Master of Accountancy (M.Acc.)
Accountancy (MAC)
Audit/Systems (AUS)
Tax (TAX)

Master of Business Administration (M.B.A.)
Business Administration (full-time or part-time) (BUS)
Sport Business (SEM)
Executive M.B.A. (MBA)

Master of Science (M.S.)
Entrepreneurship in Applied Technologies (EAT)
Finance (FIN)
Management (MAN)
Management Information Systems (MIF)
Sport and Entertainment Management (SMG)

Master of Science in Marketing (M.S.M.)
Marketing (MKT)

Master of Science in Real Estate (M.S.R.E.)
Real Estate (RST)
Doctor of Philosophy (Ph.D.)
   Business Administration (BUD)
       Accounting (ACC)
       Economics (ECO)
       Finance (FIN)
       Information Systems (IST)
       Marketing (MKT)
   Also see application areas in program descriptions.

Dual Degree Programs
   Biomedical Engineering (MSBE) / Entrepreneurship in Applied Technologies (M.S.)

   Business Administration (MBA): Sport Business Concentration /
   Sports and Entertainment Management (M.S.)

Graduate Certificates Offered:
   See Graduate Certificate website http://www.gradcerts

COLLEGE REQUIREMENTS

Non-Degree Seeking Students
The College of Business will approve, on a space available basis, non-degree seeking student status for transient students (degree-seeking students at another AACSB accredited institution) or for students with valid reasons to register in this status and who meet all admission requirements. Contact the college for additional requirements.
About the Catalog

The University of South Florida Graduate Catalog is organized with the degree programs offered listed in the section of the College that offers them. For example, the Master of Science degree with a “program” (also known as major) in Biology is listed in the College of Arts and Sciences section. Some colleges offer areas of specialization, or “concentrations” within a degree program.

PROGRAMS

**BUSINESS ADMINISTRATION PROGRAM**

Doctor of Philosophy (Ph.D.) Degree

DEGREE INFORMATION

CONCENTRATIONS

Concentration Requirements are listed separately under each Program.

The Program and Concentration are listed on the official transcript. Other areas, such as application tracks, are not listed on the transcript.

Example:

**Doctor of Philosophy in Business Administration**

*with a Concentration in Finance*
ACCOUNTANCY PROGRAM

Master of Accountancy (M.Acc.) Degree

Other Resources: www.usf4you

PROGRAM INFORMATION

The objective of the Master of Accountancy (M.Acc.) Program is to provide candidates with greater breadth and depth of knowledge in accountancy than is possible in the baccalaureate program. The program is designed to meet the increasing needs of business, government, and public accounting. Students entering The M.Acc. Program must already have the equivalent of an undergraduate degree in accounting from an AACSB accredited school. The program may also be structured to satisfy the requirements to sit for the CPA Examination in Florida.

Accreditation:
Accredited by both the Commission on Colleges of the Southern Association of College and Schools (SACS) and AACSB International (The Association to Advance Collegiate Schools of Business).

Major Research Areas:
Contact department.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

- At least a 3.00 upper-level accounting GPA (minimum of 21 hours at a U.S. AACSB- accredited program within the past 5 years)
- A 3.00 overall upper-level GPA
- A 500 or higher GMAT score
- International applicants from non-English-speaking countries must also have a TOEFL score of 550 or higher on written version, a 213 or higher on the computer-based test, or a 79 on the Internet-based test.

Admission to the M.Acc. program is competitive. For full consideration, please submit your application by the deadlines shown above.
DEGREE PROGRAM REQUIREMENTS

For the student who has the equivalent of an undergraduate major in accounting at USF (including 21-24 hours of upper-level accounting coursework taken within the last 5 years), the program consists of 30 hours. Most (24 hours) of the program is devoted to the study of accounting. The remaining six (6) hours consist of study in other business areas including economics, entrepreneurship, finance, and information systems/decision sciences. These six 6) hours are elected by the student in consultation with the M.Acc. Advisor. At least 70% of the coursework must be at the 6000 level.

The M.Acc. curriculum has a set of three required common core accounting courses. Students may elect a concentration (12 hours) in either Tax or Audit/systems. If a student does not wish to elect a concentration, a student may follow the “Generalist Track” below. The sequencing of courses will be determined in consultation with the M.Acc. Advisor.

Total Minimum hours: 30
At least 21 hours must be in 6000-level courses

Core Requirements

Minimum Total Hours: 32

Program Level: Masters

CIP Code: 52.0101

Dept. Code: DEA

Program (Major/College): BUS BA

Concentrations:
- Sport Business (SEM)

### PROGRAM INFORMATION

The Master of Business Administration (M.B.A.) is a professional degree designed to prepare graduates for managerial roles in business and not-for-profit organizations. Graduates will develop the necessary skills and problem-solving techniques that will permit them to make an early contribution to management and eventually to move into broad, general management responsibilities at the executive level.

**Accreditation:**
- Accredited by the Commission on Colleges of the Southern Association of College and Schools (SACS);
- AACSB International (The Association to Advance Collegiate Schools of Business).

**Major Research Areas:**
- Contact coordinator for department

### ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

**Program Admission Requirements**

The USF MBA admission committee will consider the strength of each applicant based on the entire completed application. The Admission committee will consider the following: prior college-level academic performance (bachelor's degree from a regionally accredited institution required); GMAT (preferred), GRE or MCAT scores; relevant professional work experience; recommendation letters; a statement of purpose; community or volunteer service; and any other information that helps in ensuring the potential success of the applicant in the program. Applicants whose native language is not English or who have not earned a degree in the United States must also submit TOEFL scores earned within two (2) years of the desired term of entry. A minimum total score of 79 on the Internet-based test, 213 on the computer-based test, or 550 on the paper-based test is required. Students' personal characteristics that add to the diversity of the class may also be considered.

[www.coba.usf.edu](http://www.coba.usf.edu)
DEGREE PROGRAM REQUIREMENTS

Total Minimum hours: 32

The M.B.A. degree is a 32-35 hour program. All M.B.A. candidates must complete all degree requirements within five (5) years of beginning the program. The full time student generally will need 3-4 semesters to complete the program. Part time students can complete all work within a reasonable time—approximately three years. Part time students are encouraged to take two courses per semester and must complete 12 hours per calendar year to remain on active status as a degree-seeking student. Courses are scheduled to accommodate both full time and part time students. All courses are at the graduate level. Students entering the program are expected to have sufficient competency in mathematics (college algebra), communication skills (written and verbal), basic computer skills, high-speed internet access, and a business foundation.

