**Subject:** RE: Graduate Catalog - For review - Middle Grades Mathematics (5-9) MAT

I ran this by the Associate Dean for Graduate Studies and she was good with this, I did not think there would be any objection. So this is good to go from the COEDU side.

Hi

Thank you for your efforts on this.

It appears that this is new language:

- Passed the Florida [General Knowledge Test \(GKT\)](#). For the graduate level teacher preparation programs, GRE scores of 150 verbal and 156 quantitative or higher, taken within the last five years may be accepted in place of GKT, for admission to the program.

Accordingly, I need confirmation of College approval. This may be nonsubstantive and may not require GC approval. However, I do need that confirmation to move this forward.

I've attached an updated version (2-8-18) which re-edited the section to show the actual changes, versus a complete deletion of the existing section with all new copy added when it's not really all new copy.

Lora – if you can confirm that COED approves this non-sub change, I can move this forward.

Thank you both,  
Carol
