Curriculum – Change of Graduate Major – Page 2

Degree: MPH, MSPH, PHD Major: Public Health

Concentration (if applicable):

BRIEF RESPONSES TO THE FOLLOWING:

1. Why are these changes necessary?
Due to scheduling of courses.

FOR ANY NEW CURRICULUM (New Concentration, Track, Specialization, Grad Certificate, etc.), answer the following:

2. How does this align with USF System and State University System strategic goals (with particular focus on BOG's "areas of strategic emphasis")?
3. What is the demonstrated need and demand? (in the context of statewide and regional enrollment/degree productivity, including USF institutions, SUS, and FSC), making compelling reasons for "necessary duplication," if appropriate.
4. What is the potential impact of new degree programs and new program majors on existing programs in the USF System? *(Including new concentrations, tracks, specializations, etc.- if there are any existing offers, please address impact)*
5. Are there adequacy of resources (faculty, space, equipment, graduate assistants, staff, library etc. – the leveraging of shared resources across and between institutions will be important). Programs will not be considered contingent upon legislative budget requests
6. Quality assurance and commitment to any requisite accreditation.

Once College has approved, scan and email this Approval Form, and the revised Catalog Copy in Word to Graduate Studies by the deadline posted online <http://www.grad.usf.edu/graduate-council.php> . For questions, contact cdh@usf.edu