BUSINESS FOUNDATION

Individuals accepted into the MBA program are expected to have a common body of business knowledge, as evidenced by a degree in a business discipline from an accredited institution. If a student has an undergraduate degree from an AACSB-accredited institution the student may request to waive foundation courses taken within the last 7 years. Students with degrees from a U.S. regionally-accredited institution or international institutions also may request a waiver of one or more foundation courses by providing a syllabus for each course. Students who do not waive foundation course requirements will take the prerequisite business foundation courses at the start of the program.

Students may wish to complete foundation coursework before applying to the MBA program or they may wish to complete only the foundation courses without applying to the MBA program. For such students the Certificate in Business Foundations is available. Information about and admission requirements for the Certificate in Business Foundations is available at the College of Business Website http://business.usf.edu/.

Students who are not required to take the business foundation courses are required to take an MBA Boot Camp course (non-credit) in the first semester of enrollment.

Students pursuing a general MBA may choose electives from among non-foundation graduate level courses offered in the college, or other colleges if an approved part of their program of study.

### Electives  15 credits minimum-

NOTE: Some elective courses may not be offered each year

### Total Semester Credits Required  32-35 Credits

### Integrated Business Applications

The MBA capstone course, Integrated Business Applications, affords students the opportunity to integrate and apply knowledge, skills and experience as they develop a cohesive, comprehensive business plan that serves as the focal point of their learning for the semester. Working in teams, students develop and present a strategic/marketing plan, an implementation plan supported by financial strategies and pro-forma financial statements, and a balanced scorecard designed to provide multiple measures of strategic, operating, and financial performance.

### Constraints

1. The maximum credits required is thirty-five (35); the minimum is thirty-two (32).
2. Students with an undergraduate degree in business from an AACSB accredited program are required to take MBA Bootcamp (non-credit) in the first semester of enrollment.
3. Students who are required to take the foundation courses are required to take 15 hours of elective courses. Students who are required to take Bootcamp are required to take 18 credit hours of elective courses.

NOTE: Foundation courses may not be counted as electives.

### Thesis

Students may elect a 6 hour thesis in any of the areas of the business disciplines subject to departmental approval.

## M.B.A./CONCENTRATION IN SPORT BUSINESS

The MBA with a Concentration in Sport Business prepares graduates to contribute to and take leading positions in the global sport and entertainment industry. It complements the solid grounding in the applied fundamentals of accounting, finance, information systems, management and marketing provided by a recognized, high-quality MBA with coursework focused on the business of sport—human capital, organization resources and development, innovation and technology in sport, culture and business relationships, sport and law and emerging issues in global sport. Academic course work is supported by internships, mentorships, professional seminars, guest speakers, and networking opportunities to provide graduates the tools and skills to function effectively in the competitive global environment of sport and entertainment management.

The ideal degree candidate will have a passion for the business and industry rather than simply be a lover of sports. The MBA with a Concentration in Sport Business is a “direct admit” program: applicants should apply via the program Website: [http://business.usf.edu/programs/graduate/sport-entertainment/](http://business.usf.edu/programs/graduate/sport-entertainment/) rather than to the College’s MBA Office.

Students complete 17 hours of required MBA coursework and 15 hours of sport and entertainment coursework.

PROGRAM INFORMATION

The Ph.D. program offered by the College of Business provides its graduates with preparation for careers as college and university professors and as research and staff personnel in industry and government. The doctoral program provides for intellectual growth as students work closely with faculty in seminars, research projects, and other assignments which develop their teaching and research skills. The curriculum offers breadth of understanding of the integral components of business administration as well as depth of field specialization sufficient to permit the student to make a meaningful contribution to their discipline. The program is sufficiently flexible to allow each student to build upon his or her strengths and to accommodate students with various levels of preparation in a wide variety of fields, and in areas outside the college. However, the degree conferred is PhD in Business with a concentration in one of the departmental areas.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools; AACSBI International – The Association to Advance Collegiate Schools of Business.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

- Competitive based on GPA, GMAT or GRE
- personal statement
- recommendations
- interview
- International applicants from non-English-speaking countries must also have a TOEFL score of 550 or higher on the written version, a minimum score of 213 on the computer-based test or a 79 on the internet-based test.
DEGREE PROGRAM REQUIREMENTS

A minimum of 90 semester hours beyond the bachelor's degree is required. This includes 21 hours of dissertation. A minimum of 45 hours of coursework must be completed at the University of South Florida.

Foundation Courses
These courses are designed to develop an appreciation of the institution of business and to help students see how their areas of specialization fit into this general picture. With the approval of the student's program committee, a student may satisfy these requirements in any of the following ways:

A. By completing an undergraduate degree in business at an AACSB accredited institution, with an average of "B" or better in the last 60 hours, no more than 5 years prior to admission to the Ph.D. program.

B. By completing an M.B.A. degree at an AACSB accredited institution, no more than 5 years prior to admission to the Ph.D. program.

C. By completing one approved course with a grade of "B" or better in each of the functional areas: Accounting, Finance, Information Systems, Management, and Marketing. All graduate-level courses at the 6000 level or above, with the exception of specific "tool" courses (e.g. statistics), will count toward this requirement.

D. By successfully petitioning the doctoral Program Committee to accept previous academic work (e.g., specialized Masters programs in business, degrees granted more than 5 years ago, etc.) in fulfillment of all or part of this requirement. Such a petition must be initiated during the first semester of the program.

CORE REQUIREMENTS
The core courses are designed to provide a strong background in Economics and to develop the student’s quantitative and statistical research skills. These courses are required of all students in the program. The College will waive a course only if the student has passed the same or equivalent course with a grade of "B" or better within the preceding five years.

The Economics requirement can be met by completing two graduate level economics courses that have been approved by the student's program committee.

Students are required to take a one credit hour research skills course, QMB 7555, Research and Writing Skills for Doctoral students, in the first semester of the Program. Following this introductory course, the quantitative and statistical coursework is to be determined by the student’s program committee in consultation with the student. A three course series is required. An appropriate sequence should be chosen from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 6424</td>
<td>Econometrics I</td>
<td>3</td>
</tr>
<tr>
<td>ECO 6425</td>
<td>Econometrics II</td>
<td>3</td>
</tr>
<tr>
<td>ECO 7426</td>
<td>Econometrics III</td>
<td>3</td>
</tr>
<tr>
<td>ECO 7427</td>
<td>Econometrics IV</td>
<td>3</td>
</tr>
<tr>
<td>QMB 6375</td>
<td>Applied Linear Statistical Models</td>
<td>3</td>
</tr>
<tr>
<td>QMB 7565</td>
<td>Introduction to Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>QMB 7566</td>
<td>Applied Multivariate Statistical Methods</td>
<td>3</td>
</tr>
</tbody>
</table>

