supervised Field Experience (up to 12 credits)

Comprehensive Exam
Part of Public Health Capstone

SOCIAL MARKETING (SOM)
Offered in the Department of Community and Family Health
Social Marketing integrates marketing concepts with other public health approaches to design products, promote policies, and influence behaviors for the greater social good. This MPH concentration equips students with the public health and social marketing skills needed to tackle complex health problems by applying marketing principles and social change tools to design, implement, and evaluate behavioral interventions and policy changes. The curriculum trains students in marketing and social change theoretical models, formative research skills, program management skills, program evaluation techniques, and ethical principles that guide social marketers. The program may be completed exclusively online or as a blend of courses offered on the Tampa campus and online.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

1. Suggested/preferred undergraduate majors: Undergraduate majors may be admitted from a wide range of backgrounds, although majors from nursing, the natural sciences, psychology, sociology, anthropology, marketing, and education are desirable.
2. Work experience: Work experience in the field of public health and social marketing is appropriate, but not necessary.
3. Minimum undergrad GPA - 3.0
4. Verbal GRE score: minimum 500 (153 on new ETS scale)
5. Quantitative GRE score: minimum 550 (146 on new ETS scale)
6. Three letters of recommendation from academic and/or related professional sources.
7. Career goal statement

Total Program requirements with this concentration - 43 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –12 credit hours
Electives –9 credit hours minimum
Field Experience – 3 credit hours minimum

Concentration Course Requirements -12 hours
PHC 6411 3 Introduction to Social Marketing
PHC 6705 3 Formative Research in Social Marketing
PHC 6974 3 Managing Social Marketing Programs
PHC 6461 3 Advanced Social Marketing

Electives - 9 hours

Field Experience – 3 hour minimum
PHC 6945 3 Supervised Field Experience (up to 12 credits)
SOCIO-HEALTH SCIENCES (SHS)
Offered from the Department of Community and Family Health
The MPH in Public Health with a Concentration in Socio-Health Sciences prepares students to apply the concepts and methods from social and behavioral sciences to public health research and practice in the areas of community needs assessment, analysis of the socio-behavioral context of health, development of culturally competent programs, evaluation of intervention outcomes, and formulation of social policies affecting health. Graduates are prepared for careers in public health agencies, educational settings, social and family services, private voluntary organizations, research and consulting firms, and health-related industries. Examples of focus areas include social determinants of health, ethnographic and qualitative research, health needs of special populations, and community-based interventions.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Suggested/preferred undergraduate majors: Undergraduate majors may be admitted from a wide range of backgrounds, although majors from the social and behavioral sciences (psychology, sociology, social work, anthropology, education) and the health sciences (nursing, pre-med, allied health) are especially appropriate.
- Prerequisite undergraduate courses: There are no prerequisites that are required, although courses from the above list of undergraduate majors are desirable.
- Work experience: Work experience in the field of public health, health, psychology, nursing, counseling, education, social work, etc. is considered extremely desirable.
- Minimum undergrad GPA 3.0 in upper division course work.
- Three letters of recommendation from academic and/or related professional sources.
- Career goals statement.

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements ~13 credit hours
Electives ~9 credit hours minimum

Field Experience – 3 hour minimum
PHC 6945  3-6  Supervised Field Experience (up to 12 credits)

Students with little or no professional experience: 6 hours minimum; Students with relevant professional experience: 3 hours minimum. *(Professional experience would include supervised work at a mental health, alcohol, or drug abuse agency in a variety of special areas with behavioral health services. These experiences might include work and programming planning, program evaluation, community prevention and education, etc.)*

TOXICOLOGY AND RISK ASSESSMENT (TXY)
Offered from the Department of Environmental and Occupational Health
This concentration area will provide a broad foundation in the biomedical sciences with general training in toxicology. The program is designed with a balanced curriculum in the areas necessary for understanding the response of organisms to chemical insult and to introduce individuals in the research approaches necessary for the evaluation of these responses. Students will be able to make decisions on the basis of available research findings on potential chemical hazards for humans and animals and to adapt to a rapidly growing body of new knowledge in toxicology.

Concentration Admission Information
In addition to the Program Admission requirements, applicants must have the following:

- Public health course prerequisites: College requires HSC 4551 Survey of Human Diseases or comparable course for students who do not have public health or biology courses or experience.
- Suggested/preferred undergraduate majors: Sciences such as biology, chemistry, physics, and environmental science.
- Prerequisites undergraduate courses: Courses in biology and chemistry.
- Work experience: Not required.
- Minimum undergrad GPA: 3.0.
- GRE score may be substituted with an MCAT Score averaging 8 or higher.
- Other criteria: TOEFL Score (International Students) 550.

Total Program requirements with this concentration - 44 hours minimum
In addition to the 19 hours required for the Program (Core, Foundations, Special Project, and Comp Exam), this Concentration requires:

Concentration Course Requirements –23 credit hours
Field Experience – 2 credit hours minimum

Prerequisite (Not included in program total hours) - 3 hours
HSC 4551  3  Survey of Human Diseases

Concentration Course Requirements - 23 hours
HSC 6556  3  Pathobiology of Human Disease I
PHC 6353  3  Environmental Toxicology and Risk Assessment
PHC 6310  3  Environmental and Occupational Toxicology
PHC 6359  3  Xenobiotic Metabolism in Environmental and Occupational Health
PHC 6369  2  Industrial Toxicology
PHC 6350  3  Occupational Toxicology and Risk Assessment
PHC 6934  2  Special Topics in Public Health
PHC 6930  1  Public Health Seminar
HSC 6557  3  Pathobiology of Human Disease II
Field Experience – 2 hour minimum
PHC 6945  2-3  Supervised Field Experience (up to 12 credits)
Students with little or no professional experience: 3 hours minimum. Students with relevant professional experience: 2 hours minimum. Has worked as a professional in the field of toxicology for a period of at least one year constitutes the term "relevant professional experience" and is worthy of lesser field experience.

For information on program requirements, refer to the college website: www.publichealth.usf.edu

PUBLIC HEALTH / LAW DUAL DEGREE PROGRAM

Master of Public Health (M.P.H.) Degree
Doctorate of Jurisprudence (J.D.) Degree with Stetson University

DEGREE INFORMATION

Program Admission Deadlines:
Public Health has rolling admissions and no set deadline. A minimum of 6 weeks is necessary after a completed application is received in order for the application to be fully processed.

Minimum Total Hours: 42
Program Level: Masters
CIP Code: 51.2201
Dept Code: DEA
Program (Major/College): MPH PH

Concentrations:
See list below. Detailed descriptions are available at: http://publichealth.usf.edu/programs_offered.html

CONTACT INFORMATION

Colleges: Public Health
Stetson Law School

Contact Information: www.grad.usf.edu

PROGRAM INFORMATION

The core functions of public health include assessment, policy development, and assurance. Public health professionals can better perform these functions through not only obtaining the prerequisite knowledge but also through partnering with well-trained professionals in other fields such as law to develop and implement society’s responses to public health needs. However, lawyers’ effectiveness is often limited by their inadequate knowledge of public health and its scientific disciplines. The joint degree program is intended to supply this knowledge by giving public health and Stetson Law School graduates a sound education in both law and public health. A related goal is to increase the opportunities for interdisciplinary research, teaching, and advocacy for the faculties at the College of Public Health and Stetson University College of Law.

Concentrations:
Behavioral Health (BHH)
Biostatistics (BST)
Environmental Health (EVH)
Epidemiology (EPY)
Epidemiology and Biostatistics (PEB)
Epidemiology and Global Communicable Diseases (EGD)
Epidemiology and Global Health (EGH)
Epidemiology and Maternal and Child Health (EMC)
Executive Program for Health Professionals (EPH)
Global Communicable Diseases (TCD)
Global Disaster Management and Humanitarian Relief (GHH)
Global Health Practice (GLO)
Health Care Organizations and Management (HCO)
Health Policies and Programs (HPP)
Health Safety and Environment (HLE)
Infection Control (IFC)
Maternal and Child Health (PMC)
Occupational Health (OCC)10
Occupational Safety (SFM)

10 Only available to dual MS Adult Nursing Students

http://health.usf.edu/publichealth/
Public Health Administration (PHA)
Public Health Education (PHN)
Public Health Practice (PHP)\textsuperscript{11,12}
Socio-Health Sciences (SHS)
Toxicology and Risk Assessment (TXY)

The College’s five departments are: Community and Family Health, Environmental and Occupational Health, Epidemiology and Biostatistics, Global Health, and Health Policy and Management. In addition, Public Health Practice is a college-wide program. Core content is directly related to addressing and meeting public health issues.

The College accommodates the working professional as well as the full-time student by offering late afternoon and evening classes, online course delivery, partnerships with international schools to expand options, a variety of graduate certificates, and a professional M.P.H. for experienced health care professionals.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The College is fully accredited by the Council on Education in Public Health.

