

2017-2018 USF Graduate Catalog Summary

Effective fall 2017

Policy Summary

The following policies were revised and approved by Graduate Council August 2016 through May 15, 2017, unless otherwise noted as approved by the Office of Graduate Studies (noted as "OGS"). The specific revisions follow below by Item No. with changes noted. **These revisions have been included in the 2017-2018 USF Graduate Catalog and are in effect as of fall 2017.**

Policy Revisions

1. Continuous Enrollment	confirmed a course with a "W" does not fulfill the requirement	9/12/16
2. USF 10-065 Credit Hours, ...	reviewed proposed language; made recommendations for revision (no catalog impact)	10/17/16
3. Accelerated Programs	revised language for clarity; sent to Undergrad Council (UC) for agreement	11/7/16
4. Accelerated Programs	added language to allow option with Honors College; retained GPA; sent to UC for agreement	3/6/17
5. Graduate Admission Deadlines	created a priority and a final University Deadline	3/6/17
6. Graduate Admissions Criteria	clarified acceptance of graduate versus bachelor's degree credentials and equivalency for 3-year bachelor's degrees	4/3/17
7. Time Limitations	corrected course currency language for doctorate section	4/3/17
8. USF Regulation 3.038	reviewed with notation for deadline to comment; no recommended revisions by GC	4/3/17
9. Major Professor	reverted to previous language which requires Major Professors from the "Academic Area" instead of "Department"	5/1/17
10. Graduate Admissions Fee	revised language to allow application to multiple majors, based on admission to University, with only one fee	5/1/17
11. Institutional Enrollment Requirement	clarified language to reflect State requirement of admission for one semester prior to graduation	5/1/17
12. Graduate Admissions Policy	added language to clarify priority versus University final deadlines	5/15/17
13. Dual Degree to Concurrent Degree	revised language for dual degree to "concurrent degrees" for SACSCOC compliance – OGS Approval	5/22/17

1. [Continuous Enrollment Policy - Approved 9/12/16](#)

Discussed variations between Registrar's definition and the graduate policy. Registrar's Office definition for continuous enrollment includes W grades because it counts as attempted hours. The only time courses are not included in continuous enrollment is if the student did not register or was cancelled from the course. Consensus was that a course with a "W" does not fulfill the requirements of continuous enrollment. Made one minor revision to the Continuous Enrollment Policy.

Continuous Enrollment for All Graduate Students

All graduate degree-seeking students must be continuously enrolled. Continuous enrollment is **defined as completing, with grades assigned, a minimum of 6 hours of graduate credit every three continuous semesters. Courses that receive a "W" grade do not fulfill continuous enrollment requirements.** Colleges and programs may have additional requirements. Students on an approved leave of absence are not subject to the enrollment requirement for the time approved for the leave. Students who have been Admitted to Doctoral Candidacy must follow the Dissertation Hour Enrollment in place of the Continuous Enrollment requirement as specified here for all graduate students (not in candidacy). See also the Time Limitations Policy.

2. [Accelerated Programs – Approved 11/7/16](#)

Modified language. Recommend sending to UGC for revision/approval.

Accelerated Programs [Guidelines](#)

[POLICY:](#)

[Accelerated Program Information for Students:](#)

Accelerated Programs allow **academically** highly qualified undergraduate students to complete **an undergraduate** a Bachelor's degree and a **graduate degree** (typically master's degree) in a select few majors on an accelerated timeline. These programs commonly offer a shorter duration to completion of both degrees; **graduating sooner than in traditional programs.** Typically, Students **will** complete a portion of the required graduate coursework while classified as an undergraduate student and have it count towards both degrees. As soon as the student completes the undergraduate degree requirements, the student is converted to graduate student status, where the remaining graduate requirements are fulfilled. Students interested in pursuing an Accelerated Program must complete an Accelerated Program Application (http://www.grad.usf.edu/inc/linked-files/Accelerated_Program_Application.pdf).