Any substitution of appropriate mathematics, statistical and quantitative coursework must be approved by the Doctoral Program Committee, preferably at the time of acceptance, or definitely before the student takes a substitute course. In addition, students are required to take an additional research elective approved by their advisory committee. Should a student earn a grade of "C" or lower in the core courses, the case will be brought before the Doctoral Program Committee for review. After reviewing the case, the Committee will take one of the following steps:

a. Require the student to pass an examination that covers the material relevant to the subject. A student who fails the exam on the first attempt may retake it within one year. A student who fails the exam on the second attempt will be subject to dismissal.

b. Require the student to retake the course. If the student retakes the course and fails to receive a grade of "B" or better, the student is subject to dismissal.
Concentration Field
All students will take at least five (5) courses at the 6000 or 7000 level in an area designated as the student's Concentration. Students are encouraged to identify courses in the concentration field that will provide experience in applying current research techniques to problems in that field. To accomplish this, the student may propose a combination of formal classroom courses and independent directed-research courses. This combination may include a year-long research seminar in which the groundwork is laid for the student's dissertation. The specific agenda of courses will be determined by the student's program committee. The following fields are offered: Accounting, Economics, Finance, Information Systems, Management (inactive) and Marketing. Courses taken as part of the Foundation or Core sections may not be counted as part of the hours required for a concentration field.

Support Field (9 hours)
The support area will consist of a minimum of three courses (9 hours) from one or more of the fields listed under the concentration field, or elsewhere in the university. The support field and the concentration field cannot be taken in the same department. Courses within the support field can be selected to complement the concentration field and in special cases may include courses outside the College of Business. The nature and number of the support area courses will be determined by the Student's Program Committee in consultation with the Ph.D. coordinator of the support field department. Courses taken as part of the Foundation or Core courses may not be counted as part of the 9 hours required for support fields.

CONCENTRATIONS
Students select one of the following concentrations:

Accounting Concentration Requirements
The Accounting concentration emphasizes:
- The mastery of one or more specialized areas of accounting, such as accounting information systems, auditing, or financial accounting
- The development of requisite skills to engage in respected applied, practical and scholarly research
- The development of effective teaching skills

The concentration requires meeting the College of Business foundation course requirements and completing 41 hours of coursework. The 41 hours of coursework include:
- 17 credit hours of core requirements related to economics and research methods
- 15 credit hours of accounting courses
- 9 credit hours in a support field

Economics Concentration – Being terminated.

Finance Concentration Requirements
In addition to the required core and foundation courses, the curriculum will normally include the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 680</td>
<td>Theory of Finance</td>
<td>3</td>
</tr>
<tr>
<td>FIN 7808</td>
<td>Advanced Micro Finance</td>
<td>3</td>
</tr>
<tr>
<td>FIN 7817</td>
<td>Financial Markets</td>
<td>3</td>
</tr>
<tr>
<td>FIN 7930</td>
<td>Selected Topics in Finance</td>
<td>3, 3</td>
</tr>
<tr>
<td>FIN 7935</td>
<td>Finance Research Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

Courses taken as part of the Foundation or Core sections may not be counted as part of the hours required for the concentration.
Support Field (9 hours):
Those who elect Finance as a support field will establish their support field curriculum in consultation with their major advisors and a representative from the Finance department. Normally, a support field in Finance would require the following three courses:

- FIN 6804 Theory of Finance 3
- FIN 7817 Financial Markets 3
- FIN 7808 Advanced Micro Finance 3

Comprehensive Qualifying Exam:
Upon completion of all coursework, students must pass a comprehensive written examination. The student’s performance on this exam should reflect familiarity with the literature, current issues and problems related to these fields. A student who fails the field exam may retake it within one year. A second failure disqualifies the student from continuing in the Ph.D. program. If the degree is not conferred within 5 calendar years of the comprehensive qualifying examination, a second and different examination must be taken. Students passing the comprehensive qualifying examination are eligible for admission to candidacy for the Ph.D. program.

Dissertation:
21 credit hours of dissertation are required for the degree.

Residency Requirements:
Ph.D. students in the College are required to complete a minimum of 15 credit hours per calendar year. Failure to meet this requirement will result in the student being placed on conditional status.

Information Systems Concentration Requirements
ISM 6124 Advanced Systems Analysis and Design*
ISM 6218 Advanced Databases Management*
ISM 6225 Distributed Information Systems*
ISM 6930 Computational Methods in Business
ISM 7910 MIS Research Seminar I
ISM 7911 Seminar in Technical IS Research
ISM 7912 Seminar in MIS Organizational Research
One additional ISM course at the 6000 level or higher. **

*Note: This requirement can be waived if a student has taken these or equivalent graduate courses in a prior program and earned a B or higher. Waiver requests for any of the courses listed above should include a copy of the course syllabus and should be submitted to the department’s Ph.D. Coordinator.

**Note that any of the three courses taken to satisfy the foundational course requirement in Information Systems can also satisfy this requirement.

Support Field (9 hours):
Students take 3 graduate courses outside of the concentration area. Courses may be taken outside of the College of Business, but should complement the concentration subject area.

Comprehensive Qualifying Exam:
Upon completion of all coursework, students must pass a comprehensive examination in the concentration area. The student’s performance on this exam should reflect familiarity with the literature, current issues, and problems related to these fields.

There are two parts to the comprehensive examinations following the completion of coursework:
- A written examination and
- An oral presentation and successful defense of the student’s “second year research paper.”

Students will be considered to have passed the comprehensive exam if they pass the written exam and successfully present and defend the “second year research paper.”
Marketing Concentration Requirements

Students will be required to successfully complete a minimum of 6 doctoral-level Marketing seminars. Typically, one doctoral seminar will be offered in the Fall semester and two seminars will be offered in the Spring semester. The six required courses may be selected from the following list:

- MAR 7555  Consumer Behavior Theory
- MAR 7635  Advanced Marketing Research: Design and Technique
- MAR 7667  Marketing Models and Strategy Applications
- MAR 7787  Marketing Theory and History
- MAR 7910  Independent Study in Marketing (S/U only)
- MAR 7930  Advanced Seminar in Marketing
- MAR 7931  Seminar in Selected Marketing Topics including:
  - Buyer-Seller Interaction
  - Marketing Channels, Logistics and Supply Chain Management
  - Marketing Management
  - Marketing Strategy
  - Readings in Marketing
  - Sales Management
- MAR 7980  Dissertation Research (S/U only)

In addition, students will complete a “Pro-Seminar” every Fall semester for the first two years of study. Note: The Professional Seminars do not count as one of the six required Ph. D. seminars.