Major Research Areas:
Faculty major research areas are listed at:
http://publichealth.usf.edu/facultyaffairs/facultyprofile.html

DEPARTMENTS and College Wide Programs

Community and Family Health http://publichealth.usf.edu/cfh/
Adolescent health; Sexual Health; Reproductive and women’s health; Family violence; Injury control and prevention; Aging and public health; Social marketing; Maternal and child health; Behavioral health; Health needs of special populations; Social determinants of health; Health disparities; Community-based interventions; Development; implementation and evaluation of programs to support healthy lifestyles; Application of technology in public health.

Environmental and Occupational Health http://publichealth.usf.edu/eoh/
Environmental and occupational toxicology and health risk assessment, Ergonomics and occupational heat stress, Occupational and environmental lung disease, inflammation and asthma, Environmental pollution assessment and modeling, bio-monitoring and management.

Epidemiology and Biostatistics http://publichealth.usf.edu/epb/
**Epidemiology:** Epidemiology of dementia and Alzheimer’s disease, Aging and occupational epidemiology, Cardiovascular disease epidemiology, Social epidemiology and public health geography, Cross-cultural studies, Cancer epidemiology, Perinatal epidemiology, Sleep disorders, Injury epidemiology, Osteoporosis and falls in aging population, Infectious disease epidemiology.

**Biostatistics:** Methodologies for analysis of spatial and temporal data including multilevel, mixed-effects, and growth curve modeling, Bayesian methods, Survey and sampling, Missing data, Causal inference, Survival data analysis, and Data mining; Applications ranging from design and analysis of field trials for prevention of mental and behavioral disorders, design and analysis of clinical trials, analysis of social behavioral data, analysis of environmental data such as air pollution, health outcome evaluation, emdical surveillance, modeling elf biological system including dynamic models of HIV/AIDS trials, and health risk assessment.

Global Health http://publichealth.usf.edu/gh/
"Drug development and diagnosis of emerging and infectious diseases of developing countries, including malaria and tissue and soil transmitted dwelling helminths. Ecology and remote sensing prediction of diseases in developing countries. Ecology and control of vector borne diseases in Florida, especially endemic and emerging

\textsuperscript{11} Requires 3 years of health-related experience
\textsuperscript{12} Offered (1) executive program and (2) online
arboviruses. Chronic diseases and accident prevention in developing countries. Disaster cycle with emphasis on the recovery phase within the context of a Humanitarian Complex Emergency. Infection control practices and procedures in healthcare settings."

Health Policy and Management
http://publichealth.usf.edu/hpm/
Health care financial management, Health economics, Quantitative methods in health services, Health insurance, Health law, Quality management, Performance improvement, Community health assessment, Organizational theory and behavior applied to health settings, Health information management, Health policy, and Strategic planning.

College Wide Programs
http://publichealth.usf.edu/php/
Public Health Practice, Executive Public Health Weekend Program, Public Health Generalist, Healthy Communities, Health Equity.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
Students will need to be accepted to both institutions and follow the admission standards of each setting. Students must complete the GRE and the LSAT for acceptance into this dual program. Refer to the M.P.H. listing for specific USF admission requirements.

DEGREE PROGRAM REQUIREMENTS

College of Public Health Students:
Students in the College of Public Health will enroll in the J.D./M.P.H. program, complete the M.P.H. degree, and meet the admission requirements of Stetson which includes taking the LSAT, and then enroll in the Stetson College of Law to complete the JD. Students in the dual degree program will be permitted to count nine hours of credit from the M.P.H. program toward satisfaction of JD credit requirements, and up to nine hours of credit from the JD program toward satisfaction of M.P.H. credit requirements. All students in the dual degree program must complete a field experience requirement. Students in Stetson Law must do mandatory pro bono work (20 hours). Some of these hours may qualify for the field experience however these must be done in a public health setting. This will be determined by the student’s public health advisor and department. Credit hours for the M.P.H. may be more than 42 hours (i.e. 46 hours) depending on the concentration program.

Stetson Law Students:
Students already enrolled in Stetson College of Law will normally apply for the dual degree program in their first or second year. Students in the program will usually complete either one or two years of law school, after which they will spend a year completing the M.P.H. program in the College of Public Health. Students will have the ability to choose whichever concentration within the College that best meets their interests and needs and which they are formally accepted to by the College and Department. After completing their M.P.H., students will return to Stetson to complete their JD and prepare for the bar exam. The virtue of this study plan is that students will commence M.P.H. study with a sound foundation in law and legal process, and students will complete the elective portion of their legal study with a sound foundation in public health.

OTHER INFORMATION
Contact Public Health for a listing of curriculum requirements of both USF and Stetson Law.

COURSES

PUBLIC HEALTH PROGRAM

Master of Science in Public Health (M.S.P.H.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Domestic Applicants:
Fall: May 1
Spring: August 1
Summer: November 15

International Applicants:
Fall: May 1*
Spring: August 1
Summer: November 15

* Global Communicable Disease admits in fall term only.

Minimum Total Hours: 42
Program Level: Masters
CIP Code: 51.2299
Dept Code: DEA
Program (Major/College): MSP PH
Approved: 2002

Concentrations and total hours for the Program with that concentration:
Behavioral Health (PBH) – 44
Bioinformatics (PBF) – 42
Biostatistics (PBC) – 45
Environmental Health (PEH) – 42
Epidemiology (PEY) – 48
Global Communicable Disease (PGD) – 42
Industrial Hygiene (PIH) – 47
International Public Health Research, Policy and Planning (PIP) – 42
Maternal and Child Health (PMH) – 44
Occupational Health (POH)13 – 46
Occupational Medicine Residency (POM) – 46
Occupational Safety (POS) – 46
Public Health Education (PPD) – 44
Socio-Health Sciences (PSH) – 44
Toxicology and Risk Assessment (PTX) – 44

13 Only for health professionals
PROGRAM INFORMATION

Program Information
The base of knowledge for public health comes from a variety of disciplines, ranging from social sciences to biological sciences and business, brought together by a commitment to improve the public's health. Thus, the field of public health is broad and is open to students from diverse academic disciplines including Health Sciences, Education, Engineering, Business, Communications, Mathematics, Social Sciences and Natural Sciences. Graduates are prepared for interdisciplinary focused public health professional careers as administrators, managers, educators, researchers, and direct service providers.

The College’s five departments are: Community and Family Health, Environmental and Occupational Health, Epidemiology and Biostatistics, Global Health, and Health Policy and Management. Public Health Practice is a college-wide program. Core content is directly related to addressing and meeting public health issues.

The College accommodates the working professional as well as the full-time student by offering late afternoon and evening classes, online course delivery, partnerships with international schools to expand options, a variety of graduate certificate programs, and a professional M.P.H. for experienced Health Care professionals.

Accreditation:

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
All Applicants must take the Graduate Record Exam (except as noted below) or an equivalent taken within five years preceding application unless noted as exceptions and must meet the following criteria:

- shall have earned an undergraduate degree from an accredited institution;
- shall have earned a "B" average (3.00 on a 4 point scale) or better in all work attempted while registered as an upper division student working toward a baccalaureate degree; AND
- Prefer Graduate Record Exam (GRE) minimums of 44th Verbal percentile, 25th Quantitative percentile.**
- In lieu of the GRE, only applicants to the Department of Health Policy and Management may submit a minimum GMAT score of 500 for the M.S.P.H.
- An MCAT score may be submitted in lieu of the GRE. A mean of 8 is required. The Department of Epidemiology and Biostatistics and the Department of Health Policy and Management do not accept MCAT scores for M.S.P.H. degrees.

Meeting of these criteria per se shall not be the only basis for admission.
** NOTE: Some Concentrations may prefer higher GRE subscores.
DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours: 42 credit hours

Core Requirements – 9 hours
Concentration Course Requirements – 27 hours (varies by concentration, includes research courses and electives)
Thesis – 6 hours minimum

Program Core Requirements – 9 credit hours
PHC 6000 3 Epidemiology
PHC 6050 3 Biostatistics I

Choose one:
PHC 6357 3 Environmental and Occupational Health
PHC 6102 3 Principles of Health Policy and Management
PHC 6410 3 Social and Behavioral Sciences Applied to Health

*Students in the Biostatistics M.S.P.H. program who have previously taken introductory statistics courses and have a strong mathematical background must take the more advanced level biostatistics course "PHC 6057: Biostatistical Inference I" instead of "PHC 6050: Biostatistics I". However, if a student does not have this prior training in introductory statistics coursework then she/he can take both PHC 6050 Biostatistics I and PHC 6057 Biostatistical Inference I. Some concentrations require completion of all five core courses – see the specific concentration of interest for information.

Concentrations – 27 credit hours minimum (including Research Hours and Electives)
Students select from one of the concentrations listed on the following pages. The Concentration section includes Concentration Course Requirements, any required Research courses, Electives, and any concentration specific requirements for the Comprehensive Exam.

Research Courses
Specific course requirements are listed with the Concentration. Industrial Hygiene and Occupational Medicine Residency are practice-based and do not have specific research hours required.

Electives
Elective options are listed with the Concentration.

