Follow the guidelines outlined by the Graduate Council at: <http://www.grad.usf.edu/curriculum.asp>.

1. BRIEF Summary of Changes: (e.g., "Add plant identification course to Botany Concentration")
 Remove NGR 6244C, Health Management of Adults and older Adults II from the curriculum and add 6 credits of instruction to the current Acute Care courses - NGR 6210C, NGR 6232C,
2. Why are these changes necessary or desired?
 There was duplication in the content of NGR 6244C and current acute care courses and new format will allow for improved clarity and precision, as well as a clear alignment with the Masters Essentials, 2012 Adult Gerontological Acute Care NP competencies, and the NONPF core competencies document.
3. Submit this printed form (signed) and the revised Catalog Copy to gradcurr@grad.usf.edu. Contact Carol Hines-Cobb (cdh@usf.edu) to get a Microsoft Word document of the relevant current catalog copy.
 - a. Using the Word copy sent to you...that lists the CURRENT requirements;
 - b. Use "Track Changes" in Word to change or add requirements to reflect your requested actions. (Word Menu: Review/Track Changes/Track Changes)

- c. For New Concentrations, insert the new concentration requirements underneath the Program Core requirements. Note that the program core is the baseline, although concentrations may impose additional requirements.
- d. For Changes to existing concentrations, make your requested revisions, keeping in mind that the concentration is a subset of the program and subject to the baseline program requirements.

4. After filling in the necessary information above, print this web form using the "Print Completed Form" button below.

5. Submit the signed original printed copy and 1 electronic copy of the complete packet to the Graduate School by the deadline posted online <http://www.grad.usf.edu/curriculum-program.asp>.

Contact Carol Hines-Cobb with any questions – cdh@usf.edu or 813-974-4239.