Comprehensive Qualifying Examinations:
Upon completion of all coursework, students must pass the equivalent of a comprehensive examination in the concentration area. The student’s performance on these “exams” should reflect familiarity with the literature, as well as with current issues and problems related to these fields. A student who fails either of the examss may retake it within one year. A second failure disqualifies the student from continuing the Ph.D. program. If the degree is not conferred within 5 calendar years of the comprehensive qualifying examination, a second and different examination must be taken. Students passing the qualifying examination are eligible for admission to candidacy for the Ph.D. program.

The decision to administer a separate comprehensive exam for a support area will be made by the department in which the support area is taken. In the event that an interdisciplinary support area is selected, any department represented by six (6) or more semester hours may require a qualifying examination. In the event that no single department represents six semester hours or more, the student’s program committee will solicit input from the faculty teaching the courses in the support area. If a majority of those polled take the position that a separate comprehensive examination in the support area is not appropriate, the exam will not be administered. If a separate comprehensive examination is not administered in a support area, material from the support area will be integrated into the comprehensive exam in the concentration area.

Dissertation:
21 hours of dissertation are required for the degree.

Residency Requirement:
Ph.D. students in the College are required to complete a minimum of 15 hours per calendar year. Failure to meet this requirement will result in the student being placed on conditional status.

CONTACT INFORMATION

College: Business
Department: Center for Entrepreneurship (DEA)

PROGRAM INFORMATION

The Center for Entrepreneurship at the University of South Florida, in conjunction with the Colleges of Business Administration, Engineering, and Medicine and the Graduate School, has established a novel, innovative, and unique program in interdisciplinary Entrepreneurship in Applied Technologies. The Master’s of Science Degree Program in Entrepreneurship in Applied Technologies is a 30 credit-hour program and consists of ten (10) courses that will consolidate the Entrepreneurship education and training for successful opportunity recognition and development, technology and market assessment, technology commercialization, new venture formation, and new venture financing into a single interdisciplinary program curriculum utilizing faculty and courses in the Colleges of Business Administration, Engineering, and Medicine under the auspices of the Graduate School.

The program is designed such that a student may complete it in a concentrated 12-month period of study or in an 18-month period. In addition, the Masters of Science Degree in Entrepreneurship is designed so that it can be completed as part of a dual-degree program in conjunction with a traditional M.A., M.S., M.B.A., M.D., or Ph.D. program. Dual degrees include the following: Biotechnology (M.S.), Information Systems (M.S.), Public Health (MPH), Environmental Science (M.S.), Civil Engineering (M.S.and Ph.D.), and Biomedical Engineering (Ph.D). The program must be completed by the student within a 5-year period following initiation.

Accreditation:
Accredited by the Association to Advance Collegiate Schools of Business and Commission on Colleges of the Southern Association of College and Schools.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

- Bachelor’s degree or equivalent from a regionally accredited university
- "B" (3.0 on a 4.0 scale) average in all upper division work
- Two (2) letters of recommendation
- Letter of interest
Entrepreneurship in Applied Technologies (M.S.)

- Statement of purpose
- Personal interview
- GRE, GMAT may be required on individual basis; MCAT or LSAT may be substituted
- Competence in Statistics, Accounting, and Finance must be demonstrated

DEGREE PROGRAM REQUIREMENTS

Program of Study
Course Requirements – Graduation will require successful completion of the 30 hour curriculum, with a minimum GPA of 3.00 (no grades below "C"), within a five (5) year period.

Stipends – N/A

Required Entrepreneurship Courses

Core Requirements
- GMS 6092 Principles of Intellectual Property (3)
- GMS 6094 Bio-medical Ethics in Tech. Entrepreneurship (3)
- EIN 6430 Overview of Regulated Industries (3)
- GMS 7930 Medical Ethics & Humanities (1-3)
- ENT 6947 Advanced Topics in Entrepreneurship (3)

Electives
- ENT 6016 New Venture Formation (3) or EIN 6935 Technology Venture Strategies (3)
- ENT 6116 Business Plan Development (3) or EIN 6324 Technical Entrepreneurship (3)
- ENT 6126 Strategic Entrepreneurship (3) or EIN 6936 Strategies in Entrepreneurship Tech (3)
- ENT 6186 Strategic Market Assessment (3) or EIN 6935 Strategic Market Assessments (3)
- ENT 6606 Product Development (3) or EIN 6934 New Product Development (3)
- ENT 6415 Venture Capital & Private Equity (3) or EIN 6934 Venture Capital & Private Equity (3)

PROGRAM INFORMATION

The M.S. Biomedical Engineering (BME) And M.S. Entrepreneurship In Applied Technologies (EAT) Dual Degree Program is designed to prepare students who can effectively function in the complex world of Biotechnology companies (“Biotechs”). The program’s objectives are to provide a strong Biomedical foundation for technical product development and research and development along with the skill set to effectively participate in the entrepreneurship, venture capital, business, and financial aspects of Biotechs. Students will pursue appropriate coursework within both The College of Engineering and The Center For Entrepreneurship, double counting a total of nine credit hours.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements for each program. Students must satisfy the requirements for the two degrees separately. No Letters Of Recommendation are required. Refer to the individual program listings for the specific requirements for each degree.

PROGRAM INFORMATION

The weekend Executive M.B.A. is a lock-step, 20-month, AACSB accredited program designed to meet the unique needs of both mid-career managers who have demonstrated the potential to reach senior management positions, and senior managers who desire to significantly increase their personal and organizational effectiveness. The program provides an opportunity to broaden and enrich management skills, to extend knowledge of modern business techniques, and to further develop understanding of the social, political, and economic forces that shape the business environment and influence decision making. Classes are scheduled all day on two Saturdays and one Friday a month for four semesters. The weekend format allows participants to continue carrying their careers while they master a range of managerial skills.

Accreditation:
The Commission on Colleges of the Southern Association of College and Schools (SACS), AACSB International –The Association to Advance Collegiate Schools of Business.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below. The weekend Executive MBA Program requires the submission of a preliminary application and personal interview prior to official graduate school application. Please see the program website for application forms or contact the program office.

Program Admission Requirements

- Must have a 3.0 upper-level GPA
- GMAT (may be waived)
- 5 years of management/professional experience
- Interview
- Statement of corporate approval
- International applicants from non-English-speaking countries must also have a TOEFL score of 550 or higher on the written version, a minimum score of 213 on the computer-based test or a 79 on the internet-based test.

## Program Information

**M.S. in Finance**

The M.S. in Finance offers a curriculum that concentrates on both finance and economics concepts. Students who complete the M.S. in Finance will be better prepared to succeed in careers in the financial world, especially in positions that require specialized knowledge about various finance topics.