Thesis – 6 credit hours
PHC 6971 6 Thesis

Comprehensive Exam
Must be registered for at least 2 credit hours of coursework. Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

MSPH in Public Health CONCENTRATION OPTIONS
Students select from the Concentrations listed on the following pages.

BEHAVIORAL HEALTH (PBH)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisite: None
- Suggested/preferred undergraduate majors: Social or Behavioral Sciences, International Studies, Women Studies, Public Health, Regional Studies (i.e., Latin America and Caribbean) and Health Sciences.
- Prerequisite undergraduate courses: None
• Work experience: some public health experience preferred but not required

• GRE preferred minimum: 58th Verbal percentile, 25th quantitative percentile

• Three letters of recommendation from academic and/or related professional sources, goal statement

Total Program Requirements with this concentration - 44 hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 12 credit hours
Research Courses – 9 credit hours
Electives – 8 credit hours

Concentration Course Requirements – 12 credit hours
Required Specialization Area Courses: Courses depend on the area of specialization.

Research Courses – 9 credit hours
PHC 6051 3 Biostatistics II
Two Research Methods courses as determined by advisory committee

Elective Courses – 8 credit hours
Examples of common options are:
ANG 6469 3 Selected Topics in Medical Anthropology
PHC 6536 3 Population and Community Health
PHC 6411 3 Introduction to Social Marketing for Public Health
PHC 6708 3 Evaluation Methods in Community Health

Comprehensive Exam
Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

BIOINFORMATICS (PBF)
Total Program Requirements with this concentration - 42 hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 27 credit hours
Research Courses – 9 credit hours

Comprehensive Exam

BIOSTATISTICS (PBC)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

• Public health course prerequisites:
  o HSC 4551 Survey of Human Diseases
  o PHC 4101 Introduction to Public Health
  o Or an equivalent course is required for student who lack training in public health or biological sciences.

• Suggested/preferred undergraduate majors: Mathematics, statistics, computer sciences, natural sciences, biological sciences, medical sciences, environmental sciences, management information systems.

• Prerequisite undergraduate courses: Linear algebra, calculus, computer skills (e.g. operating system, internet, word processing, spreadsheet)
Work experience: Prior work experience is preferred, but not required.
- GRE preferred minimum: 44th verbal percentile, 33rd quantitative percentile
- Other criteria: Academic background, goal statement, student’s academic interests, references and availability of faculty and facility resources are also considered as part of the entrance evaluation.

**Total Program Requirements with this concentration – 45 hours minimum**

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 9 credit hours
Research Courses – 9 credit hours
Electives – 12 credit hours

**Concentration Course Requirements – 9 credit hours**

**Comprehensive Exam**

Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

**ENVIRONMENTAL HEALTH (PEH)**

**Pre-requisites and Admissions Information**

In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisites:
- PHC 4101 Introduction to Public Health and
- HSC 4551 Survey of Human Disease, or equivalent courses or experience.
- Suggested/preferred undergraduate majors: biological, physical or chemical science; military science; engineering; nursing or medicine; environmental health and technology; environmental science and policy.
- Prerequisite undergraduate courses: introductory college-level algebra, chemistry, and biology (or related course); calculus and organic chemistry preferred.
- Work experience: None required.
- GRE Score may be substituted with an MCAT Score averaging eight or higher.
- International applicants from non English-speaking countries must provide a minimum TOEFL score of 213 (computer-based test) or 550 (written test), taken within 2 years of the desired term of entry.
Total Program Requirements with this concentration – 42 credit hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 15 credit hours
Research Courses – 9 credit hours
Electives – 9 credit hours

Concentration Course Requirements – 15 credit hours
PHC 6301 3  Water Pollution and Treatment
PHC 6310 3  Environmental Occupational Toxicology
PHC 6303 3  Community Air Pollution
PHC 6512 3  Vectors of Human Disease
PHC 6356 2  Industrial Hygiene (or approved course)
PHC 6930 1  Public Health Seminar

Research Courses – 3 credit hours
PHC 6051 3  Biostatistics II

Elective Courses – 9 credit hours
Examples of Electives Related to Environmental Health:
PHC 6701 3  Computer Applications for Public Health Researchers
PHC 6510 3  Exotic and Emerging Infectious Diseases
PHC 6934 3  Selected Topics: Water Resources Management Principles
PHC 6353 3  Environmental Toxicology and Risk Assessment
PHC 6313 3  Indoor Environmental Quality
PHC 6934 1  Selected Topics: Water & Wastewater Analysis Laboratory

Comprehensive Exam
Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

EPIDEMIOLOGY (PEY)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisites:
  For students who lack training in public health or biological/life sciences
  • HSC 4551 Survey of Human Disease
  • PHC 4101 Introduction to Public Health
- Suggested/preferred undergraduate majors: Public health, social sciences, natural sciences, biology, nursing, medicine, dentistry, veterinary medicine, pharmacology, gerontology, allied health professions, environmental health, management information systems, mathematics, statistics, computer sciences.
- Prerequisite undergraduate courses: college algebra, basic computerskills (e.g. operating system, internet, word processing, spread sheet), human structure and function, human health biology or equivalent. Calculus is strongly recommended.
- Work experience: Prior work experience is preferred, but not required.
- Minimum undergrad GPA: 3.0 on a 4 point scale in the upper division coursework.
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile.
- Other criteria: Academic background, goal statement, student’s academic interest, references and availability of faculty and facility resources also are considered part of the entrance evaluation.

Total Program Requirements with this concentration 48 hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

**Concentration Course Requirements – 15 credit hours**
Research Courses – 9 credit hours
Electives – 9 credit hours

**Concentration Course Requirements – 15 credit hours minimum**
PHC 6701 3 Computer Applications for Public Health Researchers (CI)
PHC 6051 3 Biostatistics II (PR: PHC 6000, 6050, or CI)
PHC 6010 3 Epidemiology Methods I (PR: PHC 6000 or CI)
PHC 6053 3 Categorical Data Analysis
PHC 7935 3 Special Topics: Intermediate SAS (PR: PHC 6010, 6011, 6050, 6051, or CI)

**Research Courses – 9 credit hours**
PHC 7703 3 Advanced Research Methods in Epidemiology (PR: PHC 6010, 6011, 60501, 6051, or CI)
HSC 6055 3 Survival Analysis
PHC 6011 3 Epidemiology Methods II (PR: PHC 6000, 6010 or CI)

**Elective Courses – 9 credit hours**
Two courses in Disease Epidemiology (6 hours)
One additional departmental elective (3 hours)

**Comprehensive Exam**
Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

**GLOBAL COMMUNICABLE DISEASE (PGD)**

**Pre-requisites and Admissions Information**
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Pre-requisites: HSC 4551 Survey of Human Diseases (3) OR Equivalent education or work experience
- Suggested/Preferred undergraduate majors: Biology, Zoology, Microbiology, Immunology
- Prerequisites undergraduate courses: None; Suggested undergraduate courses include general chemistry with laboratory, biology or zoology with laboratory, microbiology with laboratory, biochemistry with laboratory, immunology
- Work Experience: None  GRE preferred minimum: 44th verbal percentile, 39th quantitative percentile. Other criteria: International applicants: TOEFL of 550 for paper-based instrument or 213 for computer-based instrument
- Substitutions: Applicants may substitute an MCAT mean score of 8 for the required GRE scores.
- Special Admission Requirements
  - This Concentration area only admits students during fall semester
  - Preference for admission is given to students with a background or demonstrated skills in the biological sciences. Prerequisites may be required.
  - Previous research experience would be advantageous
  - A short statement (250 words or less) of research interest is required

**Total Program Requirements with this concentration - 42 hours minimum**
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

**Concentration Course Requirements – 18 credit hours**
Research Courses – 9 credit hours
Concentration Course Requirements – 18 credit hours
Suggested Concentration Courses
PHC 6002  3  Infectious Disease Epidemiology
PHC 6251  3  Disease Surveillance and Monitoring
PHC 6314  3  Infection Control Program Design
PHC 6510  3  Exotic and Emerging Infectious Diseases
PHC 6511  3  Public Health Immunology
PHC 6512  3  Vectors of Human Disease
PHC 6513  3  Public Health Parasitology
PHC 6514  3  Infectious Disease Control in Developing Countries
PHC 6517  3  Infectious Disease Prevention Strategies
PHC 6562  3  Microbiology for Healthcare Workers
PHC 6930  1-3  Public Health Seminar
PHC 6934  1-6  Selected Topics: HIV in Public Health
PHC 6934  1-6  Selected Topics: Intermediate Infectious Disease Epidemiology
PHC 6934  1-6  Selected Topics: Food Safety
PHC 6937  3  Public Health Virology
PHC 7931  1-3  Adv Interdisciplinary Seminar in PH: Global Health Infectious Disease Research

Research Courses – 9 credit hours
PHC 6051  3  Biostatistics II
PHC 6561  3  Laboratory Techniques in Public Health
PHC 6722  3  Laboratory Rotations in Global Health Research

Comprehensive Exam
Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam

INDUSTRIAL HYGIENE (PIH)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisites: None
- Suggested/preferred undergraduate majors: Science or engineering.
- Prerequisite undergraduate courses: No specific courses, however 63 credit hours of science, mathematics, engineering and technology with at least 15 credit hours in upper division classes.
- Work experience: None required; however, occupational health related work experience is beneficial.
- Minimum undergraduate GPA: Upper division GPA 3.0
- Other criteria: Three letters of recommendation.