Editor's Note: Although students may be in an Accelerated Program, pursuing a Bachelor's and Master's Degree at the same time, they cannot be in two levels at once.

[Accelerated Programs:](#)

- **May** require that degrees are conferred **simultaneously or sequentially**, with preference to conferral of the bachelor's degree as soon as possible **upon completion of the undergraduate requirements (refer to the specific Accelerated Program for details)**
- Have an approved Program of Study, including a plan for academic advising and notation for financial aid impact
- May share up to twelve (12) hours of structured graduate credit between the graduate and undergraduate degree. Refer to the specific program for total hours approved to be shared.

- Require approval from the Undergraduate Council, Graduate Council, and SACSCOC. It is preferred that the total combined credits be at least 150 credits (120 bachelor's and 30 master's) after the shared coursework is counted. Programs with less than 150 total combined credits may be considered for approval but require submission to SACSCOC as a Substantive Change to the Major.
- Require a 3.33 GPA overall and a 3.50 GPA in the undergraduate Major
- Require that the admission requirements for the graduate major be noted in the specific Accelerated Program requirements.
- Require a minimum of 15 hours in the undergraduate major to be completed before a student may apply for consideration for the Accelerated Program
- Require a "B" (3.00) in each graduate course taken as part of the shared credits applied to both undergraduate and graduate majors. Consequences for not obtaining a "B" will be noted in the specific Accelerated Program requirements

APPLICATION AND PROGRESSION

Application - Students may be considered for an Accelerated Program following completion of a minimum of 15 hours in the undergraduate major and submission of an Accelerated Program Application; the student may be considered for acceptance into the Accelerated Degree program through faculty nomination or student self-nomination via submission of the *Accelerated Program Application Form*. Programs will review and approve the application.

Progression - Programs will verify graduate admission eligibility and submit the required paperwork (*Accelerated Graduate Program Progression Form*) to officially convert the student to graduate standing, no later than when the student has reached 90 hours or Bachelor's degree has been conferred. The application requires approval from the Graduate Program, College, and Office of Graduate Studies.

Programs who desire to offer Accelerated Degree Programs must establish guidelines that define the following. The guidelines must then be submitted and approved by the Policy Committee of the Graduate Council. These guidelines are used in the development of a new Accelerated Program. *For Departments Developing an Accelerated Program:*

Proposed Programs must meet the *Accelerated Program Requirements*, as well as follow the best practices listed below:

- Programs have a choice of conferring degrees simultaneously or sequentially, but it is recommended that undergraduate degrees are to be conferred in a timely manner as soon as undergraduate requirements are fulfilled.
- Programs must complete a Program of Study, develop a plan for academic advising, and tracking of students, including notation of potential financial aid impact.
- Typically, up to twelve (12) hours of graduate credit may be shared between the graduate and undergraduate degree. Although, with Graduate Council and Office of Graduate Studies approval, programs may offer accelerated programs with more shared credits.*
- Typically, a minimum undergraduate GPA of at least 3.33 overall and a minimum GPA of 3.50 in the major, having taken a minimum of 15 hours in the undergraduate major are required for students to be admitted to an accelerated program. With Graduate Council and Office of Graduate Studies approval, programs may offer accelerated programs with different GPA requirements. Students must have a minimum of a "B" (3.00) in each graduate course. Consequences for not obtaining a "B" in each graduate course must be noted in the Departmental Accelerated Program requirements.
- Following completion of a minimum of 15 hours in the undergraduate major, the student may be considered for acceptance into the Accelerated Degree program in one of two ways: faculty nomination or student self nomination, via submission of the *Accelerated Graduate Program Nomination Form*. Programs will review the applications and approve the nomination.
- Programs will submit the required paperwork (*Accelerated Graduate Program Admission Form*) to officially convert the student to graduate standing, no later than when the student has reached 90 hours or Bachelor's degree has been conferred. The application requires approval from the Graduate Program, College, and Office of Graduate Studies.