**Accreditation**

Accredited by the Commission on Colleges of the Southern Association of College and Schools (SACS). AACSB International -The Association to Advance Collegiate Schools of Business.

**Major Research Areas**

Finance

## Admission Information

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

**Program Admission Requirements**

- GMAT score of 550 or higher
- Undergraduate upper-level GPA of 3.00 or higher
- International applicants from non-English-speaking countries must also have a TOEFL score of 550 or higher on the written version, a minimum score of 213 on the computer-based test or a 79 on the internet-based test.
DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours 30 hours

A student who does not have an undergraduate degree in business must complete the following tools before taking courses for which they are prerequisites (Semester hours are shown in the right column):

Tools Courses 10 hours
ACG 6026 Accounting Concepts for Managers 3*
ECO 6005 Economics Concepts for Managers 3*
FIN 6406 Financial Management 2
QMB 6305 Managerial Decision Analysis 2

Students must successfully (a grade of A or B) complete equivalent courses in each of these areas prior to taking MSF courses. Tools course can be waived, with the permission of the program director, if the student earned an A or B in these courses or equivalent courses at an AACSB accredited institution within five years of entering the MSF program.

Course Requirements:

Core Economics and Statistics 9 hours
ECO 6115 Microeconomics 3
ECO 6936 Mathematical Economics 3
ECO 6424 Econometrics I 3

Core Finance 15 hours
FIN 6416 Advanced Financial Mgmt 3
FIN 6465 Financial Statement Analysis 3
FIN 6515 Investments 3
FIN 6804 Theory of Finance 3
FIN 6445 Financial Policy 3
(FIN 6445 must be taken at the end of the program after the other core courses are completed.)

Core finance courses may be waived for students who graduated with finance majors from AACSB accredited programs within five years of entering the M.S. in Finance program. Only courses with the same content as the core finance courses can be used to satisfy the M.S. in Finance course requirements, and students must have earned grades of A or B to have such courses waived. Advanced finance courses must be substituted for waived courses.

Advanced Finance Electives 6 hours
Students can select any two of the following courses:
FIN 6246 Advanced Money and Capital Markets 3
FIN 6326 Bank Management 3
FIN 6418 Working Capital Management 3
FIN 6605 International Finance 3
FIN 6537 Financial Options and Futures 3
FIN 6934 Selected Topics in Finance 3

Additional Information Regarding Curriculum
Leadership, teamwork, communication skills and organizational change are emphasized. Much of the curriculum is delivered through case studies, class discussion, exercises, group projects, video taped role-playing, simulations, and prominent guest speakers from the local business and non-profit community. Emphasis is placed on student participation and teamwork. All courses include writing, presentation, and critical thinking skills.

College: Business
Department: Management and Organization (MAN)
Contact Information: www.grad.usf.edu
Other Resources: www.usf4you

PROGRAM INFORMATION

This program develops the skill to lead 21st century organizations. The future requires a very different type of leader than the past. The hierarchical model of scientific management is no longer widely accepted. The leaders of the future must be able to empower others and to facilitate teamwork in diverse groups, to recognize and adapt to the constraints and opportunities of a global economy, and to accommodate the ethical and societal needs of the environment within which the organization functions.

Both the profit and not-for-profit communities have recognized these changes and have demanded that business schools provide a modified and improved manager for the future - a manager who succeeds by facilitating the performance of others. Ethical and virtuous behavior as well as technical skills are promoted. These values lead to organizational behavior that is both effective and ethical. Intrapersonal, interpersonal, and organizational competencies are enhanced. The M.S. in Management faculty members blend scholarly activity and applied skills. It is the goal of the faculty to prepare graduates for successful careers as leaders in the real world.

This is an extremely progressive, dynamic, well-focused program. It is designed to help you reach career goals. The M.S. in Management curriculum proceeds through understanding of interpersonal and organizational dynamics, to planned change and implementation. Leadership, teamwork, communications skills and organizational change are emphasized. Much of the curriculum is delivered through case studies, class discussion, exercises, group projects, video taped role-playing, simulations, and prominent guest speakers from the local business and non-profit community. Emphasis is placed on student participation and teamwork. All courses include writing, presentation, and critical thinking skills.

Accreditation:
Accredited by the Commission on Colleges of the Southern Association of College and Schools (SACS). AACSBI International -The Association to Advance Collegiate Schools of Business.
ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements

Students are admitted to the M.S. in Management program based on the evaluation of their application in its entirety, including prior college level academic grades earned, GMAT or GRE scores, TOEFL scores (for international students only), letters of recommendation, resume, statement of purpose, and relevant work experience.

DEGREE PROGRAM REQUIREMENTS

Total Minimum Hours 30

The program requires a minimum of 30 hours of coursework and may be taken either full-time or part-time. Early in the first semester, a student and the program advisor will work together to complete a formal Program of Study that will define a coherent sequent of courses to satisfy the students objectives. The following four courses provide a solid understanding of stat-of-the-art research and practice covering the primary areas in the domain of Management.

Capstone Course 3 credit hours

MAN 6950 Capstone Experience in Leading Organizations

This course is considered to be the capstone of the M.S. in Management program and as such it must be taken during one of the last two semesters of the student’s program and integrates the topics covered in the four other core courses. Students will conduct an applied analysis of an organization, identifying areas needing improvement, and defining recommendations. The four other core courses are prerequisites for MAN 6950.

Electives 18 credit hours

Elective courses may be selected from additional management course or (with prior approval by the academic advisor) other areas of specialization such as sociology, psychology, sustainability, etc. With these elective courses, students may concentrate their M.S. degree in an area such as global management, strategy, leadership, or sustainability. The following courses are potential electives, depending on semester and offerings.

Track under Business Administration (Ph.D.) and application area in Business Administration (M.B.A.)

PROGRAM INFORMATION

Management Information Systems (M.S./M.I.S.)
The Master of Science in Management Information Systems (M.S./M.I.S.) meets the needs of the marketplace for expertise in both information technology and management. Highly qualified individuals with motivation for leadership in information technology fields are encouraged to apply for admission to this program. Graduates of the program are in great demand by firms in the information services sector of the economy, software development organizations, management consultants, and M.I.S. departments in industry. An Advisory Board consisting of senior information systems executives and consultants works closely with the department to ensure that the program maintains high standards.

The MS/M.I.S. program is designed for individuals who are challenged by applications of Information Systems and Information technology and who are willing to undertake a career that demands a broad rather than narrow range of skills. Students who already have considerable background either in information systems or in business coursework will make use of the built-in flexibility of the program, designing programs of study that will provide them with the best background for their careers. A faculty advisor will work closely with each student to design and monitor the most effective course sequence and optional thesis/practicum work.