Total Program Requirements with this concentration – 47 hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Additional Required Core Courses – 6 credit hours
Concentration Course Requirements – 11 credit hours
Research Courses – 9 credit hours
Elective courses – 5 credit hours
Culminating Experience – 1 credit hour minimum

Additional Required Core Courses – 6 credit hours
Students must complete the following courses in addition to the Program Core Requirements:
PHC 6102  3  Principles of Health Policy and Management
PHC 6357  3  Environmental and Occupational Health
PHC 6410  3  Social and Behavioral Sciences Applied to Health
Concentration Course Requirements – 20 credit hours

- Students with little or no professional experience: 3 hours minimum
- Students with relevant professional experience (Full-time employment in the industrial hygiene field for a minimum of 1 year, or equivalent part-time experience): 1 hours minimum

Comprehensive Exam

This concentration requires a concentration-specific comprehensive examination. All students in the Industrial Hygiene concentration must take the concentration-specific comprehensive examination. However, students may elect to be exempt from this requirement upon demonstration of successfully passing one of the following:

- American Board of Industrial Hygiene’s certification exam (CIH)
- Board of Certification for Safety Professionals (CSP core exam)

Students must provide evidence of having attained one of these certifications and request and receive written approval to be exempted from the concentration-specific examination from the student’s advisor and the department chair.
INTERNATIONAL PUBLIC HEALTH RESEARCH, POLICY AND PLANNING (PIP)

Total Program Requirements with this concentration – 42 hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 6 credit hours
Research Courses – 9 credit hours
Elective courses – 11 credit hours
Culminating Experience – 1 credit hour minimum

Concentration Course Requirements – 6 credit hours
PHC 6110 3 International Health and Health Care Systems (web)
PHC 6146 3 Health Services Planning and Evaluation (web)

Research Courses – 9 credit hours
PHC 6701 3 Computer Applications for Public Health Researchers
PHC 6934 3 Selected Topics: Ecology and Health
PHC 6051 3 Biostatistics II

Elective Courses – 11 credit hours

Culminating Experience – 1 credit hour
Interdisciplinary Research Seminar – 1 hour

Comprehensive Exam

MATERNAL AND CHILD HEALTH (PMH)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisite: None
- Suggested/preferred undergraduate majors: Social or Behavioral Sciences, International Studies, Women Studies, Public Health, Regional Studies (i.e., Latin America and Caribbean) and Health Sciences.
- Prerequisite undergraduate courses: None
- Work experience: some public health experience preferred but not required
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile.
- Three letters of recommendation from academic and/or related professional sources, goal statement

Total Program Requirements with this concentration – 44 hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 12 credit hours
Research Courses – 9 credit hours
Elective courses – 8 credit hours

Concentration Course Requirements – 12 credit hours
Required Specialization Area Courses: Courses depend on the area of specialization.
Research Courses – 9 credit hours

PHC 6051  3  Biostatistics II

6 hours of other research courses selected by the student and committee.

Elective Courses – 8 credit hours

Examples of common electives are:
- ANG 6469  3  Selected Topics in Medical Anthropology
- PHC 6536  3  Population and Community Health
- PHC 6411  3  Introduction to Social Marketing for Public Health
- PHC 6708  3  Evaluation Methods in Community Health

Comprehensive Exam

Comprehensive exam or thesis proposal defense may be used in lieu of the comprehensive exam.

OCCUPATIONAL HEALTH FOR HEALTH PROFESSIONALS (POH)14

Pre-requisites and Admissions Information

In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisites: None required.
- Suggested/preferred undergraduate majors: Majors that prepared candidates for matriculation into medical school; undergraduate majors in other clinical disciplines, e.g. nursing, physical therapy, occupational therapy are acceptable.
- For residency program: Acceptance into the residency requires graduation from an approved medical school and completion of at least two years of clinical training in a primary care specialty. Consideration will also be given for resident applicants with considerable occupational medicine practice experience and only one year of residency training.
- Prerequisite undergraduate courses: Clinical courses associated with a clinical profession.
- Work experience:
  - Residency Program: Two years of a primary care specialty residency program is preferred. Candidates with significant experience or skills will be considered with one year of primary care training.
  - Other health professionals: two years clinical experience preferred. Residency program or other physicians with a valid U.S. unrestricted medical license
  - Other health professionals 3.0 in last 60 credits of undergraduate program and a valid clinical license.
- GRE Score:
- Residency Program: waived with documentation of unrestricted valid U.S. medical license.
  Other health professionals: Must meet MSPH minimums

Total Program Requirements with this concentration – 46 credit hours minimum

In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Additional Required Core Courses – 6 credit hours
Concentration Course Requirements – 23 credit hours
Elective courses – 2 credit hours

Additional Required Core Courses – 6 credit hours
(complete the two remaining Program Core Courses listed above)
- PHC 6102  3  Principles of Health Policy and Management
- PHC 6357  3  Environmental and Occupational Health
- PHC 6410  3  Social and Behavioral Sciences Applied to Health

14 Only for health professionals
Concentration Course Requirements – 23 credit hours

- PHC 6356 2  Industrial Hygiene
- PHC 6351 3  Occupational Medicine for Health Professionals
- PHC 6364 2  Industrial Hygiene Aspects of Plant Operations
- PHC 6360 2  Safety Management Principles and Practices or other approved safety course
- PHC 6930 4  Public Health Seminar: Occupational and Environmental Research (1 credit each semester for a minimum of 4 semesters)
- PHC 6423 2  Occupational Health Law
- PHC 6354 2  Safety and Health Administration
- PHC 7019 3  Occupational Epidemiology

Select ONE of the following:
- PHC 6310 3  Environmental Occupational Toxicology
- PHC 6350 3  Occupational Toxicology and Risk Assessment

Elective Courses – 2 credit hours
Examples of elective courses:
- PHC 6350 3  Occupational Toxicology and Risk Assessment
- PHC 6370 2  Biological and Surface Monitoring
- PHC 6361 2  Industrial Ergonomics

Comprehensive Exam
This concentration requires a combined core comprehensive/concentration exam.

OCCUPATIONAL MEDICINE RESIDENCY (POM)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisites: None required.
- Suggested/preferred undergraduate majors: Majors that prepared candidates for matriculation into medical school; undergraduate majors in other clinical disciplines, e.g. nursing, physical therapy, occupational therapy are acceptable.
- For residency program: Acceptance into the residency requires graduation from an approved medical school and completion of at least two years of clinical training in a primary care specialty. Consideration will also be given for resident applicants with considerable occupational medicine practice experience and only one year of residency training.
- Prerequisite undergraduate courses: Clinical courses associated with a clinical profession.
- Work experience:
  - Residency Program: Two years of a primary care specialty residency program is preferred. Candidates with significant experience or skills will be considered with one year of primary care training.
  - Other health professionals: two years clinical experience preferred.
- Minimum undergraduate GPA:
- Residency program or other physicians with a valid U.S. unrestricted medical license
- Other health professionals 3.0 in last 60 credits of undergraduate program and a valid clinical license.
- GRE Score:
  - Residency Program: waived with documentation of unrestricted valid U.S. medical license.
  - Other health professionals: Must meet MSPH minimums

Total Program Requirements with this concentration – 46 credit hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:
Additional Required Core Courses – 6 credit hours
Concentration Course Requirements – 23 credit hours
Elective courses – 2 credit hours

Additional Required Core Courses – 6 credit hours
Students must complete the following courses in addition to the Program Core Requirements:
PHC 6102  3  Principles of Health Policy and Management
PHC 6357  3  Environmental and Occupational Health
PHC 6410  3  Social and Behavioral Sciences Applied to Health

Concentration Course Requirements – 23 credit hours
PHC 6356  2  Industrial Hygiene
PHC 6351  3  Occupational Medicine for Health Professionals
PHC 6364  2  Industrial Hygiene Aspects of Plant Operations
PHC 6360  2  Safety Management Principles and Practices or other approved safety course
PHC 6930  4  Public Health Seminar: Occ. and Environmental Research (1 credit each semester for a minimum of 4 semesters)
PHC 6423  2  Occupational Health Law
PHC 6354  2  Safety and Health Administration
PHC 7019  3  Occupational Epidemiology

Select ONE of the following:
PHC 6310  3  Environmental Occupational Toxicology
PHC 6350  3  Occupational Toxicology and Risk Assessment

Elective Courses – 2 credit hours
Examples of elective courses:
PHC 6350  3  Occupational Toxicology and Risk Assessment
PHC 6370  2  Biological and Surface Monitoring
PHC 6361  2  Industrial Ergonomics

Comprehensive Exam
This concentration requires a combined core comprehensive/concentration exam.