ACADEMIC INFORMATION (Catalog Copy):

Accelerated Program Requirements Accelerated Programs allow academically qualified students to complete an undergraduate Bachelor's degree and a graduate master's degree on an accelerated timeline, graduating sooner than in traditional programs. **Admission Requirements** Admission into an Accelerated Program is accomplished in one of two ways:

— Faculty Nomination
— Student Self Application
To be eligible for consideration for an Accelerated Program, students must:

- Have completed a minimum of 15 undergraduate hours in the major
- Have a minimum undergraduate GPA of 3.33 overall
- Have a minimum undergraduate GPA of 3.50 in the major

Accelerated Degree Program Academic Requirements Each Program will indicate the specific academic requirements, including the up to 12 hours of shared coursework between the undergraduate and graduate degrees. **Undergraduate Degree Requirements** — specify Shared Requirements — specify Graduate Degree Requirements — specify

3. Accelerated Programs – approved 3/6/17

Revised language to allow for Accelerated programs with the Honors College. Specific offerings will need to be processed and approved through Curriculum with the specific majors identified. GC Discussed current GPA requirements (3.33 overall and 3.50 GPA in the major) and whether it should be lowered to account for majors that are more rigorous. Council members were not in favor of lowering the requirement. Motion made to retain current GPA standards. Motion passed.

Accelerated Programs:

- ~~May require that degrees are conferred simultaneously or sequentially, with preference to conferral of the bachelor's degree as soon as possible upon completion of the undergraduate requirements (refer to the specific Accelerated Program for details)~~
- Have an approved Program of Study, including a plan for academic advising and notation for financial aid impact
- ~~May share up to twelve (12) hours of structured graduate credit between the graduate and undergraduate degree or between the graduate degree and the Honors College Curriculum Requirements tied to the undergraduate major[HC1]. Refer to the specific program for total hours approved to be shared.~~
- Require approval from the Undergraduate Council, Graduate Council, and if applicable, SACSCOC. It is preferred that the total combined credits be at least 150 credits (120 bachelor's and at least 30 master's) after the shared coursework is counted. ~~Programs-Majors~~ with less than 150 total combined credits (with at least 30 credits for the master's degree) may be considered for approval but require submission to SACSCOC as a Substantive Change to the Major.
- ~~Require a 3.33 GPA overall and a 3.50 [HC2][HC3]GPA in the undergraduate Major~~
- Require that the admission requirements for the graduate major be noted in the specific Accelerated Program requirements.
- Require a minimum of 15 hours in the undergraduate major to be completed before a student may apply for consideration for the Accelerated Program
- Require a "B" (3.00) in each graduate course taken as part of the shared credits applied to both undergraduate and graduate majors. Consequences for not obtaining a "B" will be noted in the specific Accelerated Program requirements

4. Graduate Admission Deadlines – approved 3/6/17

Revised to allow for a priority deadline by major and a standard University deadline. (note – since confirmed that these are firm deadlines; no exceptions).

Graduate Admission Application Deadlines

~~The University deadlines for graduate admission are listed below. However, many academic programs and concentrations have earlier deadlines than those established by the University, or may admit only for a specific term. A few programs and concentrations may have later deadlines, if approved by Graduate Council.~~

~~Applications must be received by the approved Graduate Program deadline. However, Graduate applications and supporting materials should be submitted well in advance of the published program deadline, especially for those applicants who are interested in being considered for assistantships, tuition waivers, and fellowships. Applicants who want to be considered for Office of Graduate Studies fellowships must have all application documents on file at USF prior to the program's application deadline OR January 15, whichever comes first. Applicants should check with the prospective Program to determine if there is an earlier deadline for consideration of fellowships the Program may offer. University Graduate Admission Deadlines***~~

Additional Requirements for International Applicants

In addition to meeting the published application deadline for the Program of interest, all immigration documents should be submitted as soon as possible, but must be on file at USF no later than the ~~following processing deadlines listed above.*~~