Accreditation
Accredited by the Commission on Colleges of the Southern Association of College and Schools, and AACSBI- The Association to Advance Collegiate Schools of Business.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.
Program Admission Requirements
Students are admitted to the M.S./MIS program based on the evaluation of their application in its entirety, including prior college level academic grades earned, GMAT or GRE scores, TOEFL scores (for international students only), letters of recommendations, statement of purpose, and relevant work experience.

DEGREE PROGRAM REQUIREMENTS

Total Minimum Program Hours: 33 credits

The program requires 33 hours of coursework and may be taken either full-time or part-time. Full-time students with appropriate prerequisites may be able to complete the program in one full year (3 semesters) of study. Part-time students and full-time students who need prerequisites will typically need from 1 1/2 to 3 years to complete the degree. Early in the first semester, a student and the program advisor will work together to complete a formal Program of Study that will define a coherent sequence of courses to satisfy the student’s objectives. A student may have the option to complete a master’s thesis or a Practicum project, depending upon the availability and approval of a faculty sponsor.

Prerequisites
Incoming students are expected to have the following as prerequisites:

1) One semester of a high-level, object oriented programming language (e.g., C#, C++, Java) or substantial programming experience;
2) One semester of *Information Systems Analysis and Design* or equivalent experience;
3) One semester of *Database Systems* or equivalent experience;
4) A course in Statistics
5) A course in economics, and
6) A course in financial accounting.

These required prerequisite courses may be taken concurrently with courses in the M.S./M.I.S. program. Prerequisite courses do not count toward the 33 credit hours of course requirements in the M.S./M.I.S. program.

Technical Core 12 credits

The following four courses provide a solid understanding of state-of-the-art research and practice in technical areas of Information Systems Management.

1. **ISM 6124 (3 credits) – Advanced Systems Analysis and Design**
   Students learn to manage and perform activities throughout an information systems development life cycle, from the analysis of system requirements through system design to system implementation and operation. Advanced system development processes, methods, and tools are presented. This course is continually revised to include the latest theories and tools. A group project using advanced CASE tools is an integral portion of the course.

2. **ISM 6218 (3 credits) – Advanced Database Administration**
   Advanced practice and research in database systems, to include entity-relationship modeling, relational databases, object-oriented databases, performance issues, and management of the database administration (DBA) function. State-of-the-art database systems will be used for individual and group projects.

3. **ISM 6225 (3 credits) – Distributed Information Systems**
   Students learn technological as well as managerial aspects of telecommunication systems and distributed systems. Important topics covered include telecommunications fundamentals, voice and data communications, local and wide area networks, Internet, wireless technologies, and distributed systems.

4. **ISM 6436 (3 credits) – Operations and Supply Chain Processes**
   Students learn several aspects of Operations management, a discipline in business concerned with managing the transformation of inputs into outputs, with a special emphasis on business processes and business process improvement.
Capstone Course

**ISM 6155 (3 credits) – Enterprise Information Systems Management**

An advanced study of information system management to include system planning, project selection, project management, and organizational information management policies. This course is considered to be the capstone of the M.S./MIS program and as such it must be taken during one of the last two semesters of the student’s program.

Electives

Up to six elective courses may be selected from additional Information Systems courses or (with prior approval by the academic advisor) other areas of specialization such as areas of Management, Decision Sciences, Computer Science, Logistics, etc. Existing Course Offerings:

- ISM 6124  Adv Systems Analysis and Design  3
- ISM 6125  Software Architecture  3
- ISM 6145  Seminar on Software Testing  3
- ISM 6155  Capstone Course  3
- ISM 6218  Adv Database Management  3
- ISM 6225  Distributed Information Systems  3
- ISM 6305  Managing the Info Sys Function  3
- ISM 6382  International Aspects of Info Systems  3
- ISM 6405  Decision Support Syst Applications  3
- ISM 6480  Electronic Commerce  3
- ISM 6905  Independent Study  1-6
- ISM 6930  Selecte Topics in MIS  1-6
- ISM 6316  Project Management  3
- ISM 6136  Data Mining  3
- ISM 6208  Data Warehousing  3
- ISM 6056  Web Application Development  3
- ISM 6156  Enterprise Resource Planning & Bus Process Mgmt  3
- ISM 6328  Information Security and Risk Management  3

In addition, the following Special Topics are being offered:

- ISM 6930  Multimedia Applications
- ISM 6930  Mainframe Technologies
- ISM 6137  Statistical Data Mining

**Thesis Option**

The master’s thesis option requires six credits of ISM 6971, which count as six of the 18 MIS elective credits. The thesis must make a well-defined contribution to the research and development in an area of Information Systems.

- ISM 6971  Thesis: Masters  2-6

**Practicum Option**

The practicum option requires an investigation of a new information technology artifact. The project typically occurs in the student’s place of employment and is jointly supervised by a faculty member and a manager in the company. Based upon the magnitude of the project, either three or six hours of credit in ISM 6905 would be taken. The practicum would count for three or six hours of the 18 hours of MIS electives.

**Business Intelligence (BI) Track**

The M.S./MIS program offers a track in business intelligence. The requirements for this track are as follows.

**Required Courses**

Students will have to complete four out of the following five courses:

- ISM 6136  Data Mining*  3
- ISM 6218  Advanced Database Management  3
- ISM 6208  Data Warehousing  3
- ISM 6137 Statistical Data Mining*  3
- QMB 7566  Applied Multivariate Statistical Methods  3
In addition, graduate students who take the courses to satisfy this track and earn a GPA of 3.00 or higher for the courses in the track, will receive a “Joint SAS/USF Certificate in Analytics and Business Intelligence,” when they use a SAS analytics package as part of some of these courses.

*Specifically, graduate students will need to use, among other tools, SAS Enterprise Miner or an equivalent SAS analytics package in the Data Mining and Statistical Data Mining courses. Students may take both of the data mining courses, but only need to complete one of the two courses and four courses in the track to be eligible for the Certificate. The tool will be provided free for class use by SAS Institute.

**Accelerated B.S./M.S. Program**

The goal of the USF College of Business integrated undergraduate-graduate program in MIS is to provide outstanding undergraduate students an option to complete the B.S. undergraduate degree in MIS and the M.S. graduate degree in MIS in **five years** (141 total hours).

The integrated B.S./M.S. program is a 141-hour undergraduate-graduate option that allows eligible students to work towards the M.S. in MIS degree requirements while completing their undergraduate B.S. degree. Students interested in this option will work closely with an advisor and a faculty member to develop an integrated plan of study.

**General Guidelines**

- **Time of admission to the program:** Students will be eligible for admission to the integrated degree program at the beginning of their Senior year in MIS. Students must apply for admission consideration during their Junior year. Students will start taking courses in the graduate program in their Senior year.