OCCUPATIONAL SAFETY (POS)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

•  Public health course prerequisites: None.
•  Suggested/preferred undergraduate majors: science, engineering, technology and management, and psychology.
•  Prerequisite undergraduate courses: None
•  Work experience: None required; however occupational work experience is beneficial.
•  Minimum undergrad GPA: Upper division GPA 3.0.
•  Other criteria: Two Letters of recommendation.

Total Program Requirements with this concentration - 46 credit hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 20 credit hours
Research Courses – 6 credit hours
Elective courses – 5 credit hours
Concentration Course Requirements – 20 credit hours
PHC 6360 2 Safety Management Principles and Practices
PHC 6354 2 Safety and Health Administration
EIN 6216 3 Occupational Safety Engineering
EIN 6215 3 Engineering System Safety
PHC 6423 2 Occupational Health Law
PHC 6361 2 Industrial Ergonomics
PHC 6356 2 Industrial Hygiene
PHC 6930 1 Public Health Seminar

Research Courses – 6 credit hours
PHC 6051 3 Biostatistics II
One research course (3 credits) as approved by the program

Elective Courses – 5 credit hours
Electives: Two required from the following or other approved electives:
PHC 7934 2 Work and Environmental Physiology
INP 6935 3 Topics in Industrial-Organizational Psychology: Personnel or Organizational Psychology
INP 7937 3 Graduate Seminar in Industrial-Organizational Psychology: Occupational Health Psychology

Comprehensive Exam

Additional Culminating Experience
Safety Concentration Examination or ASP Exam (no credit)

PUBLIC HEALTH EDUCATION (PPD)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisite: None
- Suggested/preferred undergraduate majors: Social or Behavioral Sciences, International Studies, Women Studies, Public Health, Regional Studies (i.e., Latin America and Caribbean) and Health Sciences.
- Prerequisite undergraduate courses: None
- Work experience: some public health experience preferred but not required
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile
- Three letters of recommendation from academic and/or related professional sources, goal statement

Total Program Requirements with this concentration – 44 credit hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 12 credit hours
Research Courses – 9 credit hours
Elective courses – 8 credit hours

Concentration Course Requirements – 12 credit hours
Required Specialization Area Courses: Courses depend on the area of specialization.

Research Courses – 9 credit hours

PHC 6051 3 Biostatistics II

6 hours of other research courses selected by the student and committee.
Elective Courses – 8 credit hours
Examples of common electives are:

- ANG 6469  3  Selected Topics in Medical Anthropology
- PHC 6536  3  Population and Community Health
- PHC 6411  3  Introduction to Social Marketing for Public Health
- PHC 6708  3  Evaluation Methods in Community Health

SOCIO-HEALTH SCIENCES (PSH)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisite: None
- Suggested/preferred undergraduate majors: Social or Behavioral Sciences, International Studies, Women Studies, Public Health, Regional Studies (i.e., Latin America and Caribbean) and Health Sciences.
- Prerequisite undergraduate courses: None
- Work experience: some public health experience preferred but not required
- GRE preferred minimum: 58th verbal percentile, 25th quantitative percentile
- Three letters of recommendation from academic and/or related professional sources, goal statement

Total Program Requirements with this concentration - 44 credit hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 12 credit hours
Research Courses – 9 credit hours
Elective courses – 8 credit hours

Concentration Course Requirements – 12 credit hours
Required Specialization Area Courses: Courses depend on the area of specialization.

Research Courses – 9 credit hours

- PHC 6051  3  Biostatistics II

6 hours of other research courses selected by the student and committee.

Elective Courses – 8 credit hours
Examples of common electives are:

- ANG 6469  3  Selected Topics in Medical Anthropology
- PHC 6536  3  Population and Community Health
- PHC 6411  3  Introduction to Social Marketing for Public Health
- PHC 6708  3  Evaluation Methods in Community Health
TOXICOLOGY AND RISK ASSESSMENT (PTX)

Pre-requisites and Admissions Information
In addition to meeting the Program admission requirements for the Master of Science in Public Health in Public Health, applicants should also meet these concentration prerequisites:

- Public health course prerequisite: College requires HSC 4551 Survey of Human Diseases or comparable course for students who do not have public health or biology courses or experience.
- Suggested/preferred undergraduate majors: Sciences - biology, chemistry, physics, and environmental science.
- Prerequisites undergraduate courses: Courses in biology and chemistry.
- Work experience: Not required.
- GRE Score may be substituted with an MCAT Score averaging 8 or higher

Total Program Requirements with this concentration – 44 credit hours minimum
In addition to the 15 hours minimum required for the Program Core Requirements and the thesis hours, this Concentration requires:

Concentration Course Requirements – 23 credit hours
Research Courses – 9 credit hours
Elective courses – 3 credit hours

Concentration Course Requirements – 23 credit hours

- HSC 6556 3 Pathobiology of Human Disease I
- PHC 6353 3 Environmental Toxicology and Risk Assessment
- PHC 6310 3 Environmental Occupational Toxicology
- PHC 6359 3 Xenobiotic Metabolism in Environmental and Occupational Health
- PHC 6369 2 Industrial Toxicology
- PHC 6350 3 Occupational Toxicology and Risk Assessment
- PHC 6934 2 Selected Topics in Public Health
- PHC 6930 1 Public Health Seminar
- HSC 6557 3 Pathobiology of Human Disease II

Research Courses – 3 credit hours
- PHC 6051 3 Biostatistics II

Elective Courses – 3 credit hours

Culminating Experiences:
This concentration requires a core comprehensive exam.

Comprehensive Exam (must be registered for at least 2 credit hours of coursework) or Thesis proposal defense

PUBLICATION PROGRAM

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

Program Admission Deadlines:
Fall: November 15
Annually

Minimum Total Hours: 90
Program Level: Doctoral
CIP Code: 51.2201
Dept Code: DEA
Program (Major/College): PPH PH
Approved: 1987

Concentrations and total hours for the Program with that concentration:
Biostatistics (BST) - 92
Community and Family Health (CFH) - 90
Environmental Health (EVH) - 90
Environmental and Occupational Health (EOH) - 90
Epidemiology (EPY) - 90
Global Communicable Disease (TCD) - 90
Health Services Research (HPM) - 90
Industrial Hygiene (IHY) - 90
Occupational Health for Health Professionals (OHP) - 90
Toxicology and Risk Assessment (TXY) - 90

CONTACT INFORMATION

College: Public Health
Contact Information: www.grad.usf.edu

PROGRAM INFORMATION

Program Information
The base of knowledge for public health comes from a variety of disciplines, ranging from social sciences to biological sciences and business, brought together by a commitment to improve the public’s health. Thus, the field of public health is broad and is open to students from diverse academic disciplines including Health Sciences, Education, Engineering, Business, Communications, Mathematics, Social and Natural Sciences. Graduates are prepared for interdisciplinary focused public health professional careers as administrators, managers, educators, researchers, and direct service providers.

The College’s five departments are: Community and Family Health, Environmental and Occupational Health, Epidemiology and Biostatistics, Global Health, and Health Policy and Management. Core content is directly related to addressing and meeting public health issues.

The College accommodates the working professional as well as the full-time student by offering late afternoon and evening classes, online course delivery, partnerships with international schools to expand options, a variety of graduate certificate programs, and a professional M.P.H. for experienced Health Care professionals.
Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The College is fully accredited by the Council on Education in Public Health.

Major Research Areas:
Faculty major research areas are listed at: http://publichealth.usf.edu/facultyaffairs/facultyprofile.html

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

Applicants to the doctoral program in Public Health must meet the following minimum criteria in order to be considered for admission. However, the meeting of these criteria per se, shall not be the only basis for admission.

- Applicants to the Ph.D. program are required to complete both a SOPHAS application and a USF Graduate Studies Application (applicants will receive a request for the $30 fee once the SOPHAS application enters the USF system).
- USF Graduate School application fee
- Required Documentation (all items are required regardless of GPA or GRE scores):
  - Completed SOPHAS application (requires the following):
    - GRE Scores. A preferred minimum verbal of 53rd percentile and quantitative of 39th percentile taken within 5 years preceding the application and a grade point average of 3.0 are needed to be considered. Note: some concentration may prefer higher GRE scores (e.g. Biostatistics and Epidemiology, Health Services Research). A score of 600 or higher on the GMAT for applicants to only the Health Policy and Management Department will be considered.
    - Transcripts
    - Resume or curriculum vitae
    - Each applicant must submit at least two formal Letters of Recommendation. The Department of Community and Family Health requires three Letters of Recommendation.
    - Each applicant must submit evidence of written/analytical skills to the College of Public Health which will take two-forms:
      - A graduate level term paper, thesis, or research paper of which the student is the sole author, publication on which the student is the first author; and
      - A detailed personal statement of less than five pages that describes why the applicant wishes to obtain a Ph.D. degree in Public Health.

- Applicants seeking consideration to the doctoral program must possess the M.P.H., M.S.P.H., or equivalent. Those who hold other graduate degrees will be considered, but as a prerequisite, they may be required to complete courses as approved by their advisory committee.