~~International Applicants Applying from Outside the US: Fall Semester 2017 admission— May 1, 2017 Spring Semester 2017 admission— September 15, 2016 Summer Semester 2017 (all sessions) admission— January 15, 2017 International Applicants Applying from Within the US: Fall Semester 2017 admission— June 1, 2017 Spring Semester 2017 admission— October 15, 2016 Summer Semester 2017 (all sessions) admission— February 15, 2017 *for programs with later admission application deadlines, all materials, including application and supporting documents, must be submitted by the international processing deadline noted above.~~

Foreign applicants who are outside the U.S. are required to apply for a visa. Depending on the country of origin, this may take a few months. So the deadlines for these international applicants may be earlier than the Program deadline and these applicants must apply prior to both deadlines. They are strongly encouraged to apply as early as possible. Foreign applicants who are in the U.S. and are currently on a visa may use the domestic application deadline dates.

5. Graduate Admissions Criteria – Approved 4/3/17

Added language to clarify acceptance of graduate versus bachelor's degree credentials. Revised the Admission Criteria policy to address the equivalency for 3-year bachelor's degrees.

Admissions Criteria

An applicant must have one of the following (a, b, or c):

- a. A bachelor's degree from a regionally accredited institution and satisfying at least one of the following criteria:
 - i. "B" average or better in all work attempted while registered as an undergraduate student working for a degree, or
 - ii. "B" average or better in all work attempted while registered as an upper division undergraduate student working for a baccalaureate degree.
- b. A bachelor's degree with a "B" average or better from a regionally accredited institution and a previous graduate degree with a "B" average or better from a regionally accredited institution. In cases where an applicant has a bachelor's and a graduate degree at the time of admission, the credentials and GPA of the graduate degree will be the determining factor for admission.
- c. The equivalent bachelors and/or graduate degrees from a foreign institution. Bachelor's degrees from institutions in the European Higher Education Area (EHEA) are considered equivalent based on the Bologna Accord. For applicants with a 3-year Bachelor's Degree with less than 120 hours, from Non-Bologna Accord Institutions, a transcript evaluation from a NACES member is required to confirm equivalency.

Bologna Process - Applications from the European Higher Education Area

USF accepts applications from prospective graduate students with undergraduate degrees from countries that subscribe to the Bologna Process. Applicants with three-year degrees from universities in the European Higher Education Area (EHEA) may be considered for admission to graduate programs, at the discretion of the Department (or equivalent) and College that offer the Program and with the approval of the Office of Graduate Studies, under the following condition:

Official documentation is presented to demonstrate that a three-year degree (at least 180 ECTS) has been awarded prior to USF matriculation by an institution within the European Higher Education Area (EHEA), defined by the Bologna Declaration of 1999. Where applicable, diploma supplements should be included with transcripts and other documents required to demonstrate degree completion. An up-to-date, official listing of Bologna signatory countries may be found at www.ehea.info.

Non-Bologna Institutions

Transcripts for applicants from non-Bologna Accord Institutions must be accompanied by an evaluation of the bachelor's degree by an independent third-party member of the National Association of Credential Evaluation Services (NACES). Confirmation of the baccalaureate degree as equivalent is determined by relevant program faculty, with the assistance of the office of International Admissions, and the Office of Graduate Studies.

6. Time Limitations- Approved 4/3/17

Addressed course currency clarification wording as relevant to the master's and doctoral time limits (5 and 7 years including 10 years for course currency).

Time Limitations

Doctoral degrees must be completed within seven (7) years from the student's original date of admission for doctoral study. **All courses applied to the doctoral degree must be completed within ten (10) seven (7) years**, including courses taken

1. prior to admission to the USF doctoral program,
2. taken as non-degree seeking, or
3. transferred in from other institutions

There is no time limitation for courses from a completed master's degree used toward a doctoral degree. For students who are readmitted, see Readmission Policy. Typically a student will reach candidacy within four years, but this may vary per discipline.