- **Joint admission:** Students must apply to and meet admission requirements of the M.S. in MIS graduate program.

- **Plan of study:** In consultation with an advisor and a faculty member, students will be required to prepare a *Graduate Degree Action Plan*. The plan will cover the entire time period of the program and it will be periodically reviewed with an advisor.

- **Advising:** Students will present their portfolio (see below for details and a plan of study in person to the integrated program committee prior to being admitted to the program.

- **Tuition charges:** Students will be required to pay graduate tuition rates when taking graduate courses.

**Admission Requirements**

1. Students with at least a Junior standing in their undergraduate degree program may apply for admission consideration into the integrated B.S./M.S. undergraduate/graduate program Students will submit an *Accelerated Program Interest Form* that must be signed by the Graduate Program.

2. Students must have a minimum 3.25 GPA.

3. Interested students will be required to present a “portfolio” of the following credentials:
   a. Three letters of recommendation, at least two from faculty
   b. Statement of intent—a personal statement about why the student wishes to apply for the integrated program.
   c. Undergraduate transcripts.
   d. Other supporting documents (e.g., projects and papers, software, work experience, internships, etc.) should be included where possible.

4. The GMAT or GRE should be taken sometime before or during the Fall semester of the Junior year of study.

5. All applicants will need to meet *any other admission requirements established* for the M.S. in MIS program.

6. The application to the integrated program will be considered as a complete package and therefore obtaining a high undergraduate GPA is not a guarantee of admission. Grades in the undergraduate MIS core courses will be taken in consideration and will have a significant impact on the M.S./MIS acceptance decision.
Degree Requirements

5-Year Plan of Study for Integrated B.S./M.S. Undergraduate-Graduate Program:
With appropriate planning, a total of 12 hours of graduate credit may be taken that can be applied to both the B.S. and M.S. degrees. This will reduce the minimum total credits required for both programs from 153 (120 for B.S., 33 for M.S.) to 141 credits. Specifically:

- 9 hours of graduate credit can be taken in place of the 9 hours of elective undergraduate credits. The student must earn a minimum grade of B in each graduate course that is to be counted for both degrees.
- The graduate level Operations and Supply Chain Processes course ISM 6436 can be taken in place of the comparable undergraduate course ISM 3431.

A comprehensive plan of study to complete the integrated B.S./M.S. program will be developed with the guidance of an advisor and a faculty member. A possible plan of study could be as follows. Summer sessions may also be included in the study plan.

**First and Second Year**
Courses and credits as designated for Freshman and Sophomore years.

**Third Year (Apply for Admission to Integrated B.S./M.S. Program)**
ISM 3232 3
ISM 3113 3
Additional UG Courses 9
ISM 4212 3
ISM 4220 3
Additional UG Courses 9

**Fourth Year (Student accepted in M.S./MIS Program)**
ISM 6436 3
UG Courses 12
ISM 4300 (B.S. Capstone) 3
ISM 6124 3
UG Courses or Graduate Electives 6 hours

**Fifth Year**
ISM 6225 3
ISM 6218 3
Graduate Electives 6
ISM 6155 (M.S. Capstone) 3
Graduate Electives 12

The following courses are suggested specialization elective courses, cross-listed between the graduate and undergraduate catalog:
ISM 6145/4930 Software Testing
ISM 6156/4153 Enterprise Resource Planning
ISM 6328/4323 Information Security and Risk Management
ISM 6930/4930 Mainframe Technologies

**USF- Infosys Program**

Comprised of 33 credit hours with two courses offered every four months (with the exception of summer, when one to two courses may be offered over a twelve week period); the eleven courses comprising the program will be delivered to each cohort in no more than two and half years. New cohorts will begin twice each year in January and August.
Students will continue to be enrolled in the program as long as they

1) Remain Infosys employees
2) Continue to meet the USF and COB academic standard of maintaining a minimum GPA of 3.00/4.00.

Students who fail to enroll in program courses for six or more months will be required to reapply for admission. In that case COB will not guarantee availability of courses in the USF-Infosys program. Students have a break in enrollment must complete all required coursework within five years from the cohort start date as defined in the 2012/2013 and subsequent USF catalogs.

Prerequisites

Incoming students are expected to have completed or be enrolled concurrently in the following courses or equivalents:

- A one semester course that addresses a high-level, object-oriented programming language (e.g. C#, C++, Java) or substantial programming experience
- A one semester course in systems analysis and design or equivalent experience
- A one semester course in database systems or equivalent experience
- A one semester in statistics
- A one semester course in economics
- A one semester course in financial accounting

Prerequisite coursework may be completed at any regionally accredited college or university either on site or online; required prerequisites may also be satisfied by completion of non-academic credit courses that specify learning objectives and provide for assessment of learning. With prior approval, students may also enroll concurrently in prerequisites and Infosys program courses. Examples of acceptable online courses include:

Louisiana State University
- Economics: Econ 2000 Principles of Microeconomics

Brigham Young University
- Statistics: STA 121 Principles of Statistics

USF
- Statistics: QMB 6305 Managerial Decision Analysis
- Online not-for- credit prerequisite courses recommended by COB

Prerequisite courses will not count toward the 33 credit hours required for the MSMIS. Completion of the Infosys foundation program and relevant work experience may substitute for the technical prerequisites in object-oriented programming, systems analysis and design, and database design. Prerequisite coursework and equivalent experience will be evaluated by Infosys. Based on that evaluation, Infosys will provide assurance to USF that minimum levels of preparation have been met.

Admission

The ultimate admission decision for each student will rest with the COB. To be considered for admission, a student must provide a transcript or other academic record from a regionally accredited college or university indicating completion of requirements for a four year degree in engineering or a technical field or evidence of completion of both a three year degree and a higher level minimum one year program (e.g., M.Sc., MCA, M.Com. etc.)

The admission process will begin with Infosys sending a list of proposed students who are current employees to the COB. Concurrently, these students will complete the COB USF online application for admission to the MSMIS. Students applying online should select MS/MIS (Infosys) as the program of study from the program option available, and then input their Infosys employee number while inputting the online application form. and indicate the program code as USF-INFY.

Required application elements include:
- USF application form and application fee
- Infosys employee number and program code (USF-INFY)
- Official copies of undergraduate and graduate transcripts and degree certificates from all post-secondary institutions (Infosys will be responsible for collecting official transcripts and supporting documents and submitting them to the COBUSF)
- A statement of purpose
- Resume
- 2-3 Letters of Recommendations
- GMAT or GRE score
- TOEFL score for students whose primary language is not English - To receive consideration students, students whose primary language is not English must present a minimum TOEFL score of 213 (computer-based test) or 79 (Internet-based test); or 6.5 on the I-ELTS; or a converted score of 500 or higher on the verbal section of the GRE. Students who have earned a college degree from an institution for which the language of instruction is English (noted on the transcript) may waive this requirement.