- In order to be considered for admission to the Ph.D. Program in Public Health, applicants must be fully prepared to register as full-time students for at least one full academic year (consecutive Fall and Spring semesters).

- Applicants whose native language is not English or who have not earned a degree in the United States must also submit TOEFL scores earned within two (2) years of the desired term of entry. A minimum total score of 79 on the internet-based test, 213 on the computer-based test, or 550 on the paper-based test are required. Applications submitted with TOEFL scores that do not meet the minimum requirements will be denied with no exceptions.
DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours: 90 hours post-bachelor’s

Prerequisites
The doctoral committee or the department may require prerequisites. These courses are not included in the minimum number of hours a student needs to complete the Ph.D. and are expected to be completed early in the course of study.

Public Health Core Courses - 9 credit hours
PHC 6000 Epidemiology
PHC 6050 Biostatistics I
One (1) of the following*:
PHC 6410 Social and Behavioral Sciences applied to health
PHC 6357 Environmental and Occupational Health
PHC 6102 Principles of Health Policy and Management

*Students should check with their advisor to determine which of these should be taken.

Seminar - 3 credit hours
PHC 7931 I Advanced Interdisciplinary Seminar in Public Health
A minimum of three semesters (one credit each semester).

Concentrations –
Students select one of the concentrations listed on the following pages and must complete requirements as listed in addition to the general program requirements.

Concentration Coursework – 12 credit hours minimum
See individual concentrations for specific requirements.

Additional Coursework - 13 credit hours
A minimum of 13 credits at the 7000 level. The courses and number of credit hours required are defined by the department and the doctoral committee and include coursework from another department or college. Generally, the doctoral degree requires a minimum of 90 credits beyond the bachelor’s degree. Departments determine the number of credits accepted from previous master(s) degree. There is a mandatory doctoral student orientation that all new doctoral students must attend in the fall semester of their first academic year.

Tools of Research
Departmental Guidelines will address whether tools of research are required for doctoral students within that department (consistency within the department required). The student must complete a minimum of two of the “Tools of Research” options designated by the Department, and approved by the doctoral committee before the student is eligible to take the doctoral qualifying examination.

Teaching
All doctoral students will demonstrate or document proficiency in teaching academic courses at the university level.

Qualifying Exam
When all required coursework is satisfactorily completed (including tools of research and prerequisites), the student must pass a comprehensive qualifying examination covering the subject matter in the major and related fields. The Department will set the specific criteria.

The qualifying exam will comprise of a written portion and may include an oral component. The exam will cover at least three major areas including: a) Broad area of public health; b) Focus area of study; c) Research methods. The student may have no longer than 10 weeks to complete the exam upon receipt of the exam from the Doctoral Supervisory Committee. The format and duration of the qualifying exam is the responsibility of the Doctoral Supervisory Committee following consultation with the student and consistent with departmental, college and university guidelines. The Doctoral Supervisory Committee will have up to three weeks to review the exam and determine the outcome of either Pass or Fail. No more than two attempts will be allowed for the student to take the qualifying exam and earn a Pass. If the student receives a Fail on the qualifying exam on the first attempt and the Doctoral Supervisory Committee recommends that the
student complete remedial work, the second attempt at the qualifying exam must be initiation within three-months of completion of remedial work. If the student earns a Fail on the first attempt, and the Committee determines that no remedial work is needed, the student will have a second attempt to pass which must be initiated within three-months. If the student does not earn a Pass on the qualifying exam on his/her second attempt, the student will not be admitted into doctoral candidacy. After successful completion of the qualifying exam and appropriate paperwork is submitted to the Office of Graduate Studies, the student is admitted to candidacy and may register for dissertation hours.

**Dissertation**

All students must follow the University’s "Guidelines for Dissertations and Theses" found at [http://www.grad.usf.edu/thesis.php](http://www.grad.usf.edu/thesis.php). The Dissertation must conform to one of the following two available options per USF degree requirements. For details, consult the USF Graduate Catalog Degree Requirements Section.

**Option 1:** Traditional format inclusive of Part I Preliminary Pages, Part II Text, Part III References/Appendices, Part IV About the Author.

**Option 2:** Collection of articles/papers instead of chapters inclusive of Part I Preliminary Pages, Part II Collection of Articles/Papers, Part III References/Appendices.

After the Doctoral Dissertation Committee has determined that the final draft of the Dissertation is suitable for presentation, the Committee will request the scheduling and announcement of the Dissertation Defense. Consistent with USF Graduate Degree Requirements, a copy of the announcement should be sent to the USF Office of Graduate Studies and posted in a public forum preferably two weeks in advance of the defense date.

In addition, the Concentration in Biostatistics and the Concentration in Epidemiology have additional format requirements. Consult the Department for information on the format options and requirements for these two concentrations.

**Guidelines for student progress:**

Each Ph.D. student will undergo an annual review consistent with departmental guidelines. A summary of the annual review will be provided to the student and placed in the student’s advising file.

---

**Ph.D. in Public Health**

**CONCENTRATION OPTIONS**

Students select from the Concentrations listed on the following pages.

**BIOSTATISTICS**

**Offered from the Department of Epidemiology and Biostatistics**

**Total Program Requirements with this concentration - 92 hours minimum post-bachelor’s**

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

**Pre-Req Courses – 9 hours**
- Concentration Courses – 18 hours
- Research Tool Courses – 9 hours
- Focus Area Courses – 12 hours
- Electives – 6 hours
- Other Requirements – 7 hours
- Teaching – 1 hour
- Dissertation – 18 hours

**Pre-Requisite Courses – 9 hours**
- PHC 6051 3 Biostatistics II or equivalent
- PHC 6053 3 Categorical Data Analysis or equivalent
- PHC 6055 3 Survival Analysis or equivalent
Concentration Course Requirements (Domain A) – 18 hours

COMMUNITY AND FAMILY HEALTH (CFH)

Offered from the Department of Community and Family Health
Areas of focus include Behavioral Health, Maternal and Child Health, Social Marketing and Public Health Education.

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Pre-Req Courses – 9 hours (not part of total minimum hours)
Concentration Courses – 60 hours
Teaching
Dissertation – 18 hours

Pre-Requisite PH Courses (Not included in total program hours)
PHC 6708 3 Evaluation Methods in Community Health or equivalent
PHC 6193 3 Qualitative Methods in Community Health Research or equivalent
PHC 6500 3 Theoretical and Behavioral Basis for HE or equivalent

Required Courses (taken as part of the Program Core Requirements)
PHC 6410 3 Social and Behavioral Sciences Applied to Health or equivalent
PHC 7934 3 Interdisciplinary Seminar (offered as a one hour course for three semesters (1 hour x 3 semesters)

Concentration Course Requirements – 60 hours

Scientific knowledge and Theory (3 hours)
PHC 7405 3 Theoretical Applications to Public Health Issues

Research Methods (15 hours)
PHC 7702 3 Advanced Public Hlth Res and Eval Methods
PHC 7704 3 Applied Research Methods
PHC 6934 3 Applications of Advanced Biostatistics Methods in public Health
PHC 7198 3 Advanced Qualitative Methods

Also one Advanced Quantitative or Qualitative Course (3 hours)

Select 3 hours or more of advanced level quantitative or qualitative course/s determined by the student and PhD Committee.

Practice (12 hours)
PHC 7583 3 Community Based Health Promotion
PHC 7152 3 Policy and Practice
Choose 6 hours from the following or other courses as decided by the doctoral committee focused on public health practice:
PHC 7935 Seminar in Writing a Dissertation
PHC 7934 Writing Scholarly Publications in the Health Sciences
PHC 7937 Advanced Seminar in Grant Writing

Teaching
TA with Faculty (at least one graduate course)
Teaching requirement (at least one semester of teaching an undergraduate course)
Focus Area Courses (30 hours minimum)
While up to 30 graduate level credits may be transferred in to meet requirements, we expect that at least half of the focus area/research course hours for this degree program should be at an advanced doctoral level from within or outside the College. New courses may include directed research/internship/practicum hours as determined by the student and Ph.D. committee.

Qualifying Exam

Dissertation - 18 hours minimum

ENVIRONMENTAL AND OCCUPATIONAL HEALTH (EOH)
Offered from the Department of Environmental and Occupational Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

Concentration Course Requirements – 12 hours
Courses selected under advisement of the Committee.

Advanced Biostatistics Course – 3 hours

Required doctoral Courses – 13 hours
Courses selected under advisement of the Committee.

Directed Research
PHC 7910 2-19 Directed Research

Dissertation – 18 hours
PHC 7980 2-18 Dissertation

ENVIRONMENTAL HEALTH (EVH)
Offered from the Department of Environmental and Occupational Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

Concentration Course Requirements – 12 hours
Courses selected under advisement of the Committee.
Advanced Biostatistics Course – 3 hours

Required doctoral Courses – 13 hours
Courses selected under advisement of the Committee.