7. USF Regulation 3.038

Clarified BOG Regulation 8.011 – refer to Genera Counsel Website for specific wording - <http://regulationspolicies.usf.edu/regulations/pdfs/proposed-regulation-usf3.038-academic-curricular-offerings-posted-031417.pdf>

8. Major Professor – Approved 5/1/17

Re-established previous definition and policy (Academic Area vs. Department).

Doctorate Section:

Major Professor

The Major Professor serves as the student's advisor and mentor. Students should confer with the Department (equivalent) to confirm the internal process and timeline for the selection and appointment of the Major Professor. The student must identify a major professor ~~student's from the Department (or equivalent)~~ and receive that person's agreement to serve as major professor. The selection of the Major Professor must be approved and appointed by the department as soon as possible, but no later than the time the student has completed 50% of the program. Students must have a major professor in order to maintain Satisfactory Academic Progress.

If a Major Professor cannot be identified or in the event a Major Professor is unable or unwilling to continue serving on the student's committee, the student is responsible for finding another Major Professor. Students who are unable to find a replacement Major Professor should confer with the Program Director for available options. If no other options exist the student may be requested to voluntarily withdraw from the program or may be honorably withdrawn in good academic standing. The student and Major Professor should plan a program of study which, when completed, will satisfy the degree requirements specified. A copy of this program, signed by the student and professor, should be maintained in the student's department file.

Major Professors must meet the following requirements:

- Be from the student's ~~academic area home Department (or serves as a co-major professor with someone from the Department)~~
- Be graduate faculty*, as defined by the University, from the student's academic area
- Be engaged in current and sustained scholarly, creative, or research activities and have met departmental (or equivalent) requirements
- Be active in scholarly pursuits as evidenced by at least one refereed publication in the last three years.
- Have been approved by the student's Department Chair (or equivalent) to serve as a Major Professor or Co-Major Professor.

**Affiliate Graduate Faculty may serve as a Co-Major Professor with a graduate faculty from the student's department. Co-Major Professors may be two graduate faculty or one graduate faculty and one approved Graduate Affiliate Faculty*

Composition

The Doctoral Dissertation Committee will consist of at least four members

- the Major Professor must be from the student's ~~department and~~ academic area
- two additional members must come from the academic area (i.e. discipline) of the student
- at least one external member (from outside the Department, School, or equivalent, hosting the doctoral program, but may be within the academic discipline)
- ~~A minimum of two members, including the Major Professor, must be from the student's Department and graduate faculty by definition~~

Faculty holding joint or adjunct appointments in the degree-granting academic unit (i.e. Department or equivalent) cannot be external members on a student's committee.

10. Deliberations and Voting

Following the completion of these proceedings, the Doctoral Dissertation Defense Chair

- will ask all visitors and the candidate to leave and will reconvene the Doctoral Dissertation Committee only.
- will preside over the deliberations and voting of the Committee (Note: if a non-committee member (Outside chair) is used he/she will not participate in the voting)
- is responsible for tallying the votes and informing the candidate of the final decision.- The voting is to be limited to "pass" and "fail" votes. *The vote of the Doctoral Dissertation Committee must be unanimous.* If unanimous agreement cannot be reached, the Doctoral Dissertation Defense Chair notifies the student's Department Chair (or appropriate equivalent) who will endeavor to resolve the dispute in an expedient fashion.
- records the vote on the Successful Defense Form and conveys the decision of the Doctoral Dissertation Committee (Successful Defense Form) to the Department/College Graduate Office to be kept in the student's file.

11. Approval of the Final Dissertation

All committee members must approve the final version of the dissertation via the Certificate of Approval Form. If the Committee is unable to unanimously approve a final draft of the dissertation, the student's Department Chair and College Dean will work with the Doctoral Dissertation Committee to seek an equitable resolution

Dissertation Final Submission Guidelines

Information on requirements for submission of the finished and approved manuscript copies is available online at the Thesis and Dissertation

website <http://www.grad.usf.edu/thesis.php>. Students who fail to submit the final copy of a dissertation by the posted submission deadline will not be considered for graduation. The student may be considered for graduation in the following semester and must therefore apply for the degree (graduation) by the posted deadline, enroll in a minimum of two (2) dissertation hours for that subsequent semester, and meet the submission requirements as posted on the Thesis/Dissertation website. Only after the Office of Graduate Studies has approved the manuscript can the student be certified for the degree.