Transcripts from institutions outside the United States, especially if they are not written in English, may require a transcript evaluation. If a transcript evaluation is required, the student will be responsible for any fees associated with the evaluations. Failure to pay for a required transcript evaluation will result in rejection of the application.

The COB will evaluate all applications and admit students who meet admission criteria for the USF COB onsite MSMIS program offered on the USF Tampa Campus. Students will be admitted to the program based on an evaluation of a portfolio of criteria including prior college-level academic record; GMAT or GRE score; letters of recommendation; the student’s statement of purpose; relevant work experience; and TOEFL score for students whose primary language is not English.

On admission, students will be required to pay a one-time administrative fee of $175.

**Degree Program Requirements**

The MS/MIS program requires 33 hours of coursework. Early in the first semester, a student and the program advisor will work together to complete a formal Program of Study that will define a coherent sequence of courses to satisfy the student’s objectives.

The following four courses form the technical core of the MS/MIS program.

- ISM 6124 – Advanced Systems Analysis and Design 3
- ISM 6218 – Advanced Database Administration 3
- ISM 6225 – Distributed Information Systems 3
- ISM 6436 – Operations and Supply Chain Processes 3

Students are required to take the following capstone course.
- Capstone Course (3 credits)
- ISM 6155 (3 credits) - Enterprise Information Systems Management

**Electives**

In addition to the above courses, six electives must be taken.

**COURSES**

PROGRAM INFORMATION

Contact program for information

Accreditation
Accredited by the Commission on Colleges of the Southern Association of College and Schools. AACSB International - The Association to Advance Collegiate Schools of Business.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as requirements listed below.

Program Admission Requirements
To be admitted to the MS in marketing program, an applicant must:

- Take the GMAT (Graduate Management Admission Test) and score a minimum of 500 (under special circumstances a GRE score may be considered in lieu of the GMAT).
- Have a 3.0 or higher upper level undergraduate GPA from an accredited university.
- Submit two letters of recommendation from either industry or academic sources.
- Work experience is desirable.
- To be granted an MS in Marketing degree, a student must have completed all of the required and elective courses with a GPA of 3.0 or higher.

DEGREE PROGRAM REQUIREMENTS

Prerequisites
During the first year of the program, students who are unable to waive the prerequisites will be required to take:
MAR 6815 Marketing Management (2)
QMB 6305 Managerial Decision Analysis (2)

These courses may be waived if taken within the last five years from an AACSB accredited program (two undergraduate marketing courses are required to substitute for MAR 6815).

**Core Marketing Classes (21 hours)**

**Electives (12 hours)**

Electives will be a set of coordinated courses in areas such as supply chain management, marketing communications, social marketing, marketing research or others. The specific courses will be chosen based on mutual agreement by the Director and the student. These courses will form a unified set, and will be designed to maximize the student’s objectives. These courses may be a combination of COBA courses and courses outside the College.

**Total Program (33 hours)**

**COURSES**

Other Resources: www.usf4you

PROGRAM INFORMATION

Contact program for information.

Accreditation
Accredited by the Commission on Colleges of the Southern Association of College and Schools. AACSB International - The Association to Advance Collegiate Schools of Business.

ADMISSION INFORMATION

Must meet University requirements (see Graduate Admissions) as well as program’s requirements.

DEGREE PROGRAM REQUIREMENTS

Prerequisites/Tools Courses

A student who does not have an undergraduate degree in business will have to complete the following courses before taking courses in the MSRE program (semester credit hours are in parentheses):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACG 6025</td>
<td>Financial Accounting</td>
<td>2</td>
</tr>
<tr>
<td>ACG 6075</td>
<td>Managerial Accounting and Control</td>
<td>2</td>
</tr>
<tr>
<td>ECP 6702</td>
<td>Managerial Economics</td>
<td>2</td>
</tr>
<tr>
<td>ECO 6708</td>
<td>Global Economic Environment of Business</td>
<td>2</td>
</tr>
<tr>
<td>FIN 6406</td>
<td>Financial Management</td>
<td>2</td>
</tr>
<tr>
<td>QMB 6305</td>
<td>Managerial Decision Analysis</td>
<td>2</td>
</tr>
</tbody>
</table>

Students must successfully (a grade of A or B) complete equivalent courses in each of these areas prior to taking M.S.R.E. courses. These courses should have been completed in an AACSB accredited program within five years of entering the M.S.R.E. program.
## Required Core/Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 6416</td>
<td>Advanced Financial Management</td>
<td>3</td>
</tr>
<tr>
<td>REE 6045*</td>
<td>Real Estate Decisions</td>
<td>2</td>
</tr>
<tr>
<td>REE 6207*</td>
<td>Real Estate Finance</td>
<td>2</td>
</tr>
<tr>
<td>REE 6737*</td>
<td>Real Estate Development</td>
<td>3</td>
</tr>
<tr>
<td>REE 6305</td>
<td>Real Estate Investment</td>
<td>2</td>
</tr>
<tr>
<td>GIS 5049</td>
<td>GIS for Non-Majors</td>
<td>3</td>
</tr>
<tr>
<td>CGN 6933</td>
<td>Green Infrastructure and Sustainable Community</td>

</tr>
<tr>
<td>URP 6232</td>
<td>Research Methods for Urban &amp; Regional Planning</td>
<td>3</td>
</tr>
<tr>
<td>ARC 5931</td>
<td>The City</td>
<td>3</td>
</tr>
</tbody>
</table>

Core finance and real estate courses may be waived for students who graduated from AACSB accredited programs within five years of entering the M.S.R.E. program and took courses with substantially the same content. Only courses with the same content as the core finance courses can be used to satisfy the M.S.R.E. course requirements, and students must have earned a grade of A or B to have such courses waived. Advanced finance elective courses with the same total credit hours must be substituted for waived courses.

## Advance Elective Courses

Students can select any three (a minimum of nine hours) of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 6515</td>

</tbody>
</table>

Students complete the three courses indicated with an asterisk as part of the requirements for the MBA with a Concentration in Sport and Entertainment Management. Because these nine hours of coursework are “shared” by the two programs, the 30 credit-hour MS in Sport and Entertainment Management requires an additional 21 hours to complete.
Comprehensive Exam

Internship
SPB 6946 Internship in Sport and Entertainment Management II
Option to complete thesis in lieu of internship.

CURRICULAR SEQUENCE
