The NPA's 8th Annual Meeting, held last week, was attended by a record crowd of more than 275 persons. Important discussions took place that will affect the work of the NPA and its members and friends for months to come. The first-ever National Summit on Gender and the Postdoctorate also took place and was attended by nearly 140 persons.

A big "thank you" to the speakers, volunteers, local hosts, participating organizations, and sponsors whose hard work and support made these meetings possible--and successful!

Stay tuned for more information regarding these important national discussions.

Dr. Collins's Keynote Inspires Annual Meeting Participants