Master's Section:

Major Professor

The Major Professor serves as the student's advisor and mentor. Students should confer with the Department (or equivalent) to confirm the internal process and timeline for the selection and appointment of the Major Professor. The student must identify a major professor from the student's [academic area Department \(or equivalent\)](#) and receive that person's agreement to serve as major professor. The selection of the Major Professor must be approved and appointed by the Department as soon as possible, but no later than the time the student has completed 50% of the program. Students must have a major professor in order to maintain Satisfactory Academic Progress.

If a major professor cannot be identified or in the event a major professor is unable or unwilling to continue serving on the student's committee, the student is responsible for finding another major professor from the Department (or equivalent). Students who are unable to find a replacement major professor should confer with the Program Director for available options (including converting to a non-thesis program if available.) If no other options exist, the student may be requested to voluntarily withdraw from the program or may be honorably withdrawn in good academic standing. The student and major professor should plan a program of study which, when completed, will satisfy the degree requirements specified. A copy of this program, signed by the student and professor, must be maintained in the student's department file.

Major Professors must meet the following requirements:

- Be from the student's [academic area home Department \(or serves as a co-major professor with someone from the Department\)](#)
- Be graduate faculty*, as defined by the University, from the student's academic area.
- Be engaged in current and sustained scholarly, creative, or research activities and have met departmental (or equivalent) requirements
- Have been approved by the student's Department Chair (or equivalent) to serve as a Major Professor or Co-Major Professor

**Affiliate Graduate Faculty may serve as a Co-Major Professor with a graduate faculty from the student's department. Co-Major Professors may be two graduate faculty or one graduate faculty and one approved Graduate Affiliate Faculty*

Composition

The committee will consist of either:

- the major professor and at least two other members or
- two co-major professors and at least one other member
- ~~- A minimum of two members, including the Major Professor, must be from the student's Department~~

Committee members should be from the general research-area in which the degree is sought. (Colleges and Programs may require additional committee members and specify characteristics.)

9. Graduate Admissions Fee – Approved 5/1/17

Revised language to allow application to multiple majors, based on admission to University, not to major (student only pays one time)

All applicants are required to submit an application fee of \$30.00 USD [for admission to the University of South Florida. Students may apply for multiple majors, with only one application fee being required per every 12 month period from the date of initial application, irrespective of the number of graduate majors applied for. for EACH graduate program \(USF Regulation USF4 0107: Special Fees, Fines and Penalties <http://regulationspolicies.usf.edu/regulations/pdfs/regulation-usf4.0107.pdf> <<http://regulationspolicies.usf.edu/regulations/pdfs/regulation-usf4.0107.pdf>>](#). If you attended USF as a former degree seeking student or non-degree student then you will also be required to submit the application fee. Applicants have the option to pay their application fee by credit card (Discover, Master Card, Visa) or by E-Check (personal checking/savings account) through the Graduate Online Application. The Online Graduate Application will not be processed if the application fee is not paid. ALL APPLICATION FEES SUBMITTED ARE NON-REFUNDABLE.

10. Institutional Enrollment Requirement – Approved 5/1/17

Clarified language to reflect State requirement of admission for at least one semester prior to graduation

At least 50% of credits toward a graduate degree must be earned through instruction offered by the home institution (e.g., USF Tampa, USF St. Petersburg, USF Sarasota-

Manatee) granting the degree. For information about the minimum number of credit hours required for the [major degree](#) refer to the [degree curriculum](#) requirements in the [catalog program listing for that major](#). Students are responsible for consulting with their [Graduate Director](#) [degree program coordinator](#) for information on courses that may be taken outside their graduate [major degree program](#), as well as the Transfer of Credit

Policy for course transfer eligibility requirements. Although equivalent courses may be offered at other institutions including within the USF System), they may not satisfy degree requirements.