Directed Research
PHC 7910 2-19 Directed Research

Dissertation – 18 hours
PHC 7980 2-18 Dissertation

EPIDEMIOLOGY (EPY)

Offered from the Department of Epidemiology and Biostatistics

Total Program Requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 24 hours
Epidemiology Methods and Writing – 15 hours
Focus Area Courses – 9 hours
Biostatistics – 6 hours
Electives – 6 hours
Dissertation – 18 hours

Concentration Course Requirements (Domain B) – 24 hours
PHC 6051 3 Biostatistics II or equivalent
PHC 6053 3 Categorical Data Analysis or equivalent
PHC 6701 3 Computer Applications for Public Health or equivalent
In addition students take:
6 graduate level credits focusing on epidemiology methods
3 graduate level credits in data analysis or computer applications
6 level credits in topic areas focusing on chronic or infectious disease

Epidemiology Methods and Writing (Domain C) – 15 hours
PHC 7703 3 Adv. Research Methods in Epidemiology
PHC 7001 3 Practical Issues in Epidemiology
PHC 7015 3 Epidemiology Study Design and Protocol Develop
And two of the following:
PHC 6017 3 Design and Conduct of Clinical Trials
PHC 6720 3 Intermediate SAS
PHC 7720 3 Secondary Data Analysis

Substantive Knowledge and/or Focus Area (Domain D) – 9 hours
9 Graduate Level Credits in Topic Area

Biostatistics (Domain E) – 6 hours
PHC 6055 3 Survival Analyses

Electives/Support Courses (Domain F) – 6 hours
6 Graduate level elective credits decided by student and program committee

Other Program Requirements (Domain G)
Teaching Experience
Qualifying Examination
Dissertation Research
Dissertation
Dissertation Defense
*Primary data collection experience is strongly encouraged, but not required

**Dissertation – 18 hours minimum**
PHC 7980  2-18  Dissertation

**GLOBAL COMMUNICABLE DISEASE (TCD)**
Offered from the Department of Global Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

**Concentration Course Requirements – 12 hours**
Courses selected under advisement of the Committee.

**Advanced Biostatistics Course – 3 hours**

**Required doctoral Courses – 13 hours**
Courses selected under advisement of the Committee.

**Directed Research**
PHC 7910  2-19  Directed Research

**Dissertation – 18 hours**
PHC 7980  2-18  Dissertation

**HEALTH SERVICES RESEARCH (HPM)**
Offered from the Department of Health Policy and Management

Additional Concentration Admission Requirements:
Preferred Verbal GRE test Percentile – 65th;
Preferred Quantitative GRE test percentile – 65th

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 15 hours
Advanced Statistics and Research Methods – 18 hours minimum
Health Policy Management – 12 hours minimum
Specialty Area Courses – 18 hours minimum
Dissertation – 18 hours
7000-level Courses - 15 hours minimum
QMB 7565  3  Advanced Research Methods
QMB 7566  3  Applied Multivariate Statistical Methods
PHC 7936  3  Seminar: Health Outcomes Measurement
PHC 7437  3  Applications in Health Economics
PHC 7935  3  Interdisciplinary Seminar

Advanced Statistics & Research Methods – 18 hours minimum
PHC 6051  3  Biostatistics II
PHC 6760  3  Research Methods in Public Health Programs
PHC 6053  3  Categorical Data Analysis
PHC 6701  3  Computer Applications for Public Health Researchers
QMB 6375  3  Applied Linear Statistical Models
ECO 6424  3  Econometrics I

Health Policy Management - 12 hours minimum
PHC 6430  3  Health Economics I
PHC 6191  3  Quantitative Analysis in Health Care Management
PHC 6151  3  Health Policy and Politics
PHC 6180  3  Health Services Management

Speciality Area Courses - 18 hours minimum

Dissertation - 18 hours minimum
Additional coursework beyond 90 credits may be required of students as specified in the plan of study.

INDUSTRIAL HYGIENE (IHY)
Offered from the Department of Environmental and Occupational Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor's

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

Concentration Course Requirements – 12 hours
Courses selected under advisement of the Committee.

Advanced Biostatistics Course – 3 hours

Required doctoral Courses – 13 hours
Courses selected under advisement of the Committee.

Directed Research
PHC 7910  2-19  Directed Research

Dissertation – 18 hours
PHC 7980  2-18  Dissertation
OCCUPATIONAL HEALTH FOR HEALTH PROFESSIONALS (OHP)
Offered from the Department of Environmental and Occupational Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

Concentration Course Requirements – 12 hours
Courses selected under advisement of the Committee.

Advanced Biostatistics Course – 3 hours

Required doctoral Courses – 13 hours
Courses selected under advisement of the Committee.

Directed Research
PHC 7910 2-19 Directed Research

Dissertation – 18 hours
PHC 7980 2-18 Dissertation

TOXICOLOGY AND RISK ASSESSMENT (TXY)
Offered from the Department of Global Health

Total Program requirements with this concentration - 90 hours minimum post-bachelor’s

In addition to the 12 hours minimum required for the Program Core Courses and Seminar Course Requirements, this Concentration requires:

Concentration Courses – 12 hours
Advanced Biostatistics Course – 3
Required doctoral courses – 13
Electives
Dissertation – 18 hours

Concentration Course Requirements – 12 hours
Courses selected under advisement of the Committee.

Advanced Biostatistics Course – 3 hours

Required doctoral Courses – 13 hours
Courses selected under advisement of the Committee.

Directed Research
PHC 7910 2-19 Directed Research

Dissertation – 18 hours
PHC 7980 2-18 Dissertation

PROGRAM INFORMATION

The Doctor of Public Health (Dr.P.H.) emphasizes advanced public health education and training designed to prepare individuals for leadership roles in practice-based settings such as health department, non-profit organizations, health service, International agencies, and community-based organizations. Accordingly, the emphasis of the Dr.P.H. is placed on fostering advanced expertise in developing, implementing, and evaluating evidence-informed public health practice as compared to the Ph.D. whereby the emphasis is on research.

Dr.P.H. training comprises the following curricular domains: Advocacy and Leadership, Communication, Community and Cultural Orientation, Critical Analysis, Management, and Professional and Ethics. Subsequently, the Dr.P.H. student is expected to collaborate with senior public health practitioners through a practice-based specialized study. Furthermore, it is required the Dr.P.H. Students complete a dissertation that addresses, generates, interprets and/or evaluates knowledge applicable to public health practice. Additional descriptions of department specific details are available on departmental websites.

The Dr. Ph. Will require 90 semester hours beyond the baccalaureate degree. Candidates MUST have an MPH or MSPH degree prior to admission, therefore the actual additional requires required for the Dr.P.H. beyond the master’s level will average 45-50 semester hours, depending upon the program designed by the student and his or her committee. Per University guidelines, all requirements for the doctoral degree must be completed within seven calendar years from the student’s date of admission for doctoral study. Students have four years to complete all required coursework, pass the qualifying examination, and be admitted to doctoral candidacy. Students then have three years from the date of doctoral candidacy to complete degree requirements.

Mission

The mission of the Doctor of Public Health is to prepare practitioners for leadership and advocacy in public health practice through a scientific, interdisciplinary approach to understanding and solving public health problems in the public and private sectors, the United States, and worldwide. This mission relates directly to the University of South Florida’s mission which includes creating a community of learners together with significant and sustainable university-community partnerships and collaborations; and designing, strengthening and building sustainable healthy communities and improving quality of life.

Areas of Study

The Dr.P.H. degree has no concentrations, but students may focus on the following areas:

- Community and Family Health
- Environmental Health
- Epidemiology/Biostatistics
- Global Health
- Health Policy and Administration

http://health.usf.edu/publichealth/
Mode of Delivery
The USF College of Public Health Dr.P.H. degree is completed through distance-learning (fall and spring semesters) in addition to on-campus learning via the 1-week Dr.P.H. Summer Institute. The combination of program delivery formats allow the working professionals to broaden their grasp of public health management, practice, and research without interrupting careers.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools. The College is fully accredited by the Council on Education in Public Health.

Major Research Areas:
Faculty major research areas are listed at: http://publichealth.usf.edu/facultyaffairs/facultyprofile.html

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Required Application Documentation
Applicants to the DrPh degree are required to complete both a SOPHAS application and a USF Office of Graduate Studies application. Required Documentation (all items are required regardless of GPA or GRE scores):

- Completed USF Office of Graduate Studies application, and
- Completed SOPHAS application (requires the following):
  1. Transcripts
  2. GRE taken within five years preceding application or equivalent scores Minimum of three letters of Recommendation
  3. Detailed personal statement of less than five pages that describes why you wish to obtain a DrPh degree in Public Health
  4. Resume or curriculum vitae
  5. Applicants whose native language is not English or who have not earned a degree in the United States must also submit TOEFL scores earned within two (2) years of the desired term of entry. A minimum total of 79 on the internet-based test, 213 on the computer-based test, or 550 on the paper-based test are required. Applications submitted with TOEFL scores that do not meet the minimum requirements will be denied with no exceptions. (Section 6.2 Admissions Tests Information for more information)

Program Admission Requirements
In addition to meeting the University requirements for admissions (see section 4 of the Graduate Catalog), applications to the Dr.P.H. program must meet the following minimum criteria in order to be considered for admission. However, the meeting of these criteria per se, shall not be the only basis for admission.