[Students must matriculate for at least one semester following admission to the University before graduation may be approved. Students who want to change majors following admission into the University, must wait one semester before submitting the Change of Major request.](#)

Students who change to a lower degree level (e.g. change from doctorate to master's), in the same major, may graduate the same semester that the change is approved, provided that it is not the first semester following admission to the University.

Additional Requirements for International Applicants

In addition to meeting the published application deadline for the Program of interest, all immigration documents should be submitted as soon as possible, but must be on file at USF no later than the deadlines listed above.

Foreign applicants who are outside the U.S. are required to apply for a visa. Depending on the country of origin, this may take a few months. So the deadlines for these international applicants may be earlier than the Program deadline and these applicants must apply no later than the posted International deadline ~~prior to both deadlines~~. They are strongly encouraged to apply as early as possible. Foreign applicants who are in the U.S. and are currently on a visa may use the domestic application deadline dates.

14. [Dual Degree Changed to Concurrent Degree – OGS Approved 5/22/17](#)

Change Dual Degree to Concurrent Degree for SACSCOC compliance. Dual Degrees are only used for degrees between Institutions. For internal dual degree, Concurrent should be used. This change will be updated in the policy and wherever "dual degree" is referenced in the Graduate Catalog, except for those that involve other Institutions.

[Concurrent](#)~~Dual~~ Degree Programs

A student may [concurrently](#) pursue two graduate degrees at USF through a formal, approved [Concurrent](#) ~~Dual~~-Degree Program. The goal is for a student to earn two graduate degrees.

Students interested in [Concurrent a-Dual](#)-Degree Programs:

- Must apply for admission to the first program and validate admission through enrollment. In the semester following that enrollment, the student must apply for dual degree program approval
- May share between 0% and 15% of the total combined minimum program credit hours. Only structured graduate coursework may be shared.
- Will meet all other separate degree requirements (e.g. two dissertations, one thesis/one dissertation, projects, exams, etc.), unless the [Concurrent](#) ~~Dual~~-Degree Program was approved with a combined requirement by Graduate Council through the formal [Concurrent](#) ~~Dual~~-Degree Program Curriculum Approval.
- Must have a minimum of 60 total combined graduate hours after the shared hours are applied for [concurrent dual](#)-master's programs, or a minimum of 102 total combined graduate hours for a [concurrent dual](#)-master's/doctorate program

Degrees may be conferred sequentially or concurrently, as specified in the approved Program requirements

Both Degrees must be conferred within the time-limit for the first degree to which the student is admitted.

Example: A student is enrolled in two master's programs, one requires 30 hours and the other requires 42 hours minimum. With approval, the student may share 9 hours (equal to or less than 15%) across the combined 72 total minimum credit hours required. The total minimum hours completed would then be 63. The student would also complete two separate theses. In [concurrent dual](#)-degree programs where the student is completing a thesis for one program and the other does not require a thesis, the thesis submitted to the Office of Graduate Studies reflects the Program for which it is required.

[Concurrent](#) ~~Dual~~-Degree Program Curriculum Approval

[Concurrent](#) ~~Dual~~-Degree Programs are developed by the faculty in the Department and submitted for approval via the [Concurrent](#) ~~Dual~~-Degree Curriculum Approval Form. [Concurrent](#) ~~Dual~~-Degree Curriculum Proposals must be approved by the Department, School/College Committees (as appropriate), the College, Office of Graduate Studies, and Graduate Council.

[Concurrent](#) ~~Dual~~-Degree Graduation Certification

Programs participating in an approved [Concurrent](#) ~~Dual~~-Degree program are encouraged to work collaboratively with a shared Program of Study to ensure timely progression and coordination of requirements for the student. Each degree is certified individually per standard procedures.