1. Applicants must have an M.P.H., M.H.A. and a minimum of two years’ work experience in public health, a closely related field or as a health professional. Those who hold other graduate degrees will be considered, but as a pre-requisite to the Dr.P.H. program of study, they must complete all five public health core courses.
2. Eligibility requirements regarding GPA and standardized test scores will be identical to the college’s Ph.D. program which is 3.0 GPA AND at least 53rd percentile on the verbal section of the GRE and 39th percentile on the quantitative section.
3. Minimum MCAT scores required is a mean of 8
4. Basic computer competency is expected.

Applicants must identify a discipline-specific interest area and have a faculty sponsor from the discipline who agrees to serve as the major professor. The admissions decision is made by the faculty sponsor’s department.
Admission Procedures

All Dr.P.H. applications are reviewed by the College of Public Health Inter-departmental Dr.P.H. Admissions and Advisory Committee. The Dr.P.H. Admissions and Advisory Committee will review the entire application package and consider the overall balance of each applicant’s qualifications and the fit between the applicant’s career goals and the academic program.

DEGREE PROGRAM REQUIREMENTS

Pre-Requisites: Applicants must have an M.P.H. or M.S.P.H. from an accredited university, and a minimum of two years work experience in public health, a closely related field or as a health professional. If the student does not have a M.P.H. or an M.S.P.H. from an accredited university, the student must take and successfully pass the following public health core courses. Please note that these courses are pre-requisites; therefore, cannot be counted as part of the 90 credit hour Dr.P.H. program of study.

Pre-Requisite Public Health Courses

Public Health Core
- PHC 6000 Epidemiology
- PHC 6050 Biostatistics I
- PHC 6102 Principles of Health Policy and Management
- PHC 6357 Environmental and Occupational Health
- PHC 6410 Social and Behavioral Sciences Applied to Health

Total Minimum Program Hours: 90 credit hours
At least 12 hours have to be at the 7000 level

Core Requirements 43 credit hours

Cluster 1: Leadership, Advocacy, and Community Engagement 22 credit hours

Domain: Advocacy
- PHC 6120 Community Partnerships and Advocacy
- PHC 7932 Practical Applications I: policy and Public Health

Domain: Leadership
- PHC 7610 Transforming Public Health Practice
- PHC 7933 Practical Applicants II: Public Health Leadership

Domain: Communication
- PHC 7934 Writing for Scholarly Publication
- PHC 7937 Advanced Seminar in Grant Writing
- PHC 7317 Risk Communication in Public Health

Domain: Community/Cultural Orientation
- PHC 6801 Cultural Competency in Public Health Practice
- PHC 6411 Introduction to Social Marketing

Cluster 2: Management and Ethics 12 credit hours

Domain: Management
- PHC 6104 Management of Public Health Programs (or)
- PHC 6146 Health Services Planning and Evaluation (or)
- PHC 6148 Strategic Planning and Healthcare Marketing
- PHC 6181 Organizational Behavior in Health Services

Domain: Professionalism and Ethics
- PHC 6412 Health Disparities, Diversity and Cultural Competence (or)
- PHC 6442 Global Health Applications in the Field
- PHC 6934 Public Health Ethics
Cluster 3: Evidence-informed Public Health  

Domain: Critical Analysis  
PHC 6195 Public Health Information and Decision Making (or)  
PHC 6761 Global Health Assessment Strategies  
PHC 7611 Evidence-Informed Public Health: Part 1  
PHC 7612 Evidence-informed Public Health: Part 2

Focus Area Courses  
Discipline-Specific courses should pertain to focal discipline and interest area. Hours can be transferred from Master’s degree.

Culminating Requirements  
18 credit hours  
- Practice-based field study (9 credit hours, see description below);  
- Written qualifying exam  
- Practice-Based Dissertation 9 credit hours of PHC 7980 Dissertation

Practice-based field study: All Dr.P.H. students will engage in a practice-based specialized study for a total of 9 credit hours. This provides an opportunity for in-depth study in a particular area of public health. The practice-based study is designed to focus on developing and demonstrating strategic policy-making skills and advanced leadership skills in the identified public health discipline. It will be jointly planned by the student, faculty advisor and Field Placement Coordinator. A qualified community-based professional preceptor will mentor the student in the practice setting.

Qualifying Exam:  
When all required coursework is satisfactorily completed (including tools of research and prerequisites), the student must pass a written comprehensive qualifying examination covering the subject matter in the major and related fields. Exam questions will be generated by the Dr.P.H. Inter-departmental Admissions and Advisory Committee. The exam will be administered and evaluated by the student’s Dr.P.H. Pre-dissertation Committee. Results for the written exam will be communicated in writing to the student within 15 working days of the examination. If all or part of the exam is failed, the student will have one more opportunity to retake the exam. After successful completion of the qualifying exam and appropriate paperwork is submitted to and approved by the Office of Graduate Studies, the student is admitted to candidacy and may register for dissertation hours in the semester following Office of Graduate Studies approval.

Dissertation:  
All students must follow the University’s "Guidelines for Dissertations and Theses" Found at http://www.grad.usf.edu/thesis.php.

Note: In order to be considered for admission to the Dr.P.H. Program in Public Health, applicants must be fully prepared to register as full-time students for at least one full academic year (consecutive Fall and Spring semesters). All requirements for doctoral degrees must be completed within seven (7) calendar years from the student’s date of admission for doctoral study. Students have four (4) years form the date of admission to complete all required coursework, pass the qualifying examination, and to be admitted to doctoral candidacy. Students then have three (3) years form the date of doctoral candidacy to complete degree requirements.

Advising and Mentorship  
Faculty Advisor and Practice-based Mentor  
Upon admission the Dr.P.H. program of study, the Dr.P.H. Admissions Committee will appoint a Dr.P.H. Faculty Advisor and Dr.P.H. Practice-based mentor to each student. Typically the faculty advisor also serves as the Chair of the dissertation committee. The advisor and the practice-based mentor facilitate the student’s doctoral studies by:

1. Meeting with the student to develop a plan of study for doctoral committee approval by the end of the second semester.  
2. Monitoring and informing the Pre-dissertation committee of the student’s progress.  
3. Meeting with the student on a regular basis about academic and research progress and professional and career goals.  
4. Coordinating the development, administration, and grading of the qualifying exam.  
5. Guiding the student in development and implementation of a quality practice-based study experience.
**Pre-Dissertation Committee**

All Dr.P.H. students are admitted into the College of Public Health. Dr.P.H. will be assigned a faculty advisor (see above) and a Dr.P.H. practice-based Mentor who will work with the student in forming a pre-dissertation committee. The roles of the pre-dissertation committee are as follows:

1. Meet with the student to discuss plan of study, practice-base specialized study, and academic progress. The Program of Study should include proposed time schedule to complete each course, and copies shall be given to each committee member and to the Office of Academic and Student Affairs.
2. Facilitate opportunities for strengthening leadership and management skills, applied research skills and scholarly growth.
3. Administer and evaluate the qualifying exam.

**Dissertation Committee**

Successful completion of the preliminary examination advances the doctoral student to a doctoral candidate. At that time, the student will convene a Dr.P.H. Dissertation Committee. The Pre-Dissertation Committee may continue to serve as the Dissertation Committee, although this not necessary. At this time, the student may desire to change Faculty Advisor and/or committee members. This may occur when practice, professional or research interests are more closely matched with another faculty member, the student and faculty member mutually agree that another person is more appropriate, or a faculty member is leaving the University. This action is to be approved by the Department Chair, the Dean of Academic and Student Affairs, and the Office of Graduate Studies.

The Dissertation Committee must have a minimum of four members, which includes at least two faculty members from the College of Public Health and a public health professional or practitioner. Refer to Office of Graduate Studies guidelines for information on the chair appointed for the dissertation defense. A minimum of 9 dissertation credits is required.

The roles of the dissertation committee are as follows:

2. Approve written dissertation proposal through a formal oral presentation process.
3. Provide guidance and support during dissertation
5. Recommend an appropriate chair for the dissertation defense.

**Use of “c” in Degree Acronyms for Degree Candidates**

The College of Public Health does not permit students who are pursuing masters or doctoral degrees to use the degree acronym after their names and a small “c” for candidate. In other words students are not permitted to use MPHc, MSPHc, MHA, PhDc, or DrPhc. If students, after successfully completing all comprehensive exams (core and concentration) for the master degrees or the qualifying exam for the doctoral degree wish to put after their name the words “master degree candidate” or “doctoral degree candidate” – we allow this. The use of the degree acronym and small “c” creates confusion for faculty, employers, and other individuals who are reviewing students’ CVS and other materials. It creates a situation wherein a student appears to have earned a degree when such is not the case. As a degree-granting College, we do not allow this.

*Editor’s note: the use of “doctoral degree candidates” should only be done after Admission to Doctoral Candidacy has been processed and approved through the Office of Graduate Studies.*

**COURSES**

See [http://www.ugs.usf.edu/course-inventory/](http://www.ugs.usf.edu/course-inventory/)
